FIG. 1 is a front elevational view of a first image of a display panel or screen with an animated graphical user interface showing my new design; and
FIG. 2 is a front elevational view of a second image thereof.
FIG. 3 is a front elevational view of the design of FIG. 1 shown on a portable information terminal; and,
FIG. 4 is a front elevational view of the design of FIG. 2 shown on a portable information terminal.
The appearance of the image transitions sequentially between the images shown in FIGS. 1 and 2. Also, the appearance of the image transitions sequentially between the images shown in FIGS. 3 and 4. The process or period in which an image transitions to another forms no part of the claimed design.
The even broken lines showing of a display panel or screen and other elements form no part of the claimed design. The dot-dash broken lines define boundaries of, but not included in, the claimed design.
