The ornamental design for a charging cradle for medical device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a preferred embodiment of the charging cradle for medical device according to the present design;

FIG. 2 is a front perspective view of the charging cradle for medical device of FIG. 1, and further including a medical device docked therewith and a power cable connected thereto, the medical device and the power cable being shown for illustrative purposes only and forming no part of the claimed invention;

FIG. 3 is a front elevational view of the charging cradle for medical device of FIG. 1;

FIG. 4 is a rear elevational view of the charging cradle for medical device of FIG. 1;

FIG. 5 is a right-side elevational view of the charging cradle for medical device of FIG. 1;

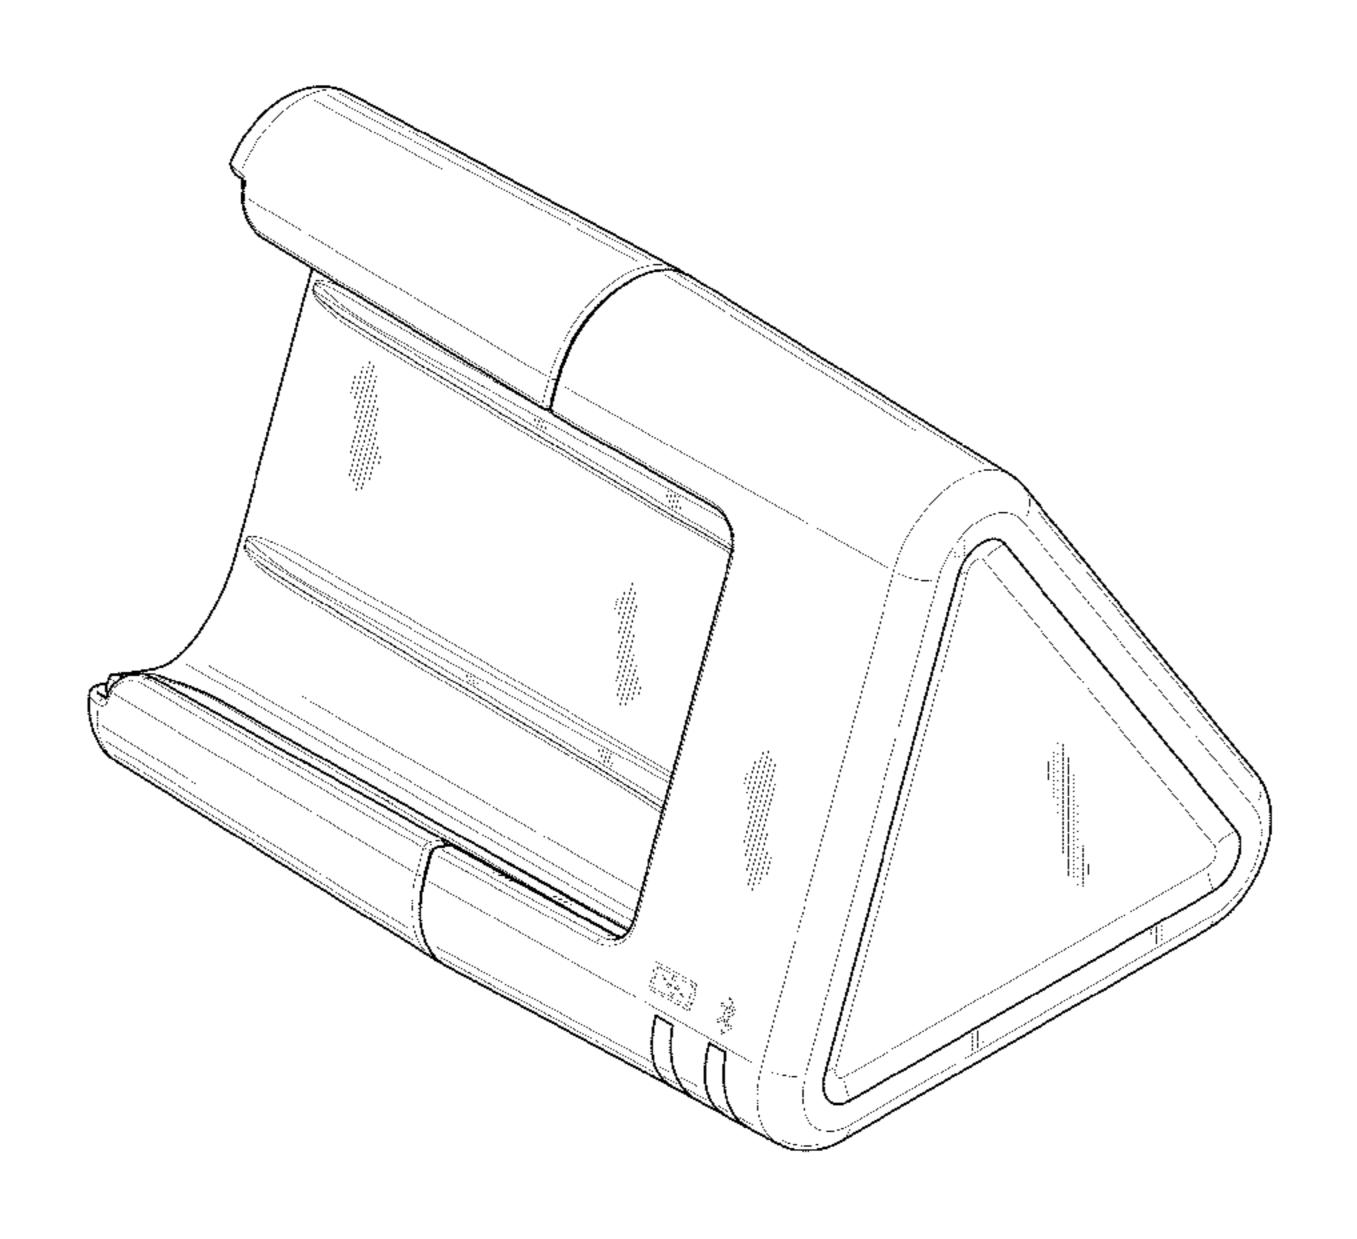

FIG. 6 is a left-side elevational view of the charging cradle for medical device of FIG. 1;

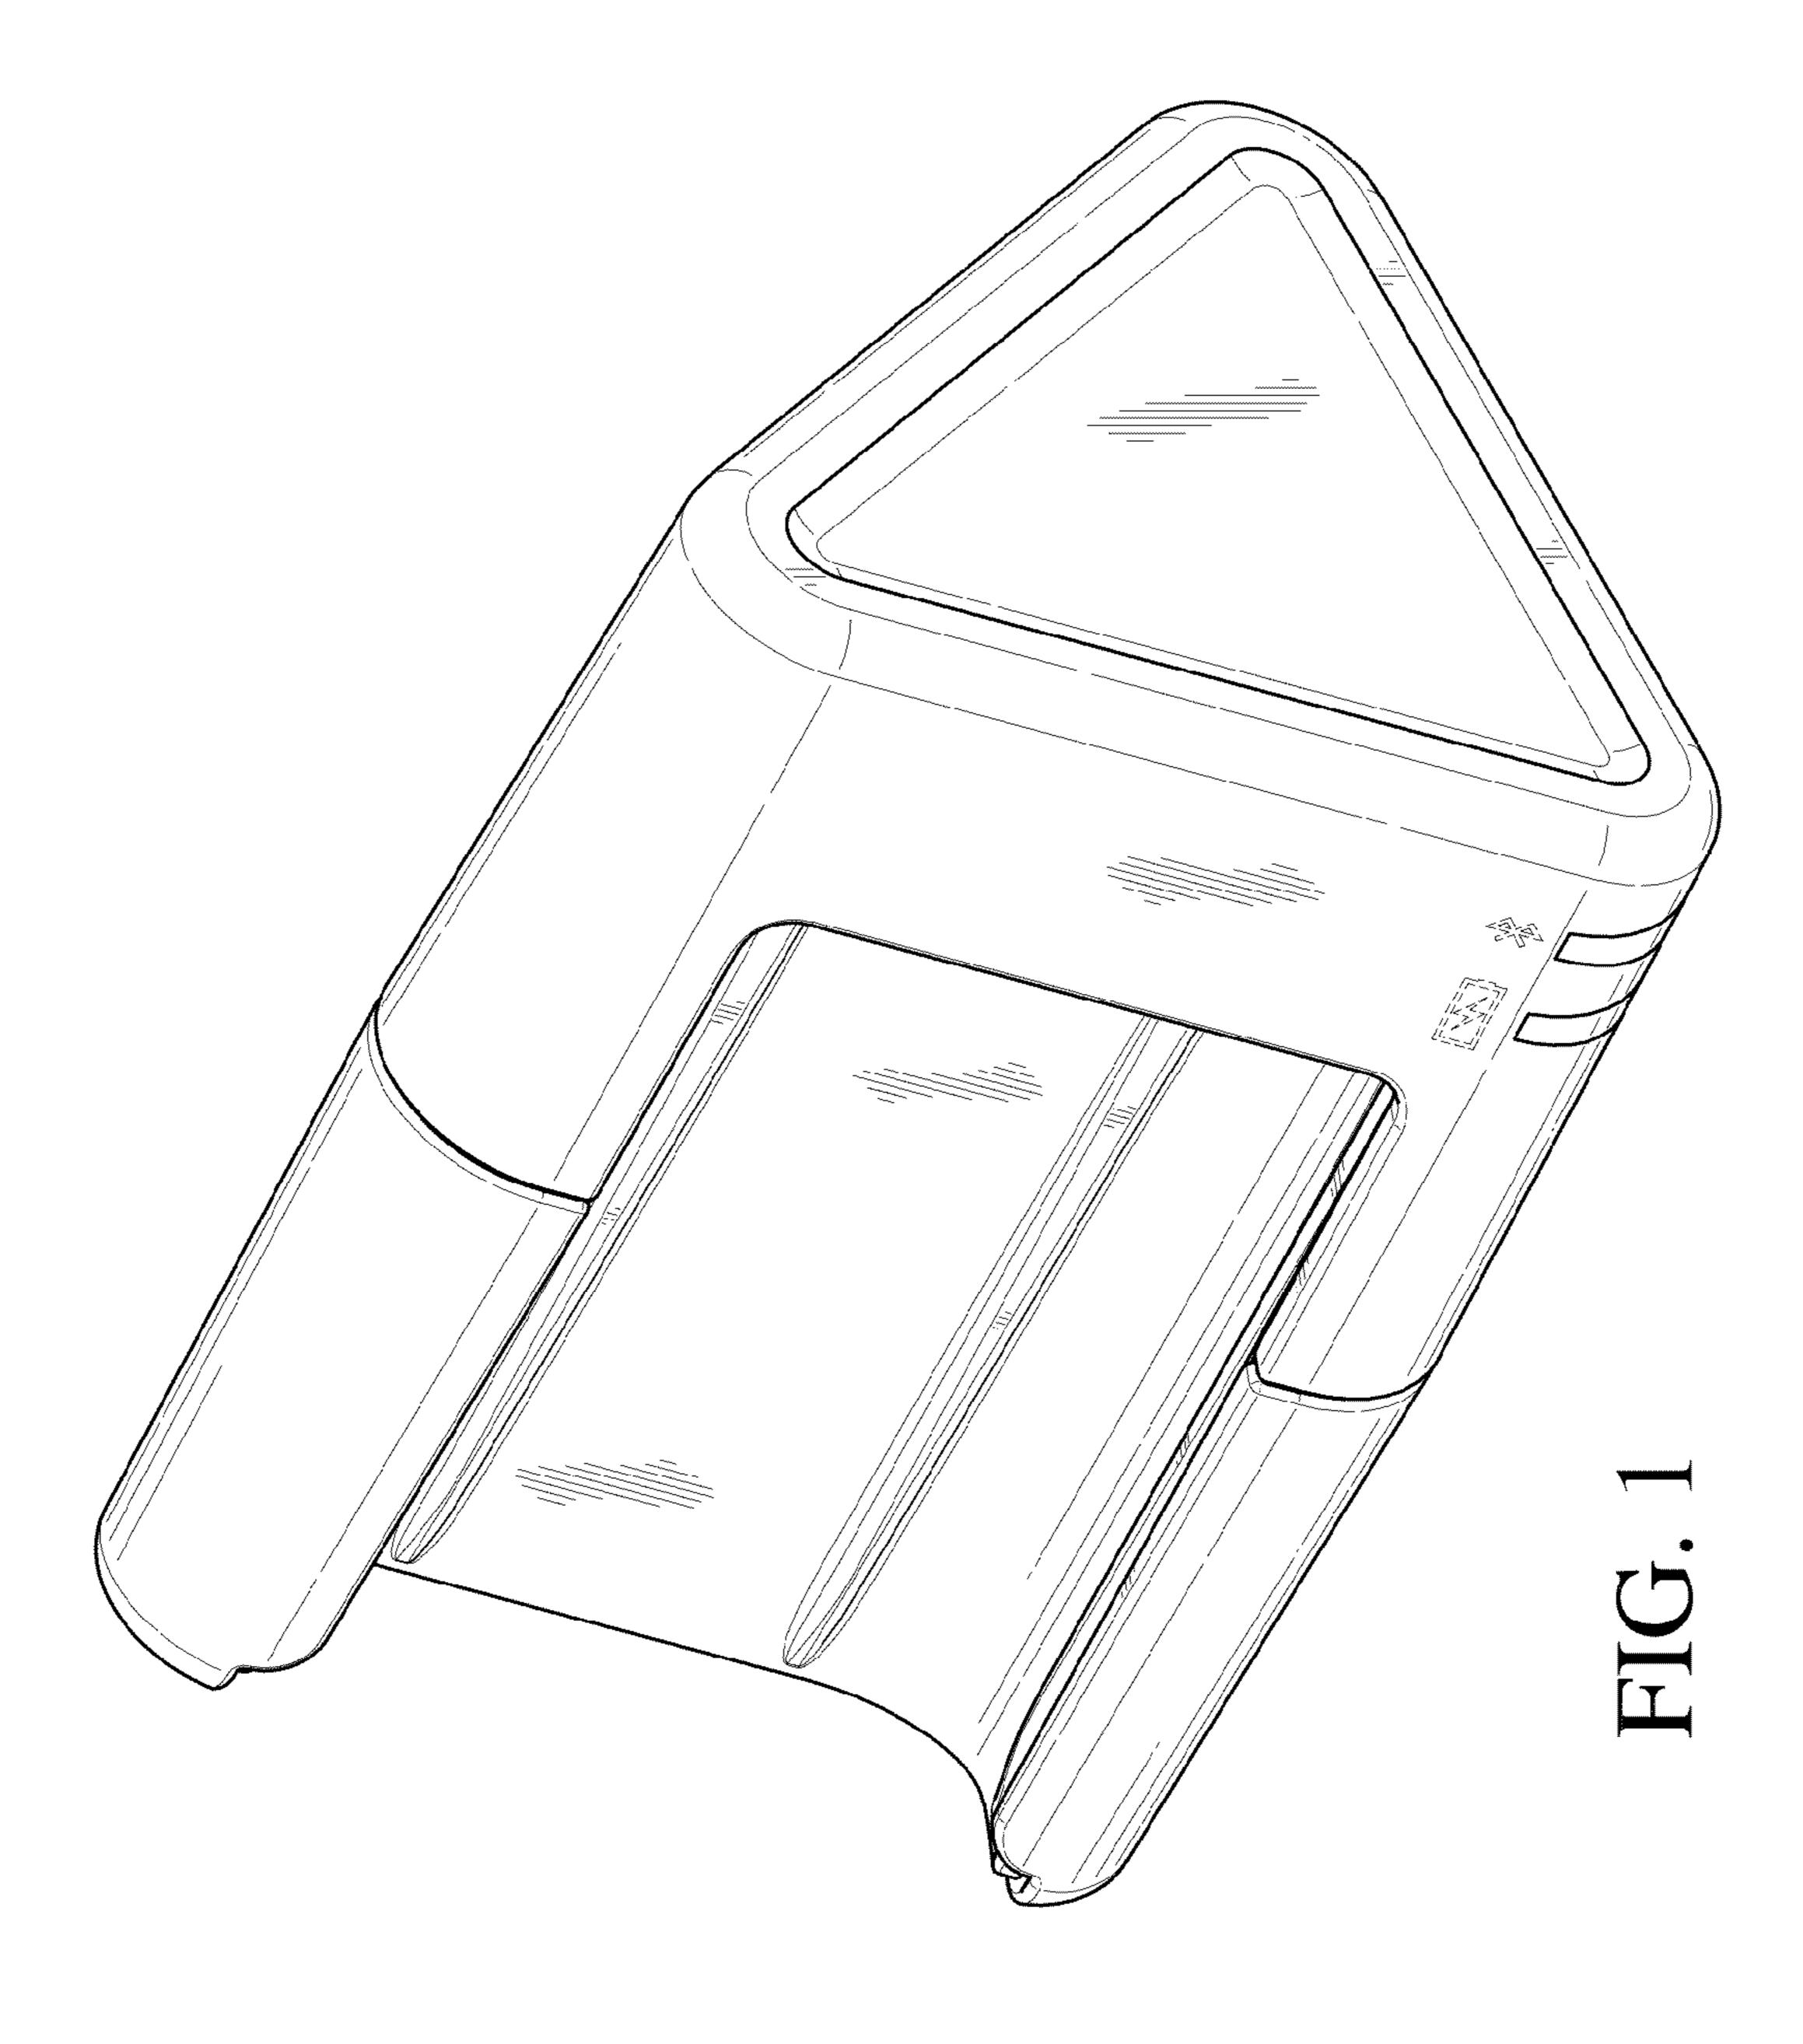

FIG. 7 is a top plan view of the charging cradle for medical device of FIG. 1; and,

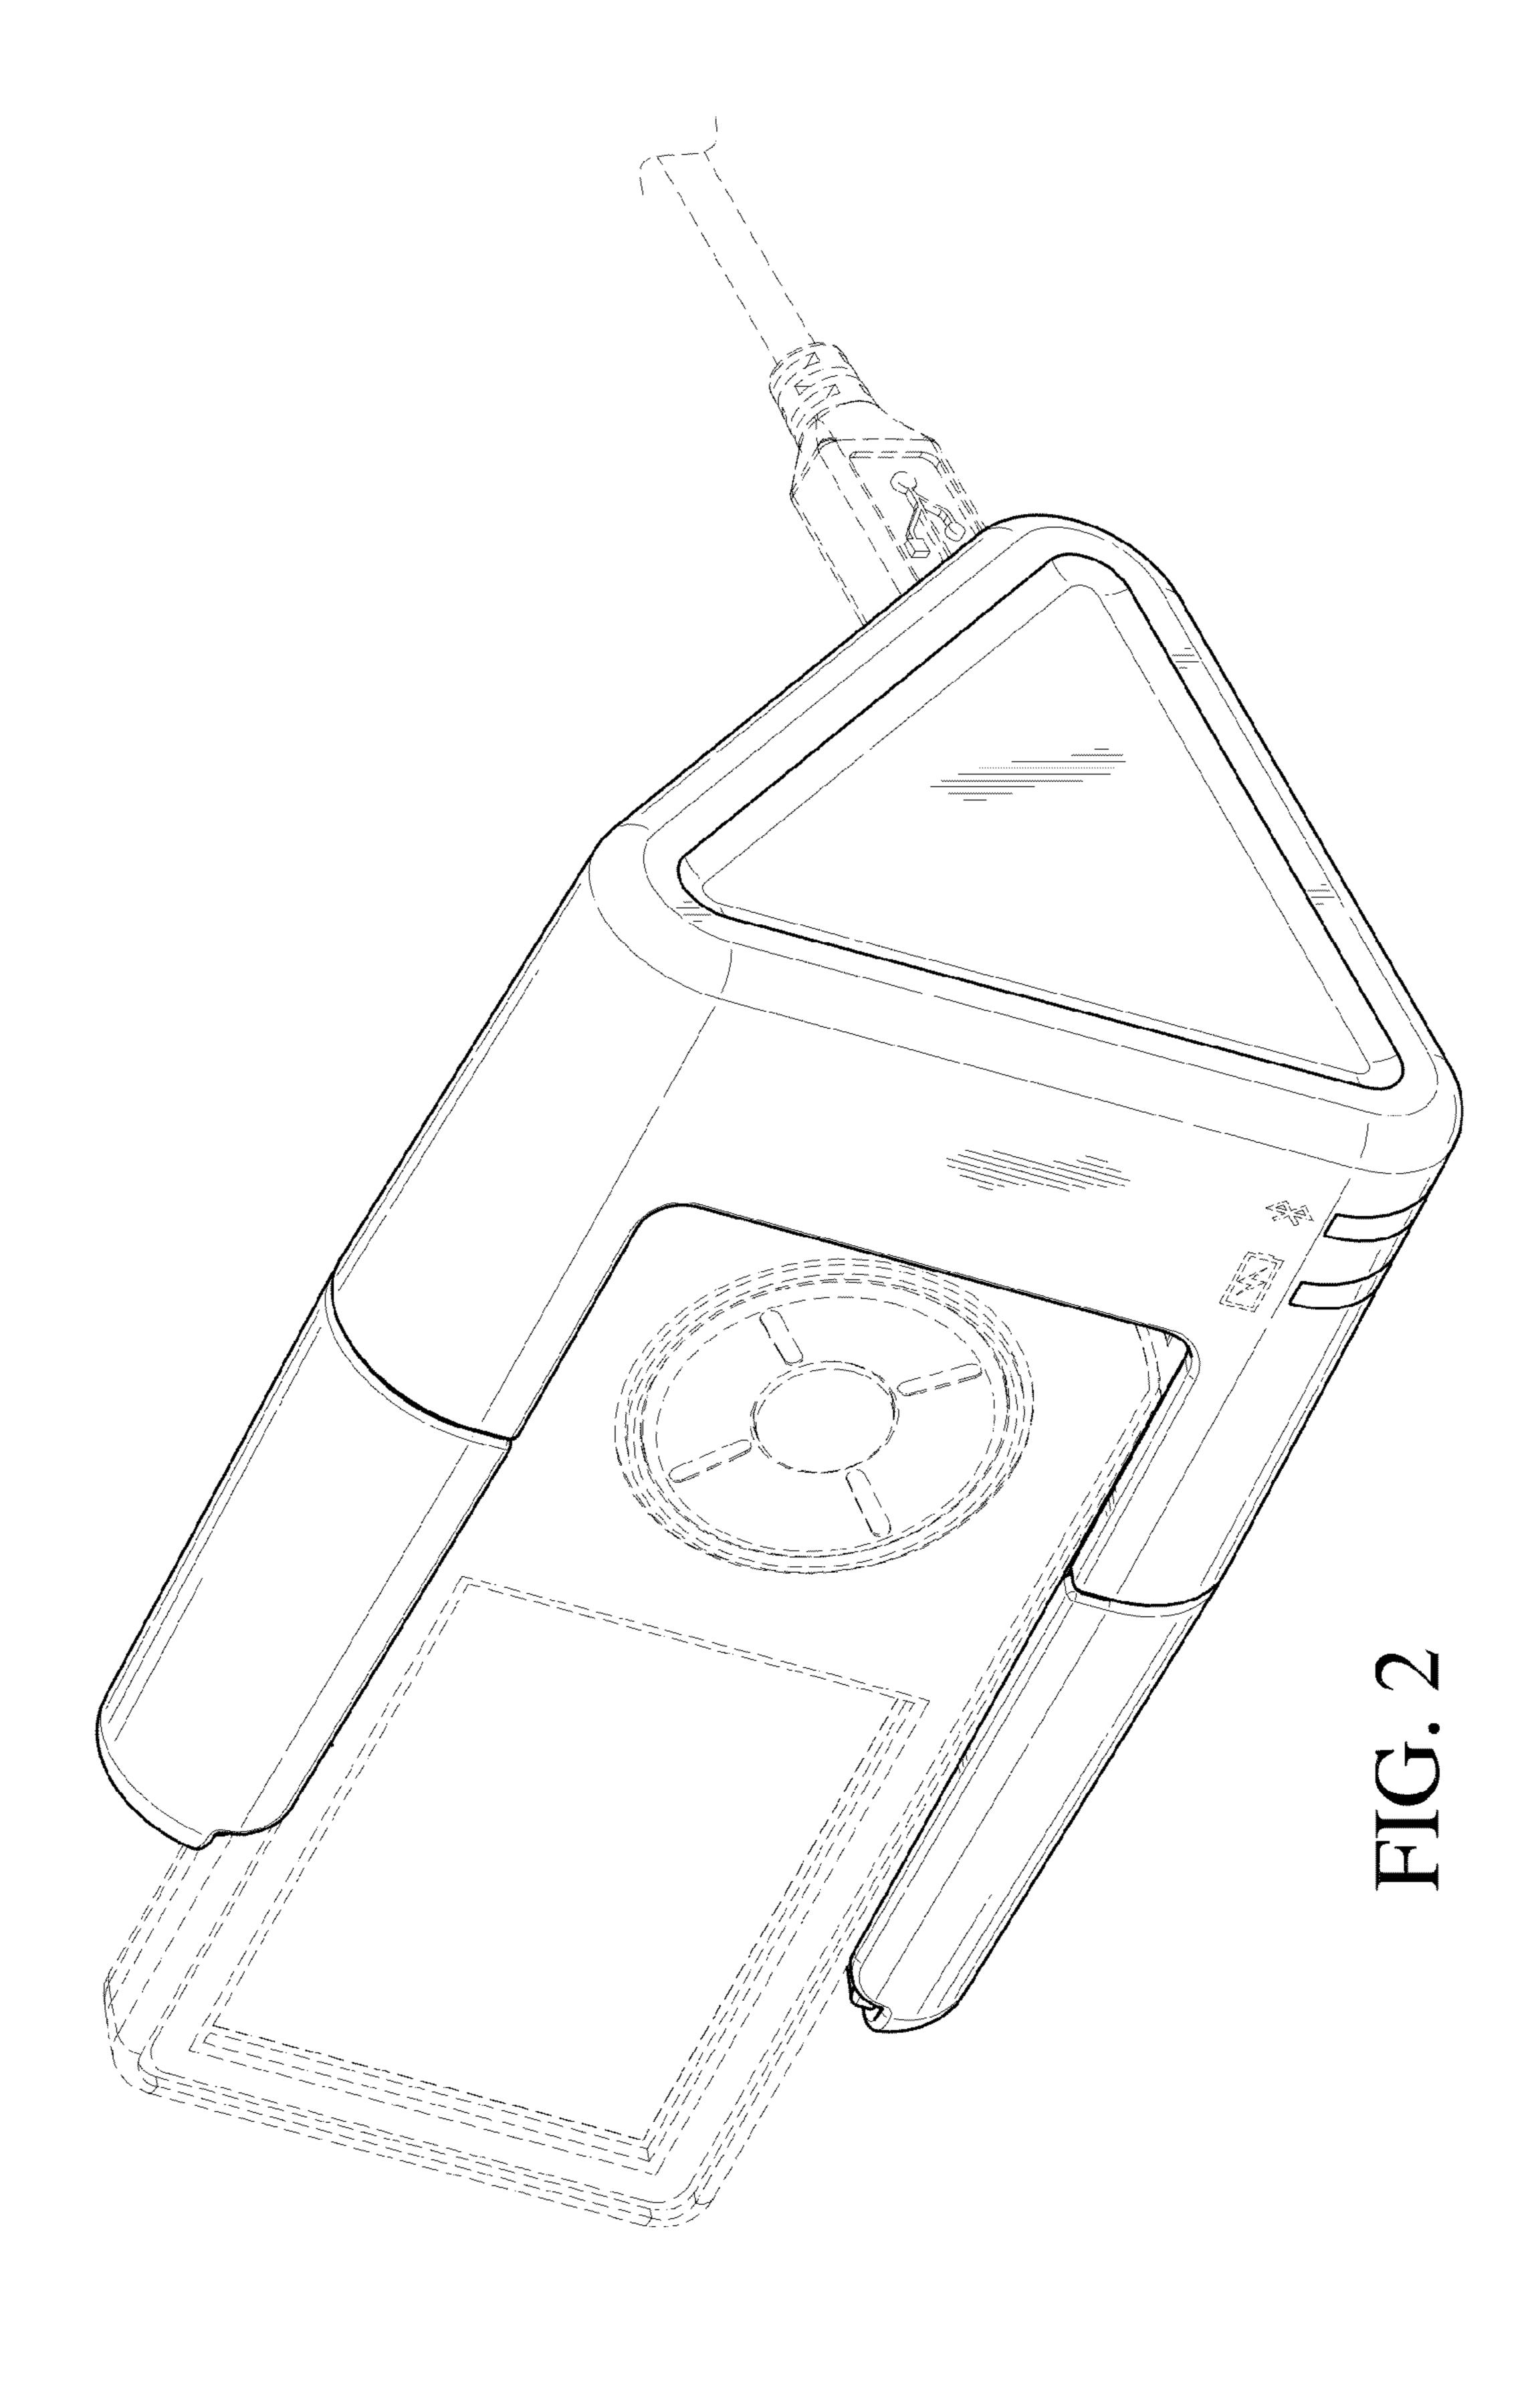

FIG. 8 is a bottom plan view of the charging cradle for medical device of FIG. 1.

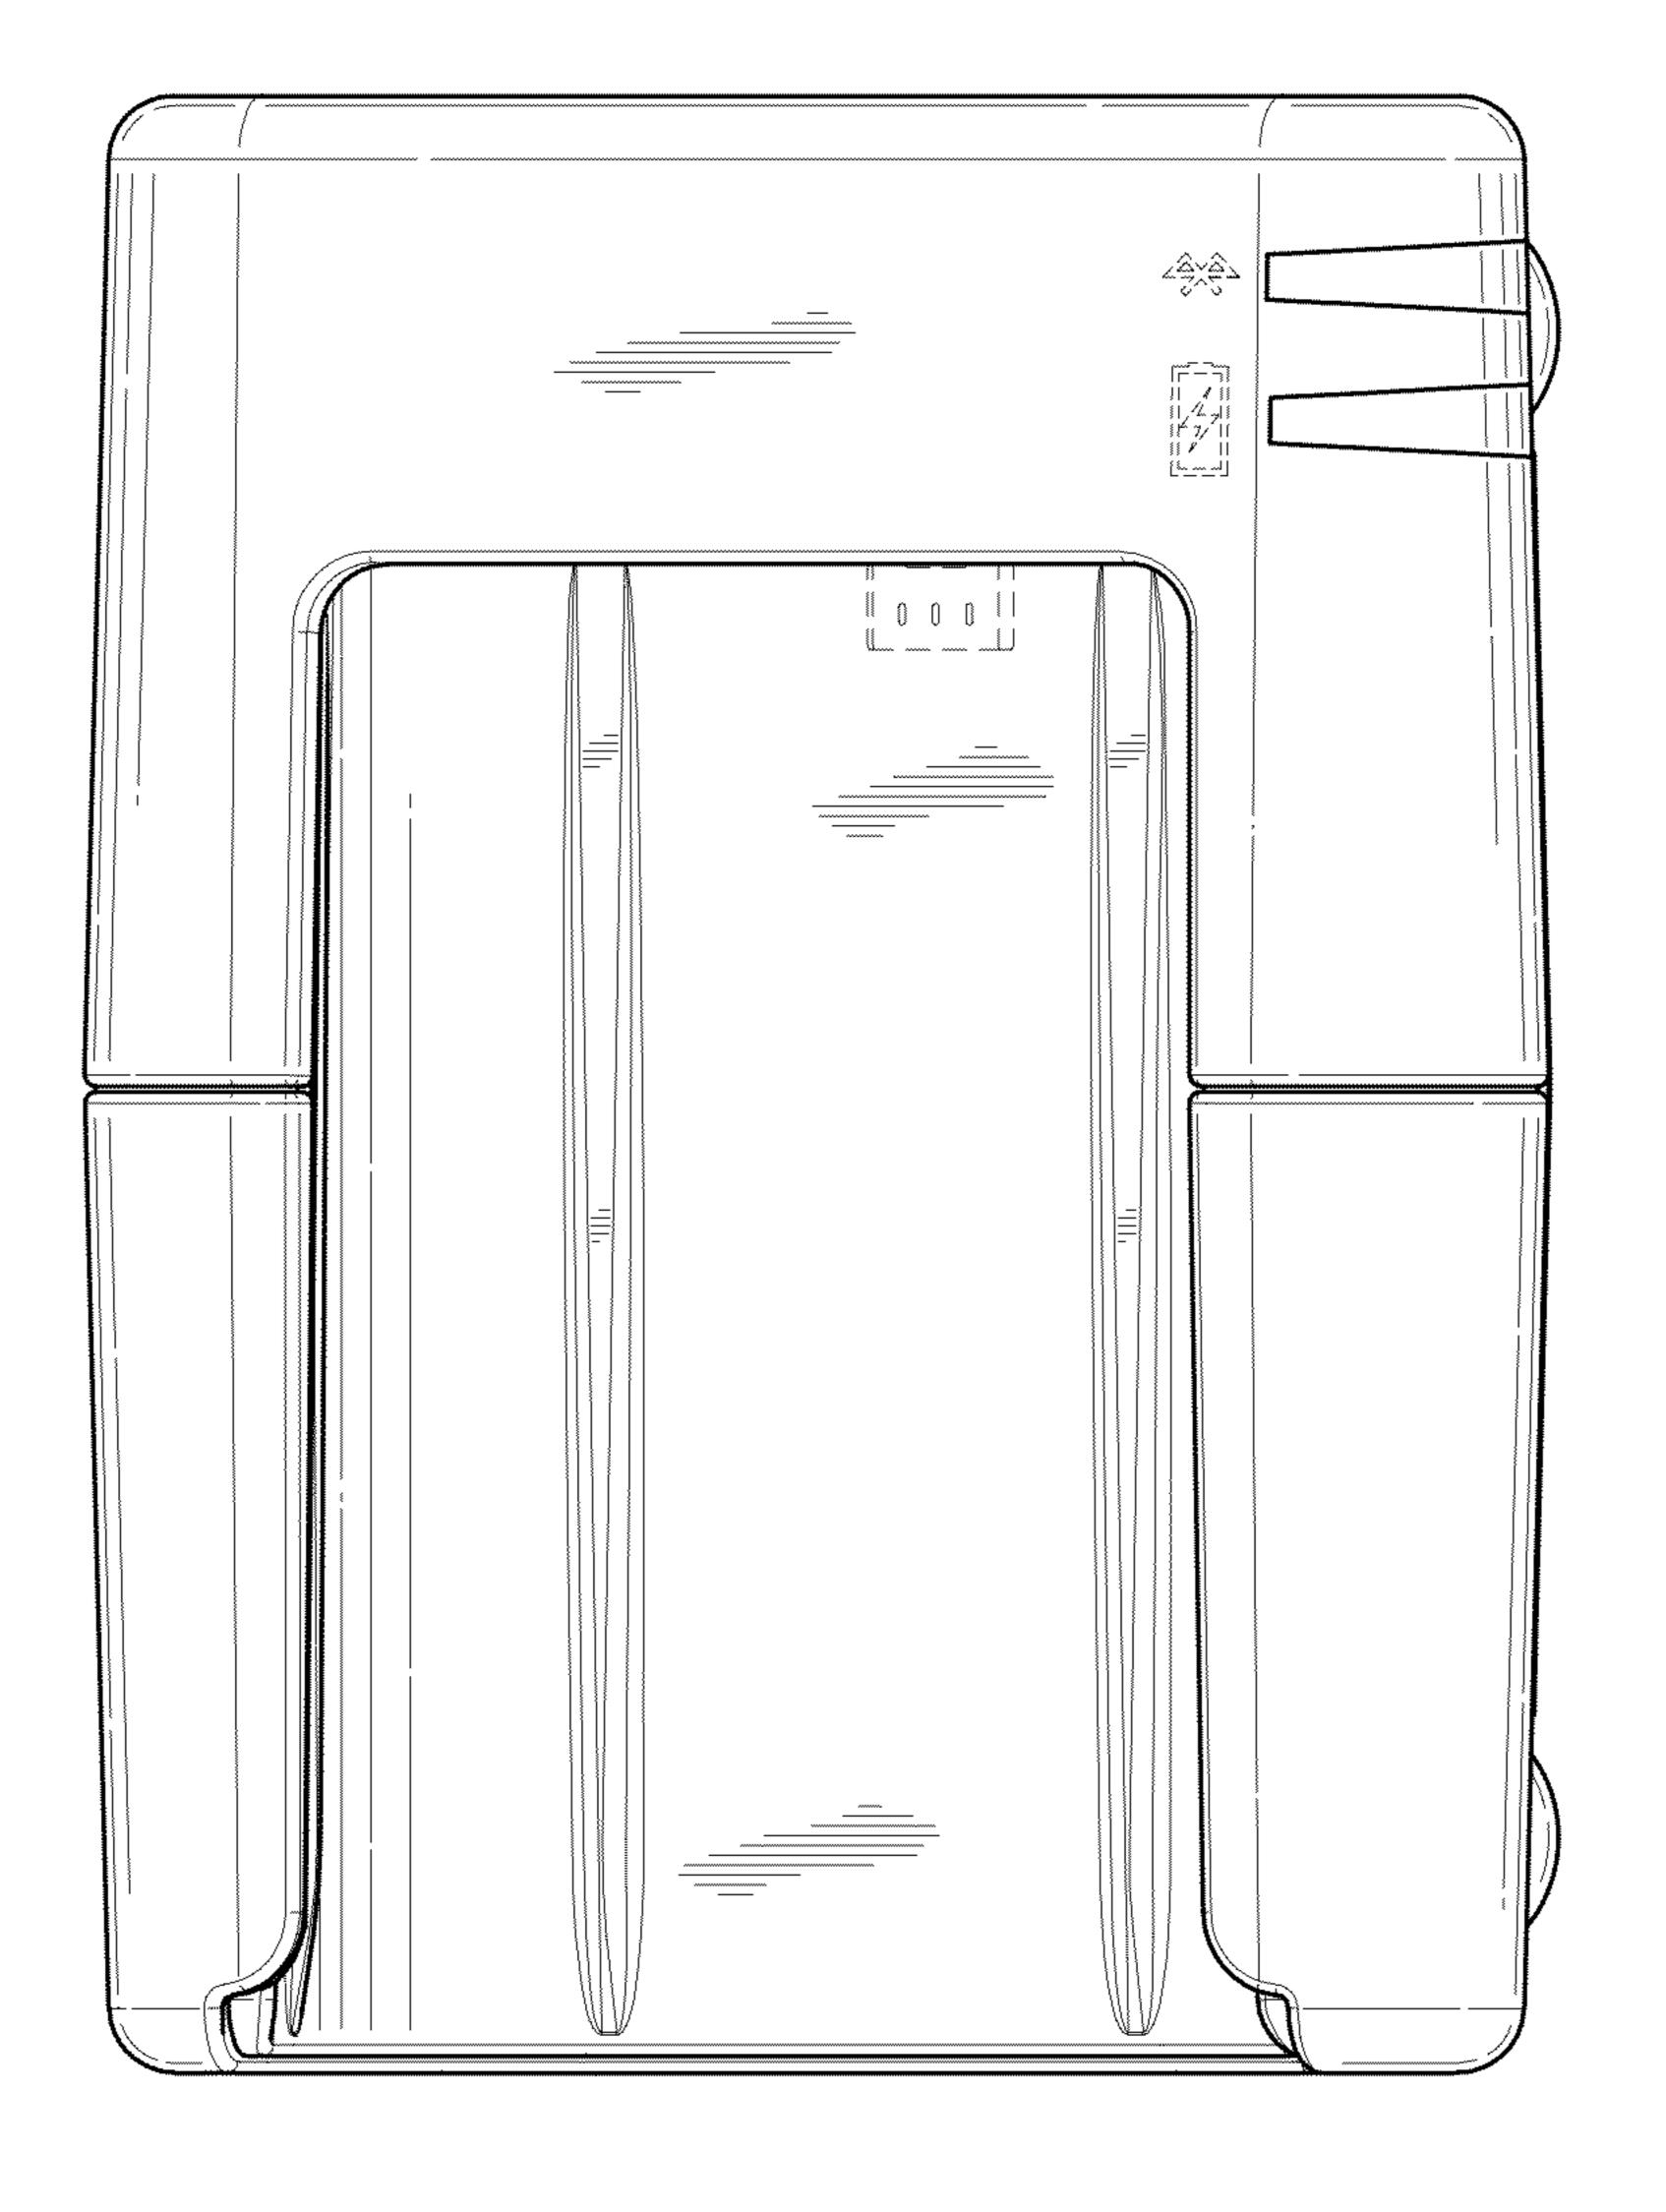

The phantom lines shown in the drawings are included for the purpose of illustrating environmental structure and form no part of the claimed design.
