(57) **CLAIM**

I claim the ornamental design for a food dispenser, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of the food dispenser of the present invention with articles of food contained therein and the head in the closed position;

FIG. 2 is a left side elevational view of the food dispenser of the present invention with articles of food contained therein and the head in the closed position;

FIG. 3 is a right side elevational view of the food dispenser of the present invention with articles of food contained therein and the head in the closed position;

FIG. 4 is a rear elevational view of the food dispenser of the present invention with articles of food contained therein and the head in the closed position;

FIG. 5 is a top view of the food dispenser of the present invention with articles of food contained therein and the head in the closed position;

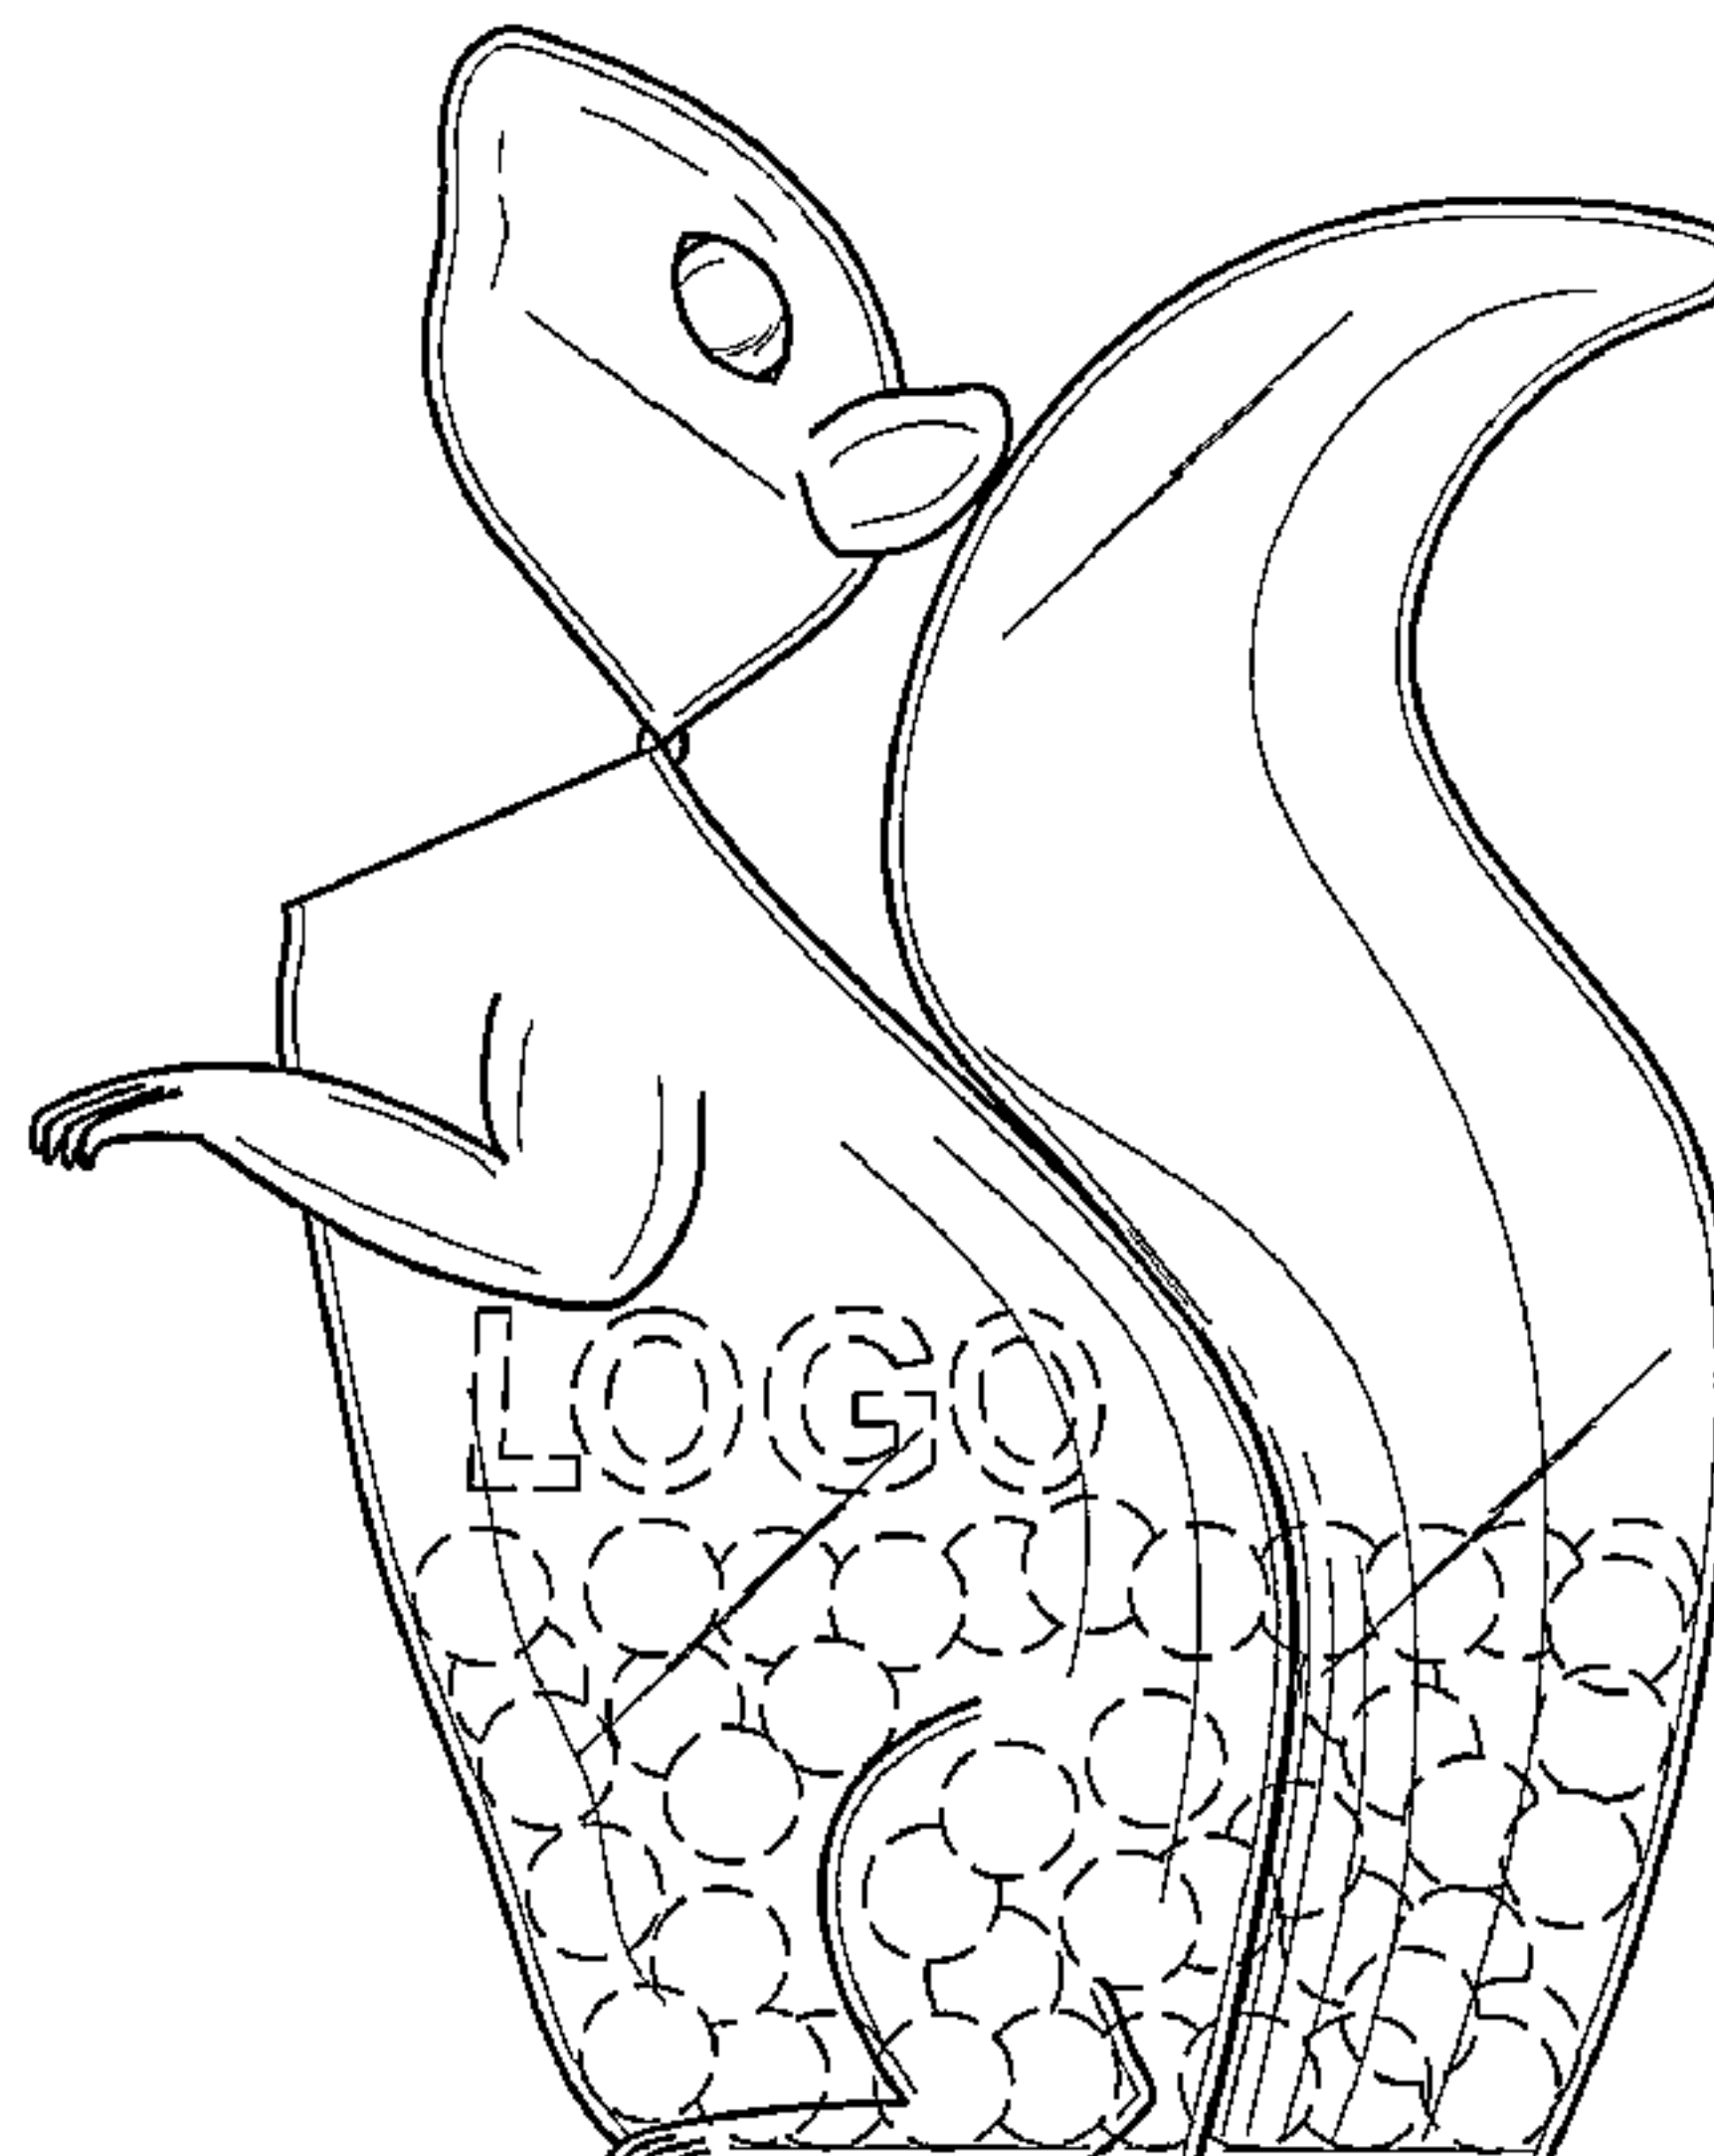

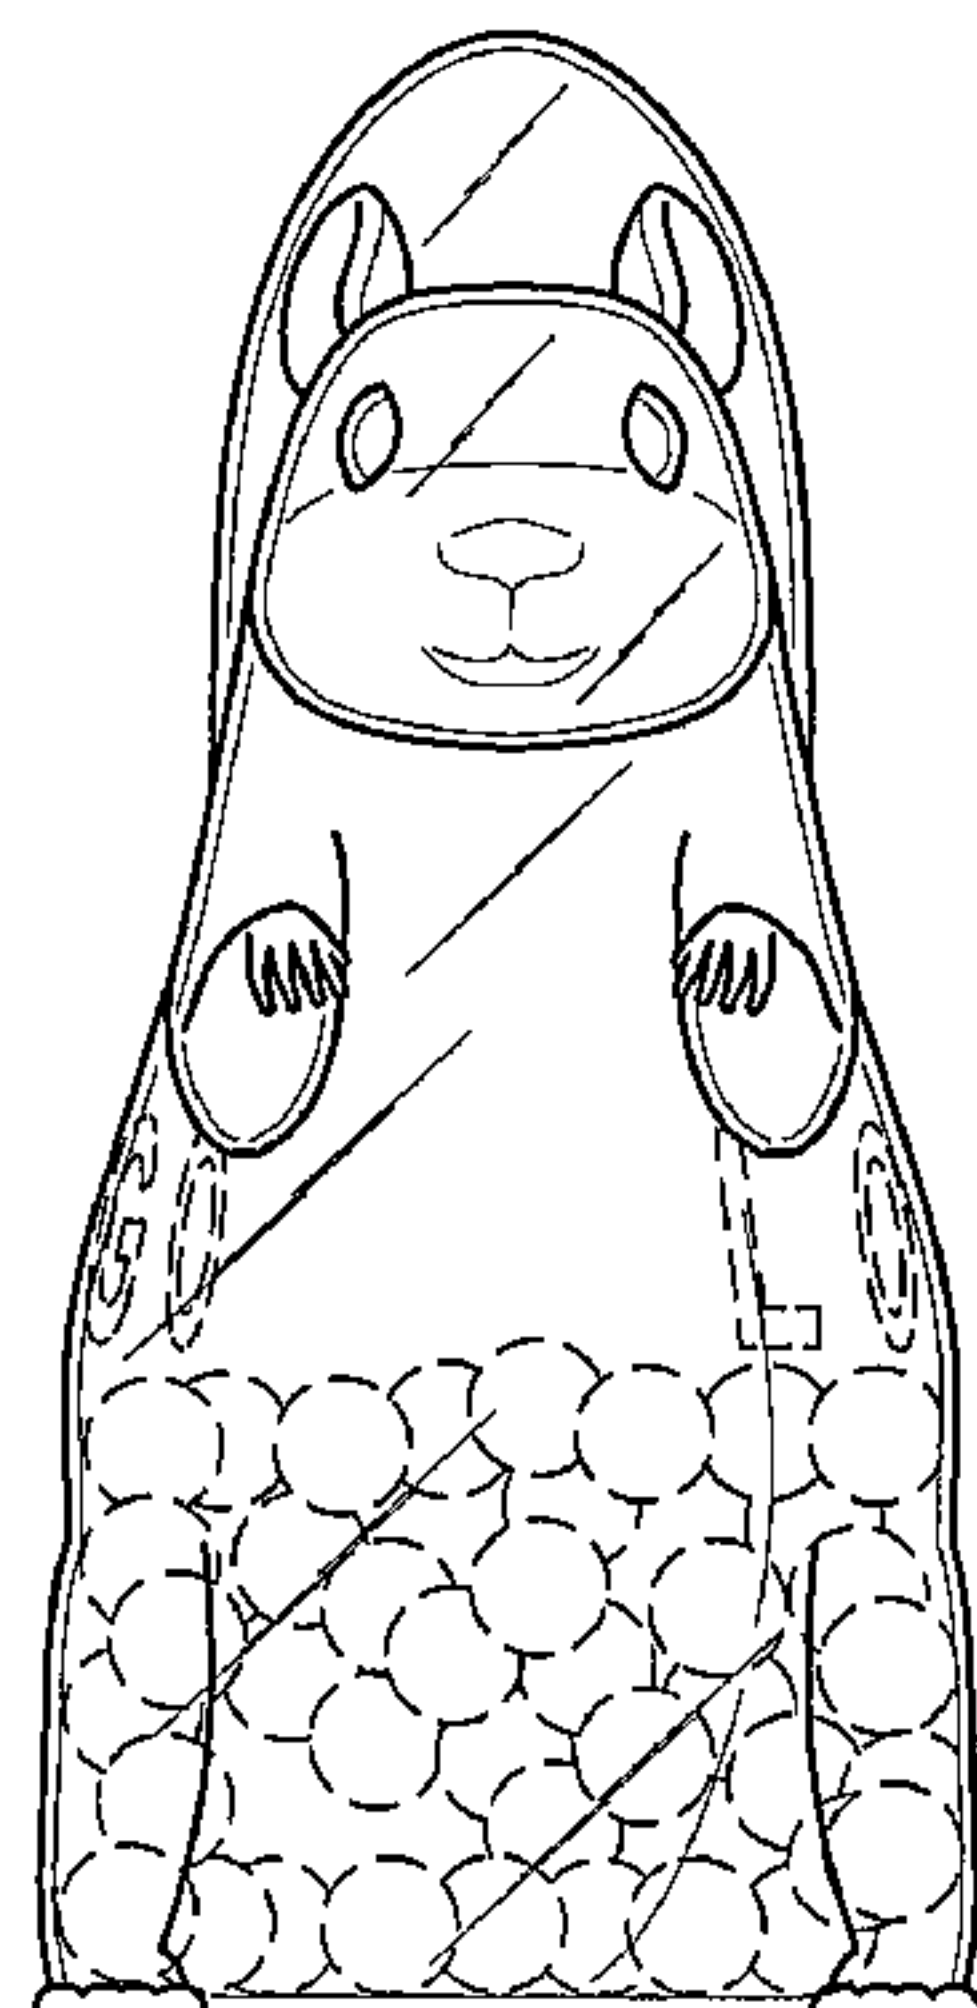

FIG. 6 is a bottom view of the food dispenser of the present invention with articles of food contained therein and the head in the closed position;

FIG. 7 is a right side elevational view of the food dispenser of the present invention with articles of food contained therein and the head in the opened position; and,

FIG. 8 is a top cross-sectional view of the food dispenser of the present invention with articles of food contained therein, taken along line 8-8 of FIG. 3.

The broken line showing is for illustrative purposes only, and forms no part of the claimed design.
