(57) **CLAIM**

The ornamental design for a load control with sensor and removable front panel, as shown and described.

DESCRIPTION

FIG. **1** is a front left perspective view illustrating our new design for a load control with sensor and removable front panel with the broken lines showing, for illustrative purposes only, connectors on a back side of the removable front panel, a strap for mounting the sensor to a surface and a housing that are not part of the claimed design;
FIG. **2** is a front view thereof with the broken lines showing the strap;
FIG. **3** is a back view thereof with the broken lines showing the strap and the housing
FIG. **4** is left side view thereof with the broken lines showing the strap and the housing;
FIG. **5** is a right side view thereof with the broken lines showing the strap and the housing;
FIG. **6** is a top view thereof with the broken lines showing the connectors, the strap and the housing;
FIG. **7** is a bottom view thereof with the broken lines showing the strap and the housing;
FIG. **8** a front left perspective view illustrating the removable front panel shown separately to depict features not visible in the other views with the broken lines showing the connectors;
FIG. **9** is a front view of the removable front panel with the broken lines showing the connectors;
FIG. **10** is a back view thereof with the broken lines showing the connectors;
FIG. **11** is left side view thereof with the broken lines showing the connectors;
FIG. **12** is a right side view thereof with the broken lines showing the connectors;
FIG. **13** is a top view thereof with the broken lines showing the connectors; and,
FIG. **14** is a bottom view thereof with the broken lines showing the connectors.
The broken lines shown are for illustrative purposes only and form no part of the claimed design.
