(57) **CLAIM**

The ornamental design for a display screen with transitional graphic user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application

publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first image in a sequence for a display screen with transitional graphic user interface shown separate from the device for clarity of illustration;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof;

FIG. 6 is a front view of a sixth image thereof;

FIG. 7 is a front view of a seventh image thereof;

FIG. 8 is a front view of an eighth image thereof;

FIG. 9 is a front view of the design of FIG. 1 in which a device is provided in broken lines to illustrate an example environment;

FIG. 10 is a front view of a second image thereof;

FIG. 11 is a front view of a third image thereof;

FIG. 12 is a front view of a fourth image thereof;

FIG. 13 is a front view of a fifth image thereof;

FIG. 14 is a front view of a sixth image thereof;

FIG. 15 is a front view of a seventh image thereof; and,

FIG. 16 is a front view of an eighth image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 8 and FIGS. 9 through 16. The subject matter of this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

The broken line drawing of the device, and the symbol and otherwise images shown in broken lines in the generated image of FIGS. 9 through 16 are for illustrative purposes only and form no part of the claimed design. The text/words shown in broken lines in the generated image of FIGS. 1 through 16 are for illustrative purposes only and form no part of the claimed design.

The broken line showings of the device in FIGS. 9-16 are included for the purpose of illustrating environmental structure and form no part of the claimed design.
