(57) **CLAIM**

The ornamental design for a personal security keychain, as shown and described.

FIG. 1 is a perspective view of a personal security keychain showing my new design;
FIG. 2 is a top view;
FIG. 3 is a bottom view;
FIG. 4 is a front end view;
FIG. 5 is a rear end view;
FIG. 6 is a left hand facing side view;
FIG. 7 is a right hand facing side view;
FIG. 8 is a top view of a personal security keychain showing environmental matter;
FIG. 9 is a top view of a personal security keychain showing a second embodiment of my new design;
FIG. 10 is a top view of a personal security keychain showing a third embodiment of my new design;
FIG. 11 is a top view of a personal security keychain showing a fourth embodiment of my new design; and,
FIG. 12 is a top view of a personal security keychain showing a fifth embodiment of my new design.

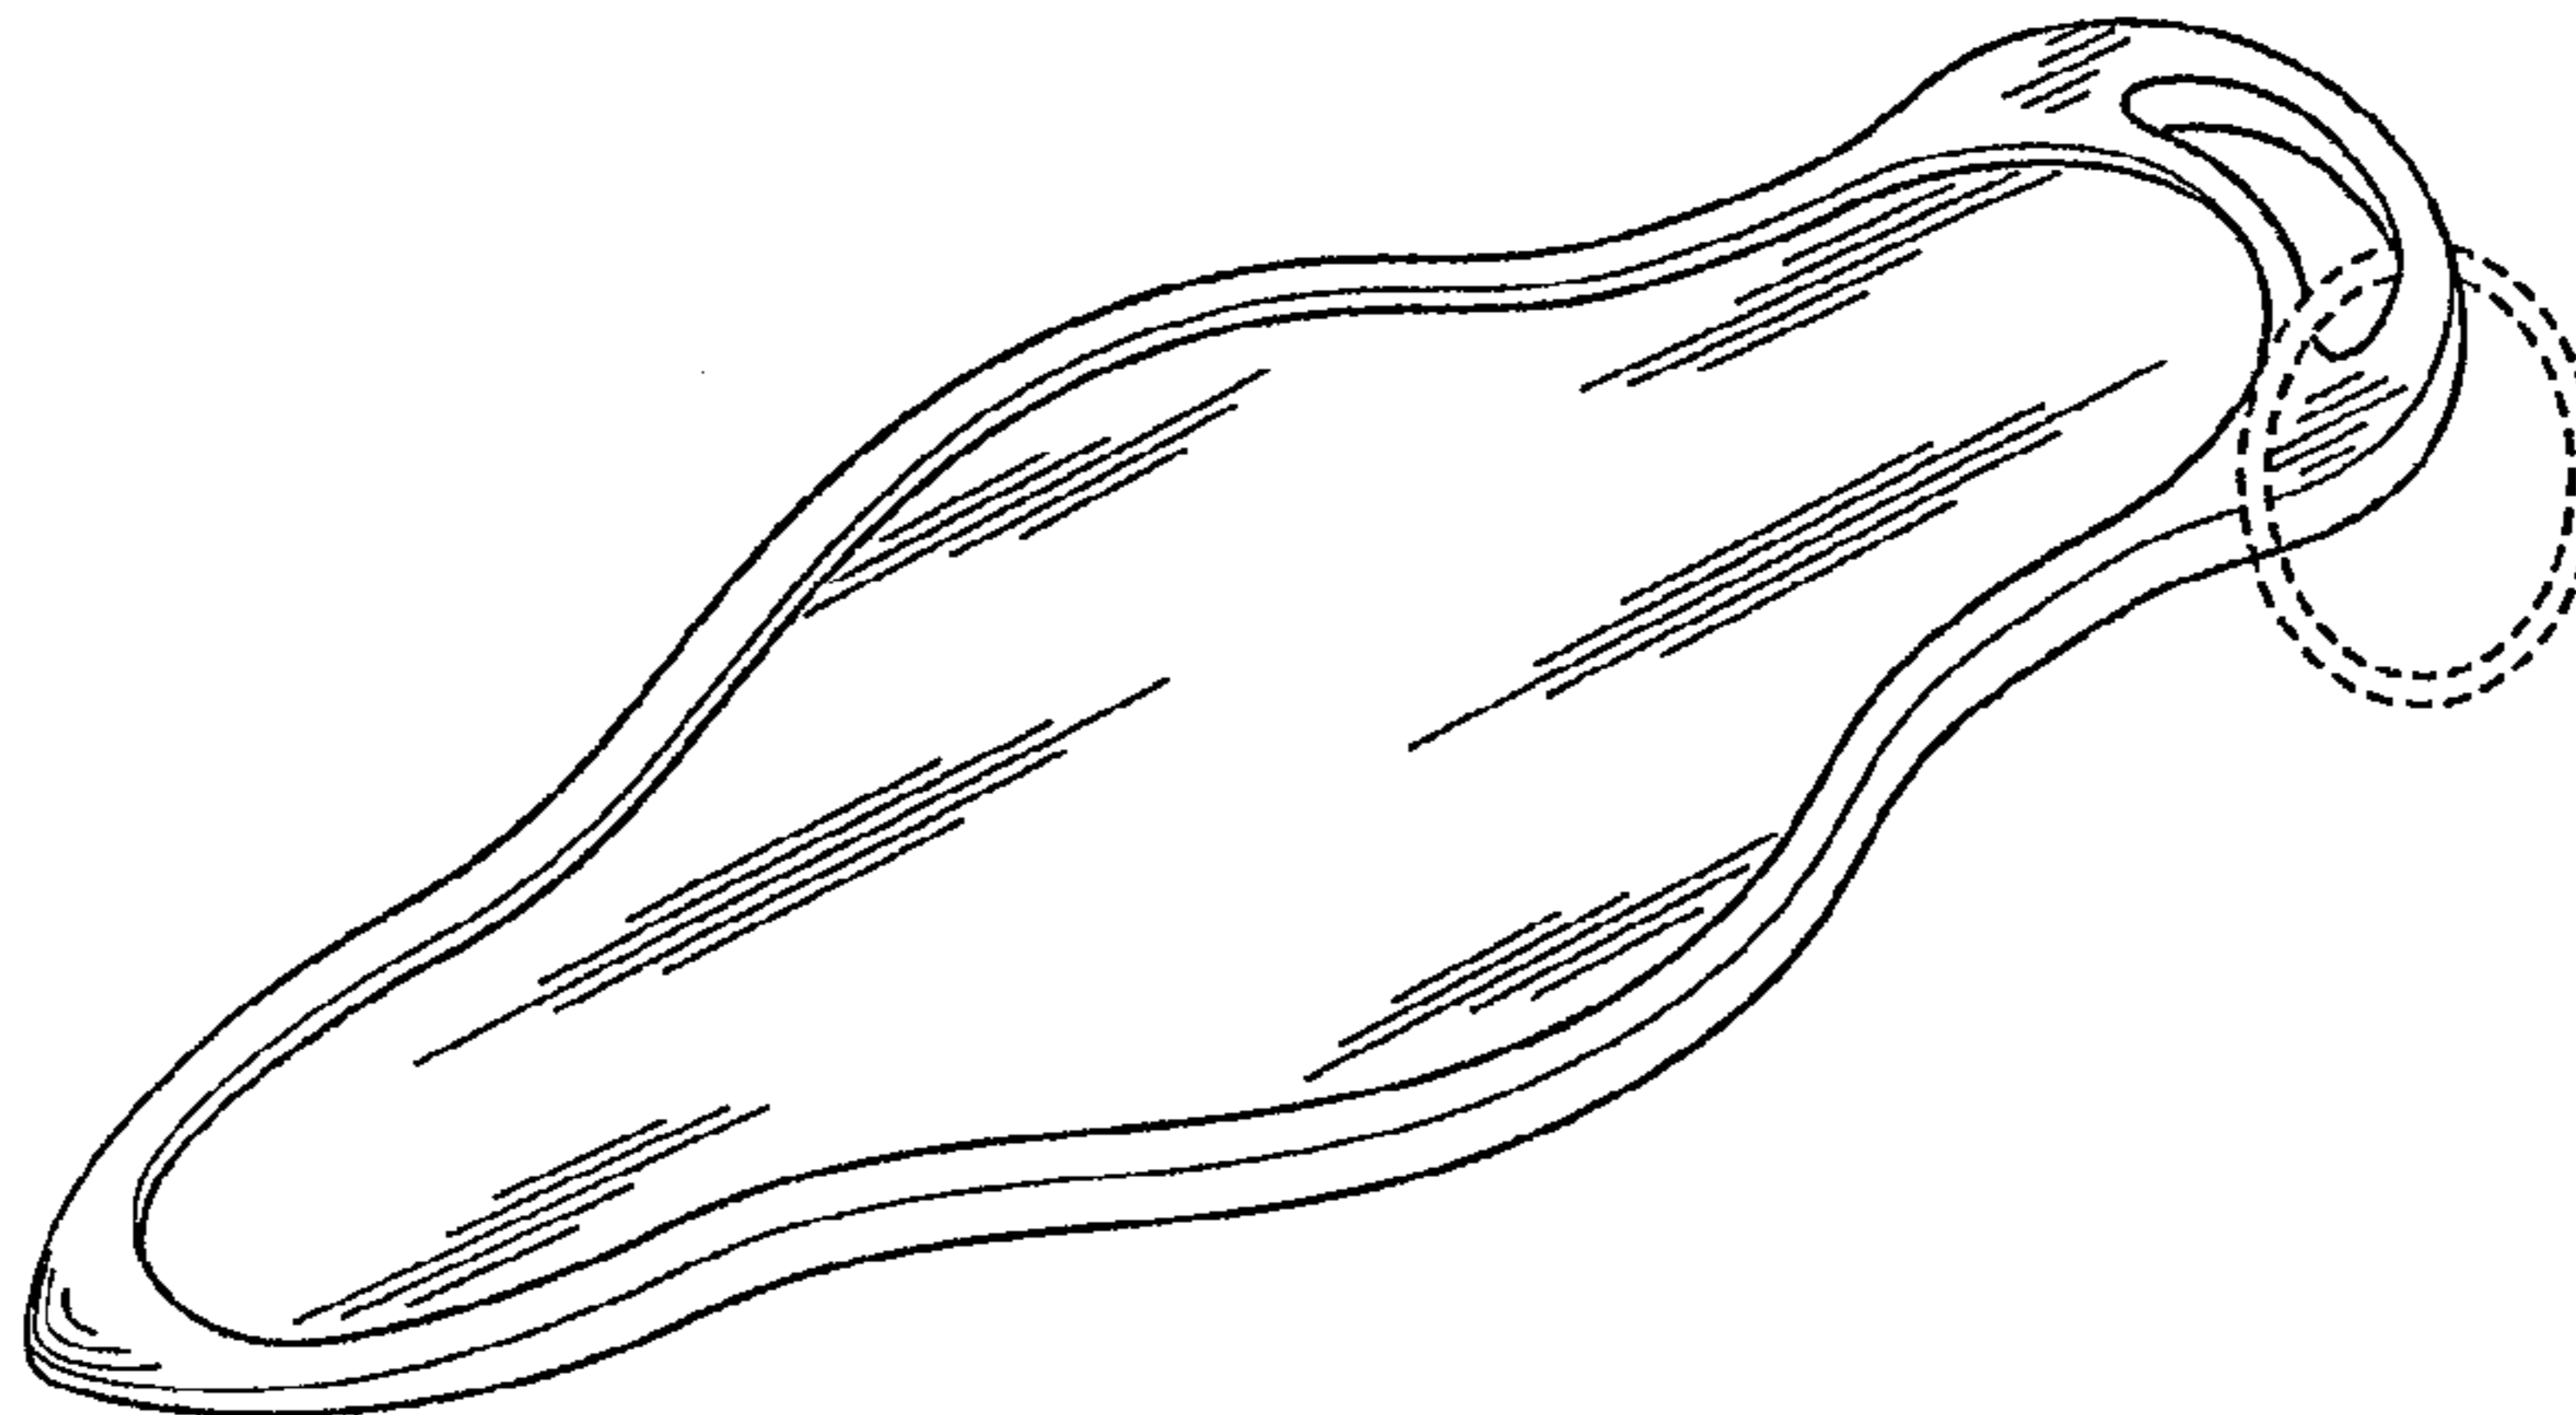

The broken line showing of a key ring, blade, thumb button and a series of remote control buttons is included for the purpose of illustrating environmental matter and forms no part of the claimed design.

The series of remote control buttons that the personal security keychain incorporates in FIG. 10 is illustrated with broken lines and is included for the purpose of illustrating the environment of the design only and forms no part of the claimed design.

The protruding blade and thumb button that the personal security keychain incorporates in FIG. 11 is illustrated with broken lines and is included for the purpose of illustrating the environment of the design only and forms no part of the claimed design.

The protruding blade, thumb button, and series of remote control buttons that the personal security keychain incorporates in FIG. 12 is illustrated with broken lines and is included for the purpose of illustrating the environment of the design only and forms no part of the claimed design.

1 Claim, 4 Drawing Sheets
