(57) **CLAIM**

The ornamental design for a ceiling mounting bracket for fluorescent fixture, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the design for the ceiling mounting bracket for fluorescent fixture according to the present invention. structure shown in broken lines is for the purpose of illustrating environment and forms no part of the invention;

FIG. 2 is a partial, close-up view of one end of the bracket of FIG. 1;

FIG. 3 is an elevational view of one side of the design for a ceiling mounting bracket for fluorescent fixture, the other being identical thereto. Structural portions shown in broken lines represent environment and do not form a part of the invention;

FIG. 4 is a partial, close-up view of one end of the bracket of FIG. 2;

FIG. 5 is an elevational view of one end of the design for a ceiling mounting bracket for fluorescent fixture, the other being identical thereto. Structural portions shown in broken lines represent environment and do not form a part of the invention;

FIG. 6 is a partial, close-up view of the bracket of FIG. 5;

FIG. 7 is a top plan view of the ceiling mounting bracket for fluorescent fixture according to the present invention. Structural portions shown in broken lines representing environment, bottom of the bracket is not normally visible, and accordingly is not shown; and,

FIG. 8 is a partial, close-up view of one end of the bracket of FIG. 7.
