(57) **CLAIM**

The ornamental design for a combination storage rack and work surface, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the combination storage rack and work surface, in an open position; FIG. 2 is a perspective view of the combination storage rack and work surface, in a folded position; FIG. 3 is a front elevational view of the combination storage rack and work surface, in an open position; FIG. 4 is a front elevational view of the combination storage rack and work surface, in a folded position; FIG. 5 is a left side elevational view of the combination storage rack and work surface, in an open position; FIG. 6 is a right side elevational view of the combination storage rack and work surface, in an open position; FIG. 7 is a top view of the combination storage rack and work surface, in an open position; and, FIG. 8 is a bottom view of the combination storage rack and work surface, in an open position. The features shown in broken lines in the Figures form no part of the claimed design.
