(57) **CLAIM**

The ornamental design for a spray shield device, as shown and described.

DESCRIPTION

FIG. **1** is a front-right perspective view of an embodiment of a spray shield device showing our new design, wherein the spray shield device is mounted on a circular spray bottle with a conventional spray trigger, the circular spray bottle and the conventional spray trigger shown in broken lines form no part of the claimed invention, and the word "Spray" on the collar of the spray shield device which is shown in broken lines forms no part of the claimed invention;

FIG. **2** is a right-rear perspective view of the embodiment shown in FIG. **1**, wherein the spray shield device is mounted on a circular spray bottle with a conventional spray trigger, the circular spray bottle and the conventional spray trigger shown in broken lines form no part of the claimed invention, and the word "Spray" on the collar of the spray shield device which is shown in broken lines forms no part of the claimed invention;

FIG. **3** is a bottom-rear perspective view of the embodiment shown in FIG. **1**, the internal bores in the collar of the spray shield device and word "Stream" imprinted on the collar, which are both shown using broken lines, form no part of the claimed invention;

FIG. **4** is another front-right perspective view of the embodiment shown in FIG. **1**, the word "Spray" on the collar of the spray shield device which is shown in broken lines forms no part of the claimed invention;

FIG. **5** is a left-side elevational view of the embodiment shown in FIG. **1**;

FIG. **6** is a right-side elevational view of the embodiment shown in FIG. **1**;

FIG. **7** is a front view of the embodiment shown in FIG. **1**;

FIG. **8** is a rear view of the embodiment shown in FIG. **1**, the internal bores in the collar of the spray shield device, which are shown using broken lines, form no part of the claimed invention;

FIG. **9** is a bottom plan view of the embodiment shown in FIG. **1**, the word "Stream" on the collar of the spray shield device which is shown in broken lines forms no part of the claimed invention; and,

FIG. **10** is a top plan view of the embodiment shown in FIG. **1**, the word "Spray" on the collar of the spray shield device which is shown in broken lines forms no part of the claimed invention.

The broken line portions of the drawing figures are included to show unclaimed subject matter only and form no part of the claimed design.
