(57) **CLAIM**

The ornamental design for a H style divider matrix sleeve, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a H style divider matrix sleeve showing my new design in environmental use;
 FIG. 2 is a front top perspective view;
 FIG. 3 is a right side elevational view which is a mirror image of the left side;
 FIG. 4 is a rear elevational view;
 FIG. 5 is a front elevational view; and,
 FIG. 6 is a top plan view which is a mirror image of the bottom plan view.

The broken lines shown represent unclaimed subject matter and form no part of the claimed design.

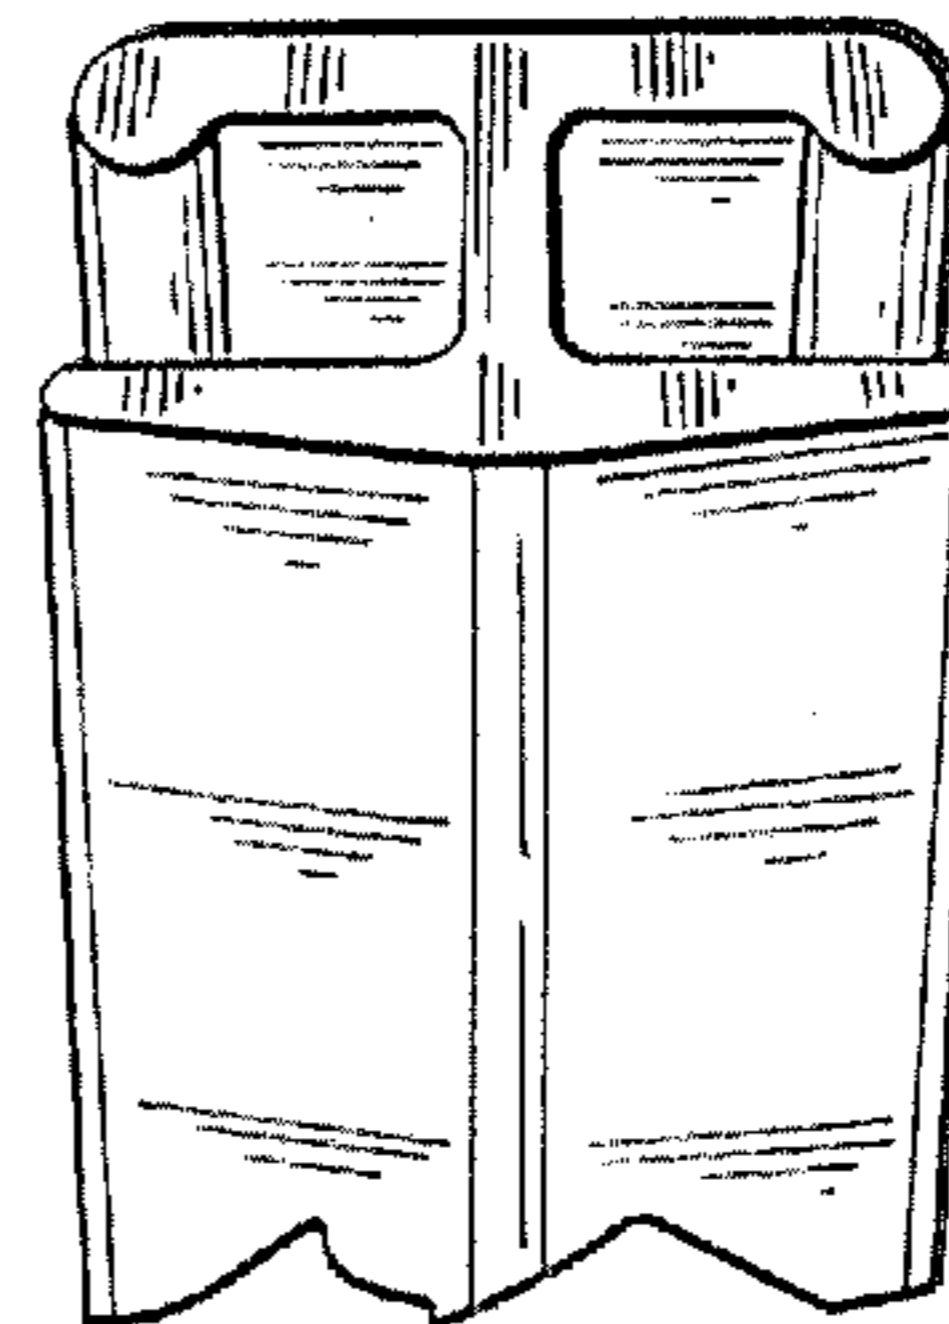

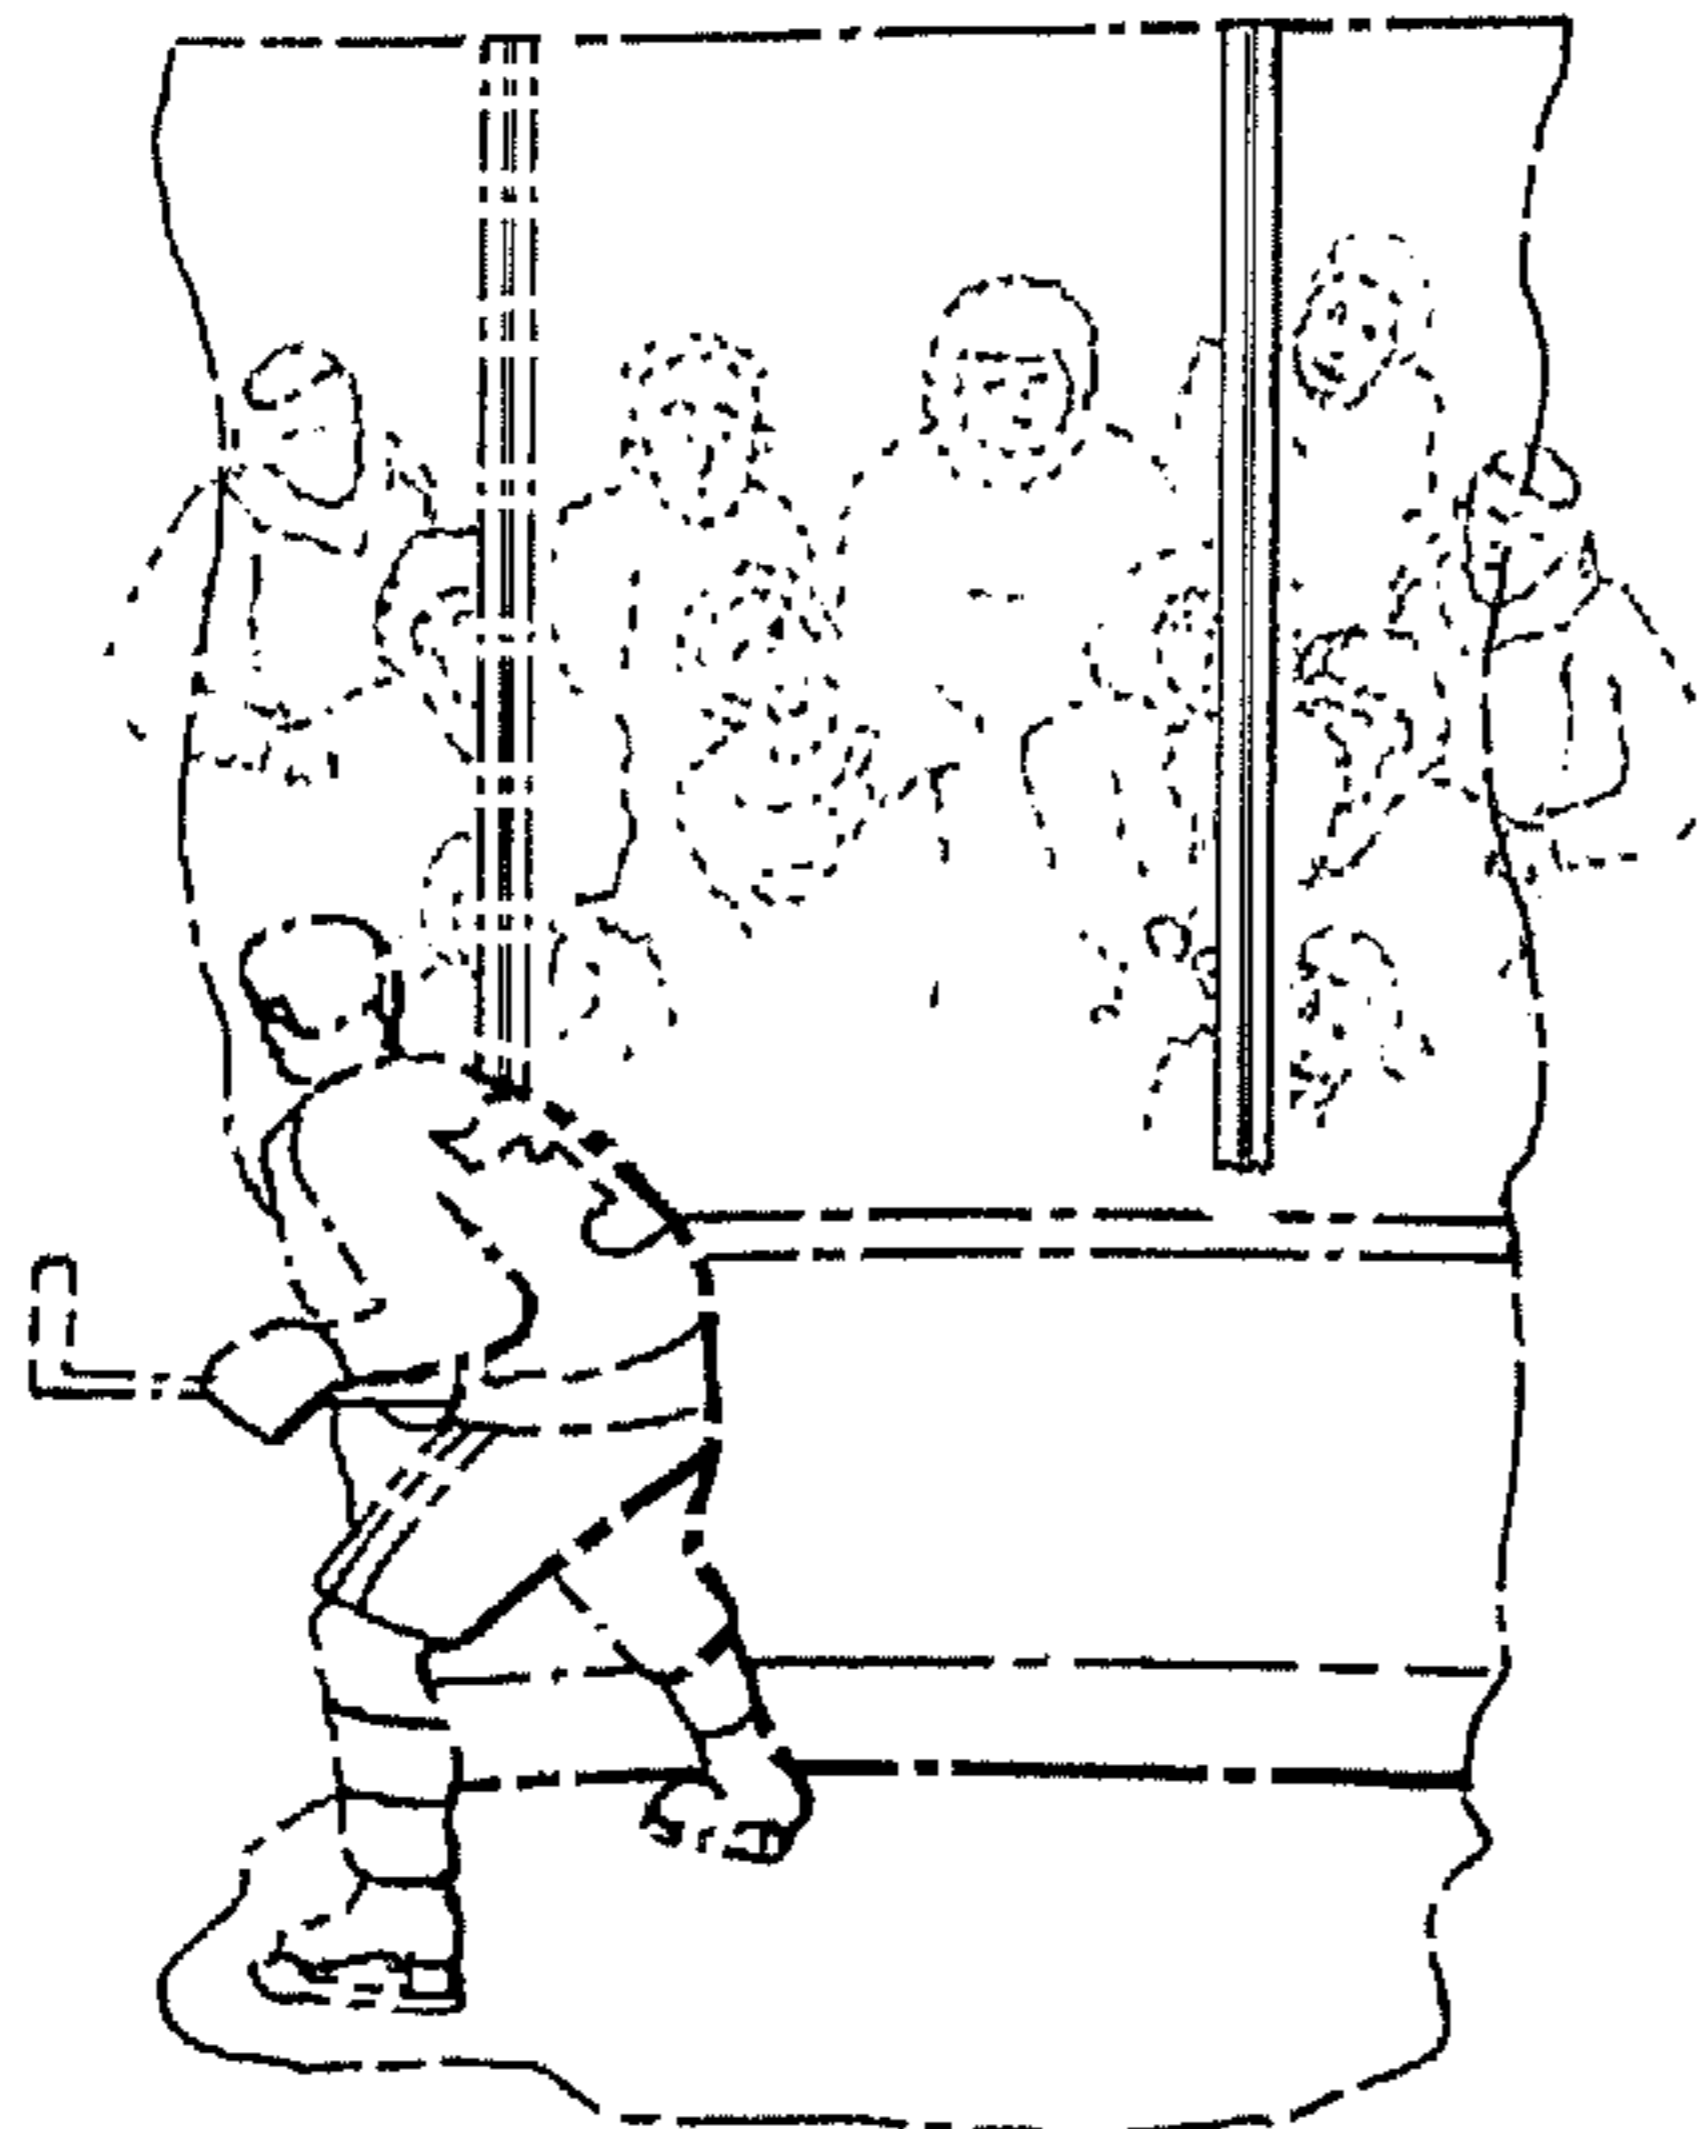

The H style divider matrix sleeve has been shown broken to indicate indeterminate length. The examiner finds the claim definite under 35 U.S.C. 112 second paragraph with the understanding that the "indeterminate" portion of the article forms no part of the claim design. Patentability is based only on those portions of the H style divider matrix sleeve that are shown in solid lines.
