(57) **CLAIM**

The ornamental design for a handbag with chain trim, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a chain trim detail showing my new design, displayed in the environment of a handbag;

FIG. 2 is a front view of the chain trim detail shown in FIG. 1; FIG. 3 is a rear view of the chain trim detail shown in FIG. 1; FIG. 4 is a right side view of the chain trim detail shown in FIG. 1; FIG. 5 is a left side view of the chain trim detail shown in FIG. 1; FIG. 6 is a top view of the chain trim detail shown in FIG. 1; FIG. 7 is a bottom view of the chain trim detail shown in FIG. 1; FIG. 8 is a front perspective view of an alternative embodiment of the chain trim detail shown in FIG. 1, displayed in the environment of a handbag; FIG. 9 is a front view of the alternative embodiment of the chain trim detail shown in FIG. 8; FIG. 10 is a rear view of the alternative embodiment of the chain trim detail shown in FIG. 8; FIG. 11 is a right side view of the alternative embodiment of the chain trim detail shown in FIG. 8; FIG. 12 is a left side view of the alternative embodiment of the chain trim detail shown in FIG. 8; FIG. 13 is a top view of the alternative embodiment of the chain trim detail shown in FIG. 8; and, FIG. 14 is a bottom view of the alternative embodiment of the chain trim detail shown in FIG. 8.

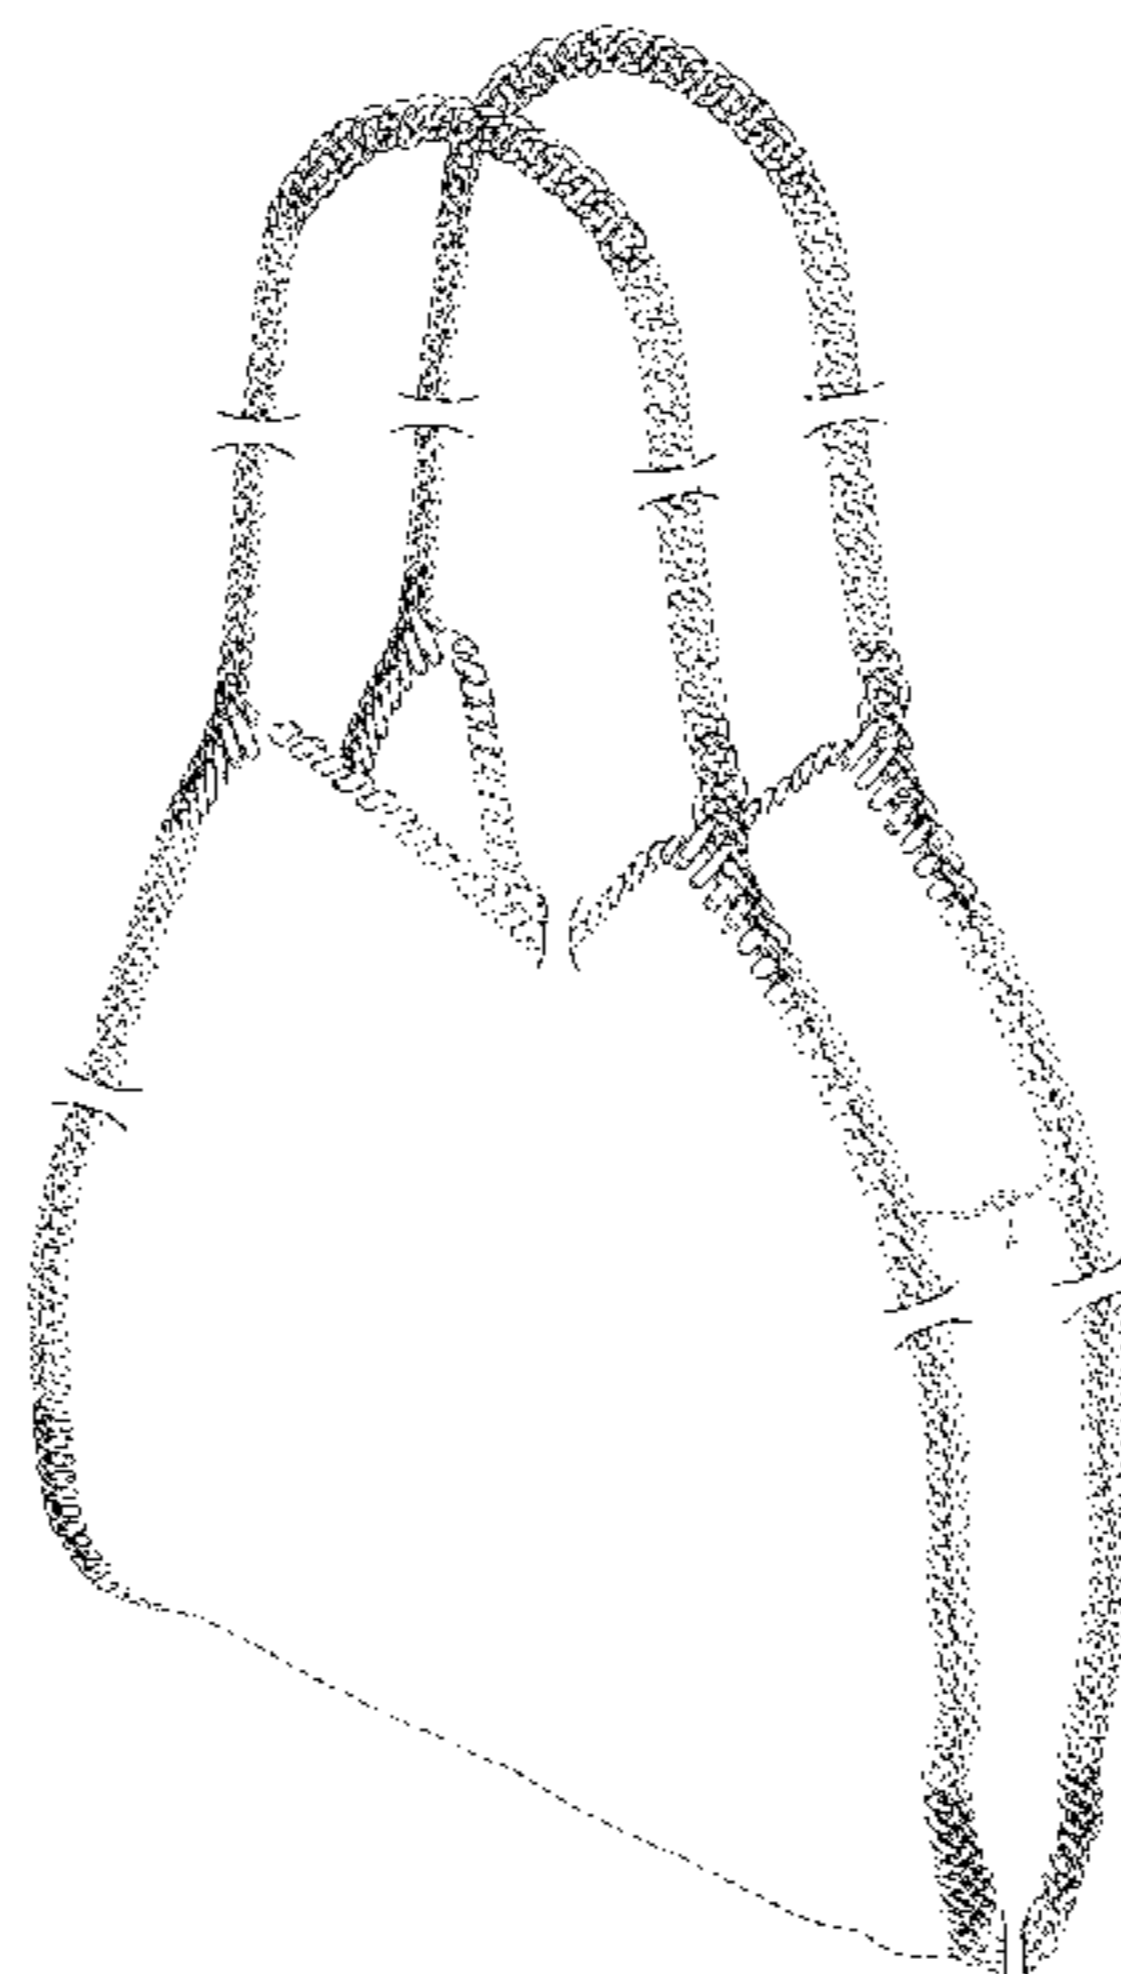

The broken lines depicting portions of the whip stitching, portions of the chain, and body of the bag show unclaimed subject matter.

As illustrated by the drawings, the claim is directed to the portions shown in solid lines, comprising a bag as disclosed herein having a chain handle segment at the top, and segments at the sides where the chain is coupled to the bag sides (portions of the whip stitching are claimed in the first embodiment) at various locations as shown. The breaks indicate that the broken line bag segments can be of varying lengths.

The break in the horizontal base at the bottom of the bag and at the whip stitching on the top edge also indicates variable bag widths.

The shape of the handbag in FIGS. 1-14 is not a claimed feature of the design, and the handbag is depicted for environment purposes only.
