(57) **CLAIM**

The ornamental design for a communication device having multi-module assembly, as shown and described.

**DESCRIPTION**

FIG. 1 is a front, top and right side perspective view of a communication device having multi-module assembly showing my new design;  
FIG. 2 is a front elevational view thereof;  
FIG. 3 is a left side elevational view thereof;  
FIG. 4 is a right side elevational view thereof;  
FIG. 5 is a top plan view thereof;  
FIG. 6 is a bottom plan view thereof;  
FIG. 7 is a rear elevational view thereof;  
FIG. 8 is a rear, top and left side perspective view thereof, shown in an environment with two cables embedded into the rear slot; and,  
FIG. 9 is a front, bottom and right side exploded perspective view thereof in order to show the association of elements of the detachable multi-modules.  
The cables in the FIG. 8 view are shown in broken lines and are directed to environment and form no part of the claimed design.
