CPC A43B 13/38–13/42; A43B 13/383;
A43B 13/386

We claim the ornamental design for the insole, as shown and described.

USPC D2/914, 946–962; 36/43, 44, 71, 88,
36/91–94, 100, 101, 126, 136, 145, 154,
36/173

DESCRIPTION

See application file for complete search history.

FIG. 1 is a top view of a left foot insole according to the present design;

FIG. 2 is a left side view of the insole of FIG. 1;

FIG. 3 is a bottom view of the insole of FIG. 1;

FIG. 4 is a back end view of the insole of FIG. 1; and,

FIG. 5 is a top perspective view of the insole of FIG. 1.

The top surface of the insole includes a central raised area that defines eight indentations that do not pass completely through the insole. The indentations go to a depth about equal to the relatively thin region that surrounds the central raised area. The toe region of the insole includes multiple small raised portions, some of which are arranged to appear like two arc-shaped dashed lines.
