(57) **CLAIM**

The ornamental design for a thermostat, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a first variation of a first embodiment of a thermostat, showing my new design with an edge panel disposed along a right edge.

FIG. 2 is the perspective view of FIG. 1, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 3 is a top plan view thereof.

FIG. 4 is a left side elevational view thereof.

FIG. 5 is a front elevational view thereof.

FIG. 6 is a right side elevational view thereof.

FIG. 7 is a bottom plan view thereof.

FIG. 8 is a perspective view of a second variation of the first embodiment of the thermostat, showing my new design with an edge panel disposed along a left edge.

FIG. 9 is the perspective view of FIG. 8, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 10 is a top plan view thereof.

FIG. 11 is a left side elevational view thereof.

FIG. 12 is a front elevational view thereof.

FIG. 13 is a right side elevational view thereof.

FIG. 14 is a bottom plan view thereof.

FIG. 15 is a perspective view of a third variation of the first embodiment of the thermostat, showing my new design with an edge panel disposed along a bottom edge.

FIG. 16 is the perspective view of FIG. 15, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 17 is a top plan view thereof.

FIG. 18 is a left side elevational view thereof.

FIG. 19 is a front elevational view thereof.

FIG. 20 is a right side elevational view thereof.

FIG. 21 is a bottom plan view thereof.

FIG. 22 is a perspective view of a fourth variation of the first embodiment of the thermostat, showing my new design with an edge panel disposed along a top edge.

FIG. 23 is the perspective view of FIG. 22, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 24 is a top plan view thereof.

FIG. 25 is a left side elevational view thereof.

FIG. 26 is a front elevational view thereof.

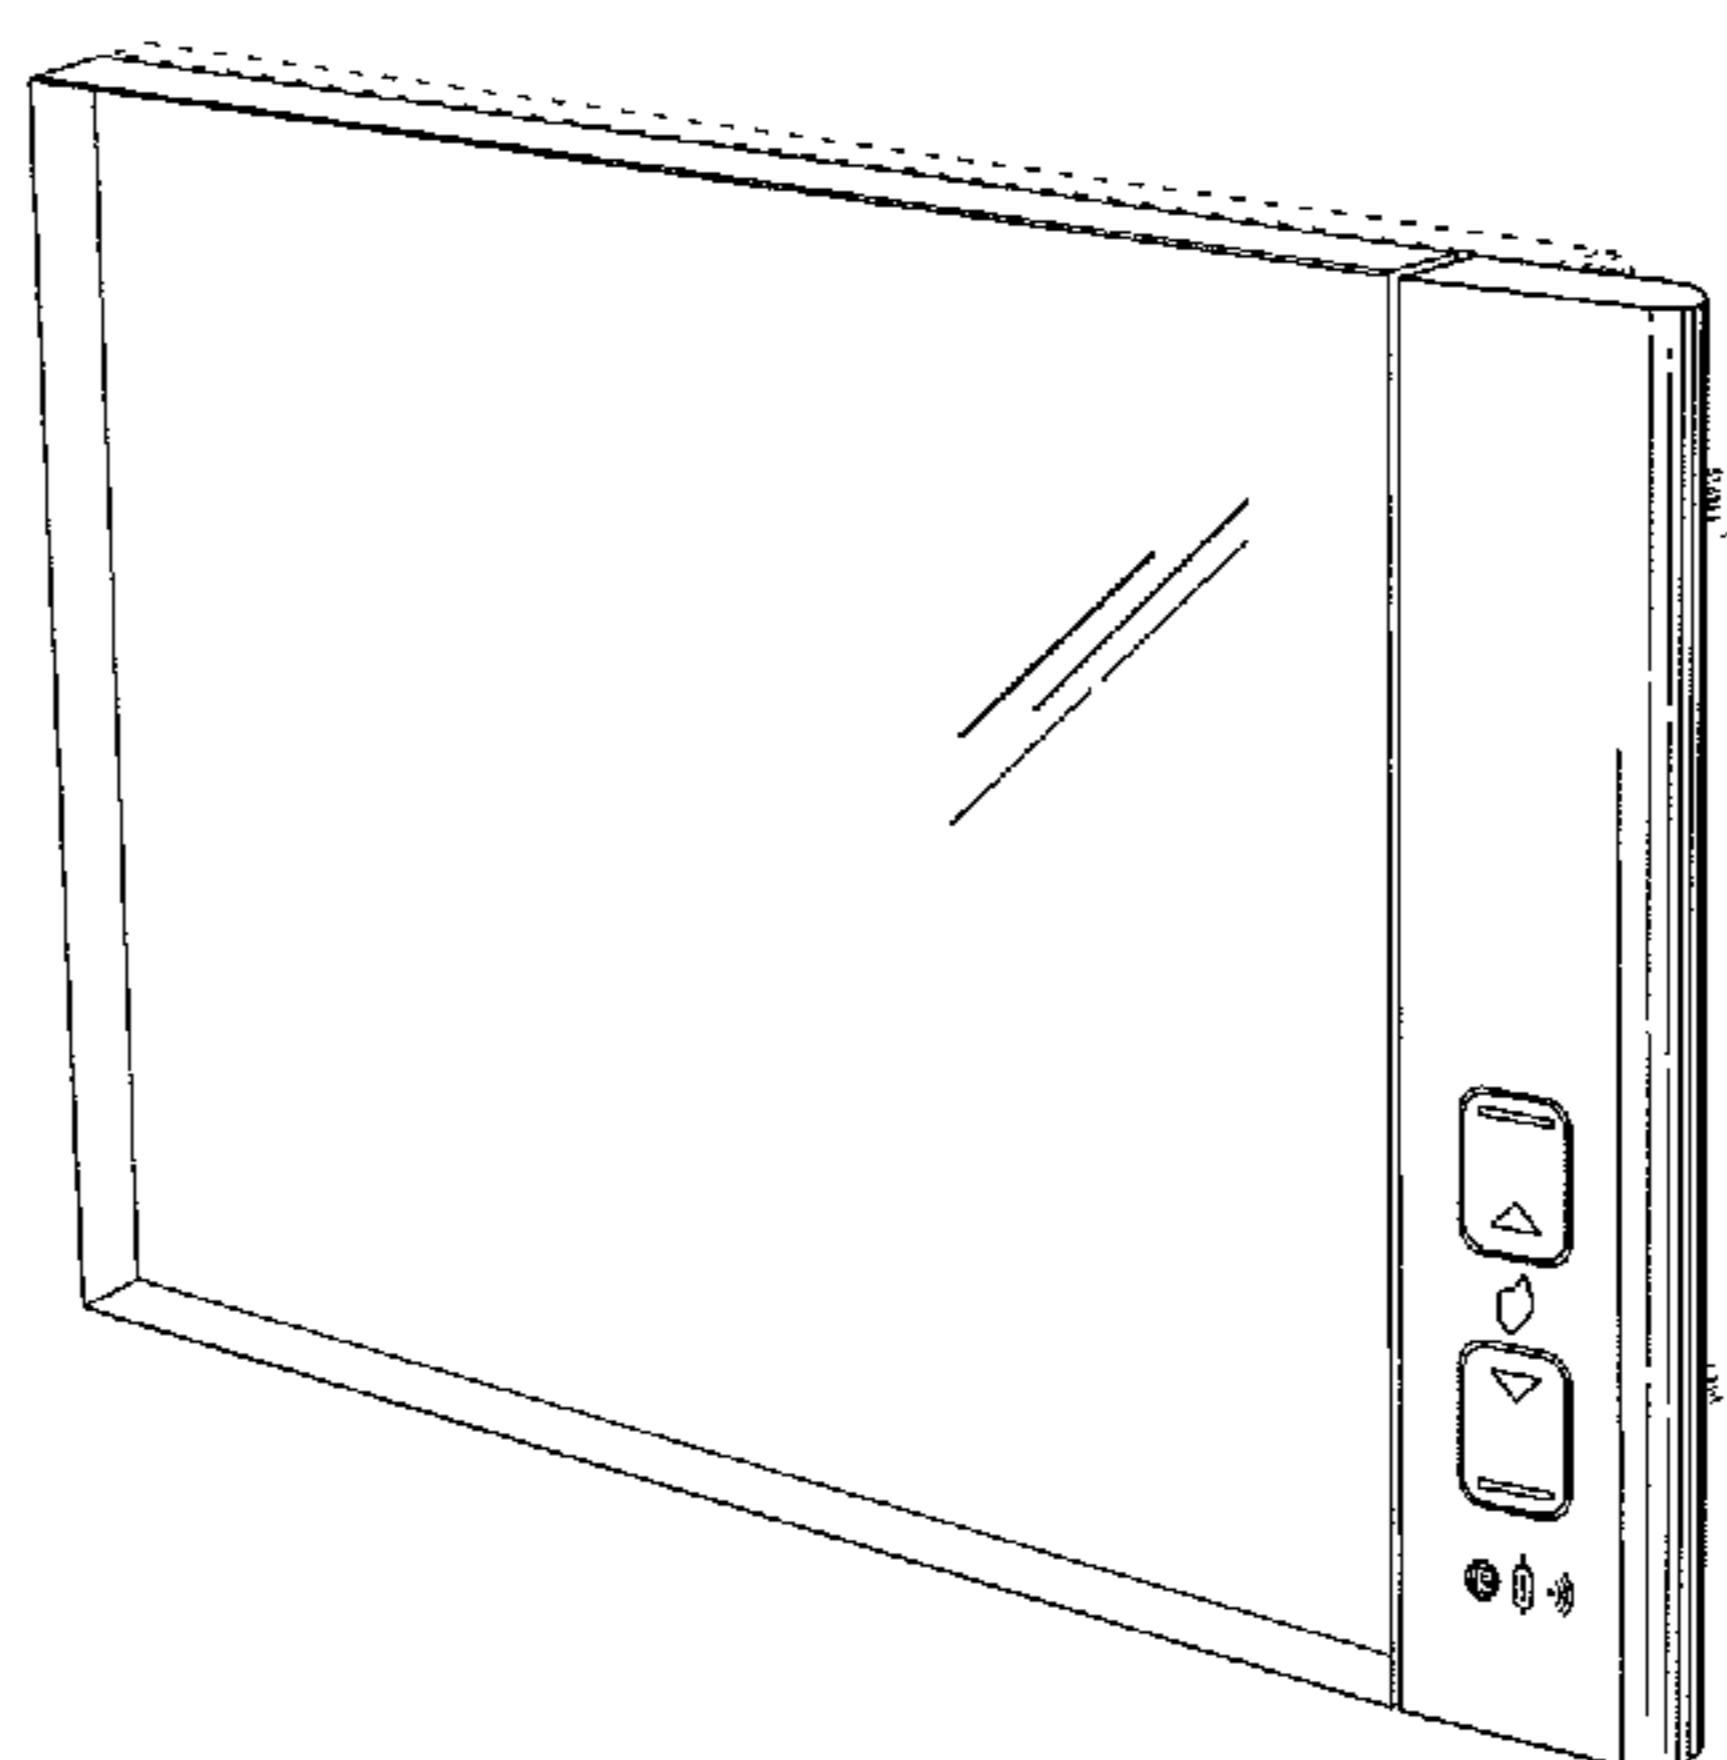

FIG. 27 is a right side elevational view thereof.  
FIG. 28 is a bottom plan view thereof.  
FIG. 29 is a perspective view of a first variation of a second embodiment of a thermostat, showing my new design with an unclaimed edge panel disposed along a right edge.  
FIG. 30 is the perspective view of FIG. 29, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 31 is a top plan view thereof.  
FIG. 32 is a left side elevational view thereof.  
FIG. 33 is a front elevational view thereof.  
FIG. 34 is a right side elevational view thereof.  
FIG. 35 is a bottom plan view thereof.  
FIG. 36 is a perspective view of a second variation of the second embodiment of the thermostat, showing my new design with an unclaimed edge panel disposed along a left edge.  
FIG. 37 is the perspective view of FIG. 36, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 38 is a top plan view thereof.  
FIG. 39 is a left side elevational view thereof.  
FIG. 40 is a front elevational view thereof.  
FIG. 41 is a right side elevational view thereof.  
FIG. 42 is a bottom plan view thereof.  
FIG. 43 is a perspective view of a third variation of the second embodiment of the thermostat, showing my new design with an unclaimed edge panel disposed along a bottom edge.  
FIG. 44 is the perspective view of FIG. 43, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 45 is a top plan view thereof.  
FIG. 46 is a left side elevational view thereof.  
FIG. 47 is a front elevational view thereof.  
FIG. 48 is a right side elevational view thereof.  
FIG. 49 is a bottom plan view thereof.  
FIG. 50 is a perspective view of a fourth variation of the second embodiment of the thermostat, showing my new design with an unclaimed edge panel disposed along a top edge.  
FIG. 51 is the perspective view of FIG. 50, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 52 is a top plan view thereof.  
FIG. 53 is a left side elevational view thereof.  
FIG. 54 is a front elevational view thereof.  
FIG. 55 is a right side elevational view thereof.  
FIG. 56 is a bottom plan view thereof.  
FIG. 57 is a perspective view of a first variation of a third embodiment of a thermostat, showing my new design with an edge panel disposed along a right edge.  
FIG. 58 is the perspective view of FIG. 57, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 59 is a top plan view thereof.  
FIG. 60 is a left side elevational view thereof.  
FIG. 61 is a front elevational view thereof.  
FIG. 62 is a right side elevational view thereof.  
FIG. 63 is a bottom plan view thereof.  
FIG. 64 is a perspective view of a second variation of the third embodiment of the thermostat, showing my new design with an edge panel disposed along a left edge.  
FIG. 65 is the perspective view of FIG. 64, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 66 is a top plan view thereof.  
FIG. 67 is a left side elevational view thereof.  
FIG. 68 is a front elevational view thereof.  
FIG. 69 is a right side elevational view thereof.  
FIG. 70 is a bottom plan view thereof.  
FIG. 71 is a perspective view of a third variation of the third embodiment of the thermostat, showing my new design with an edge panel disposed along a bottom edge.  
FIG. 72 is the perspective view of FIG. 71, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 73 is a top plan view thereof.  
FIG. 74 is a left side elevational view thereof.  
FIG. 75 is a front elevational view thereof.  
FIG. 76 is a right side elevational view thereof.  
FIG. 77 is a bottom plan view thereof.  
FIG. 78 is a perspective view of a fourth variation of the third embodiment of the thermostat, showing my new design with an edge panel disposed along a top edge.  
FIG. 79 is the perspective view of FIG. 78, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 80 is a top plan view thereof.  
FIG. 81 is a left side elevational view thereof.  
FIG. 82 is a front elevational view thereof.  
FIG. 83 is a right side elevational view thereof.  
FIG. 84 is a bottom plan view thereof.  
FIG. 85 is a perspective view of a first variation of a fourth embodiment of a thermostat, showing my new design with an edge panel disposed along a right edge.  
FIG. 86 is the perspective view of FIG. 85, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 87 is a top plan view thereof.  
FIG. 88 is a left side elevational view thereof.  
FIG. 89 is a front elevational view thereof.  
FIG. 90 is a right side elevational view thereof.  
FIG. 91 is a bottom plan view thereof.  
FIG. 92 is a perspective view of a second variation of the fourth embodiment of the thermostat, showing my new design with an edge panel disposed along a left edge.  
FIG. 93 is the perspective view of FIG. 92, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 94 is a top plan view thereof.  
FIG. 95 is a left side elevational view thereof.  
FIG. 96 is a front elevational view thereof.  
FIG. 97 is a right side elevational view thereof.  
FIG. 98 is a bottom plan view thereof.  
FIG. 99 is a perspective view of a third variation of the fourth embodiment of the thermostat, showing my new design with an edge panel disposed along a bottom edge.  
FIG. 100 is the perspective view of FIG. 99, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.  
FIG. 101 is a top plan view thereof.  
FIG. 102 is a left side elevational view thereof.  
FIG. 103 is a front elevational view thereof.  
FIG. 104 is a right side elevational view thereof.  
FIG. 105 is a bottom plan view thereof.  
FIG. 106 is a perspective view of a fourth variation of the fourth embodiment of the thermostat, showing my new design with an edge panel disposed along a top edge.

FIG. 107 is the perspective view of FIG. 106, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 108 is a top plan view thereof.

FIG. 109 is a left side elevational view thereof.

FIG. 110 is a front elevational view thereof.

FIG. 111 is a right side elevational view thereof.

FIG. 112 is a bottom plan view thereof.

FIG. 113 is a perspective view of a first variation of a fifth embodiment of a thermostat, showing my new design with an edge panel disposed along a right edge.

FIG. 114 is the perspective view of FIG. 113, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 115 is a top plan view thereof.

FIG. 116 is a left side elevational view thereof.

FIG. 117 is a front elevational view thereof.

FIG. 118 is a right side elevational view thereof.

FIG. 119 is a bottom plan view thereof.

FIG. 120 is a perspective view of a second variation of the fifth embodiment of the thermostat, showing my new design with an edge panel disposed along a left edge.

FIG. 121 is the perspective view of FIG. 120, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 122 is a top plan view thereof.

FIG. 123 is a left side elevational view thereof.

FIG. 124 is a front elevational view thereof.

FIG. 125 is a right side elevational view thereof.

FIG. 126 is a bottom plan view thereof.

FIG. 127 is a perspective view of a third variation of the fifth embodiment of the thermostat, showing my new design with an edge panel disposed along a bottom edge.

FIG. 128 is the perspective view of FIG. 127, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 129 is a top plan view thereof.

FIG. 130 is a left side elevational view thereof.

FIG. 131 is a front elevational view thereof.

FIG. 132 is a right side elevational view thereof.

FIG. 133 is a bottom plan view thereof.

FIG. 134 is a perspective view of a fourth variation of the fifth embodiment of the thermostat, showing my new design with an edge panel disposed along a top edge.

FIG. 135 is the perspective view of FIG. 134, showing a photograph or other flat sheet (not claimed) being inserted in the thermostat.

FIG. 136 is a top plan view thereof.

FIG. 137 is a left side elevational view thereof.

FIG. 138 is a front elevational view thereof.

FIG. 139 is a right side elevational view thereof; and,

FIG. 140 is a bottom plan view thereof.

The broken lines that appear throughout the figure set depict environmental elements that form no part of the claimed design. A rear elevational view of the design is not visible during normal use, and, accordingly, is not disclosed herein.
