(57) **CLAIM**

We claim the ornamental design for a rain barrel, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the rain barrel with elements shown in phantom forming no part of the claimed design; and FIG. 1 comprising a broken-line circle at reference numeral 2 isolating a representative surface area of the rain barrel incorporating a textured leaf pattern, the leaf pattern being distrib-

uted uniformly over the entire shaded region thereof even though shown only within the isolated area;

FIG. 2 is an enlarged view of the textured leaf pattern shown within the broken-line circle of FIG. 1;

FIG. 3 is a further perspective view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 4 is a front view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 5 is a right side view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 6 is a left side view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 7 is a top view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 8 is a bottom view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 9 is a further perspective view of the rain barrel with elements shown in phantom forming no part of the claimed

design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2.

FIG. 10 is a further perspective view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 11 is a further perspective view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 12 is a front view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 13 is a right side view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 14 is a left side view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2;

FIG. 15 is a top view of the rain barrel with elements shown in phantom forming no part of the claimed design; and for convenience of illustration, the shaded region representing the textured leaf pattern of FIGS. 1 and 2; and,

FIG. 16 is a bottom view of the rain barrel with elements shown in phantom forming no part of the claimed design.
