(57) **CLAIM**

The ornamental design for a computer display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file records, but otherwise reserves all copyright rights whatsoever.

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of the first image in a sequence for a computer display screen with an animated graphical user interface;

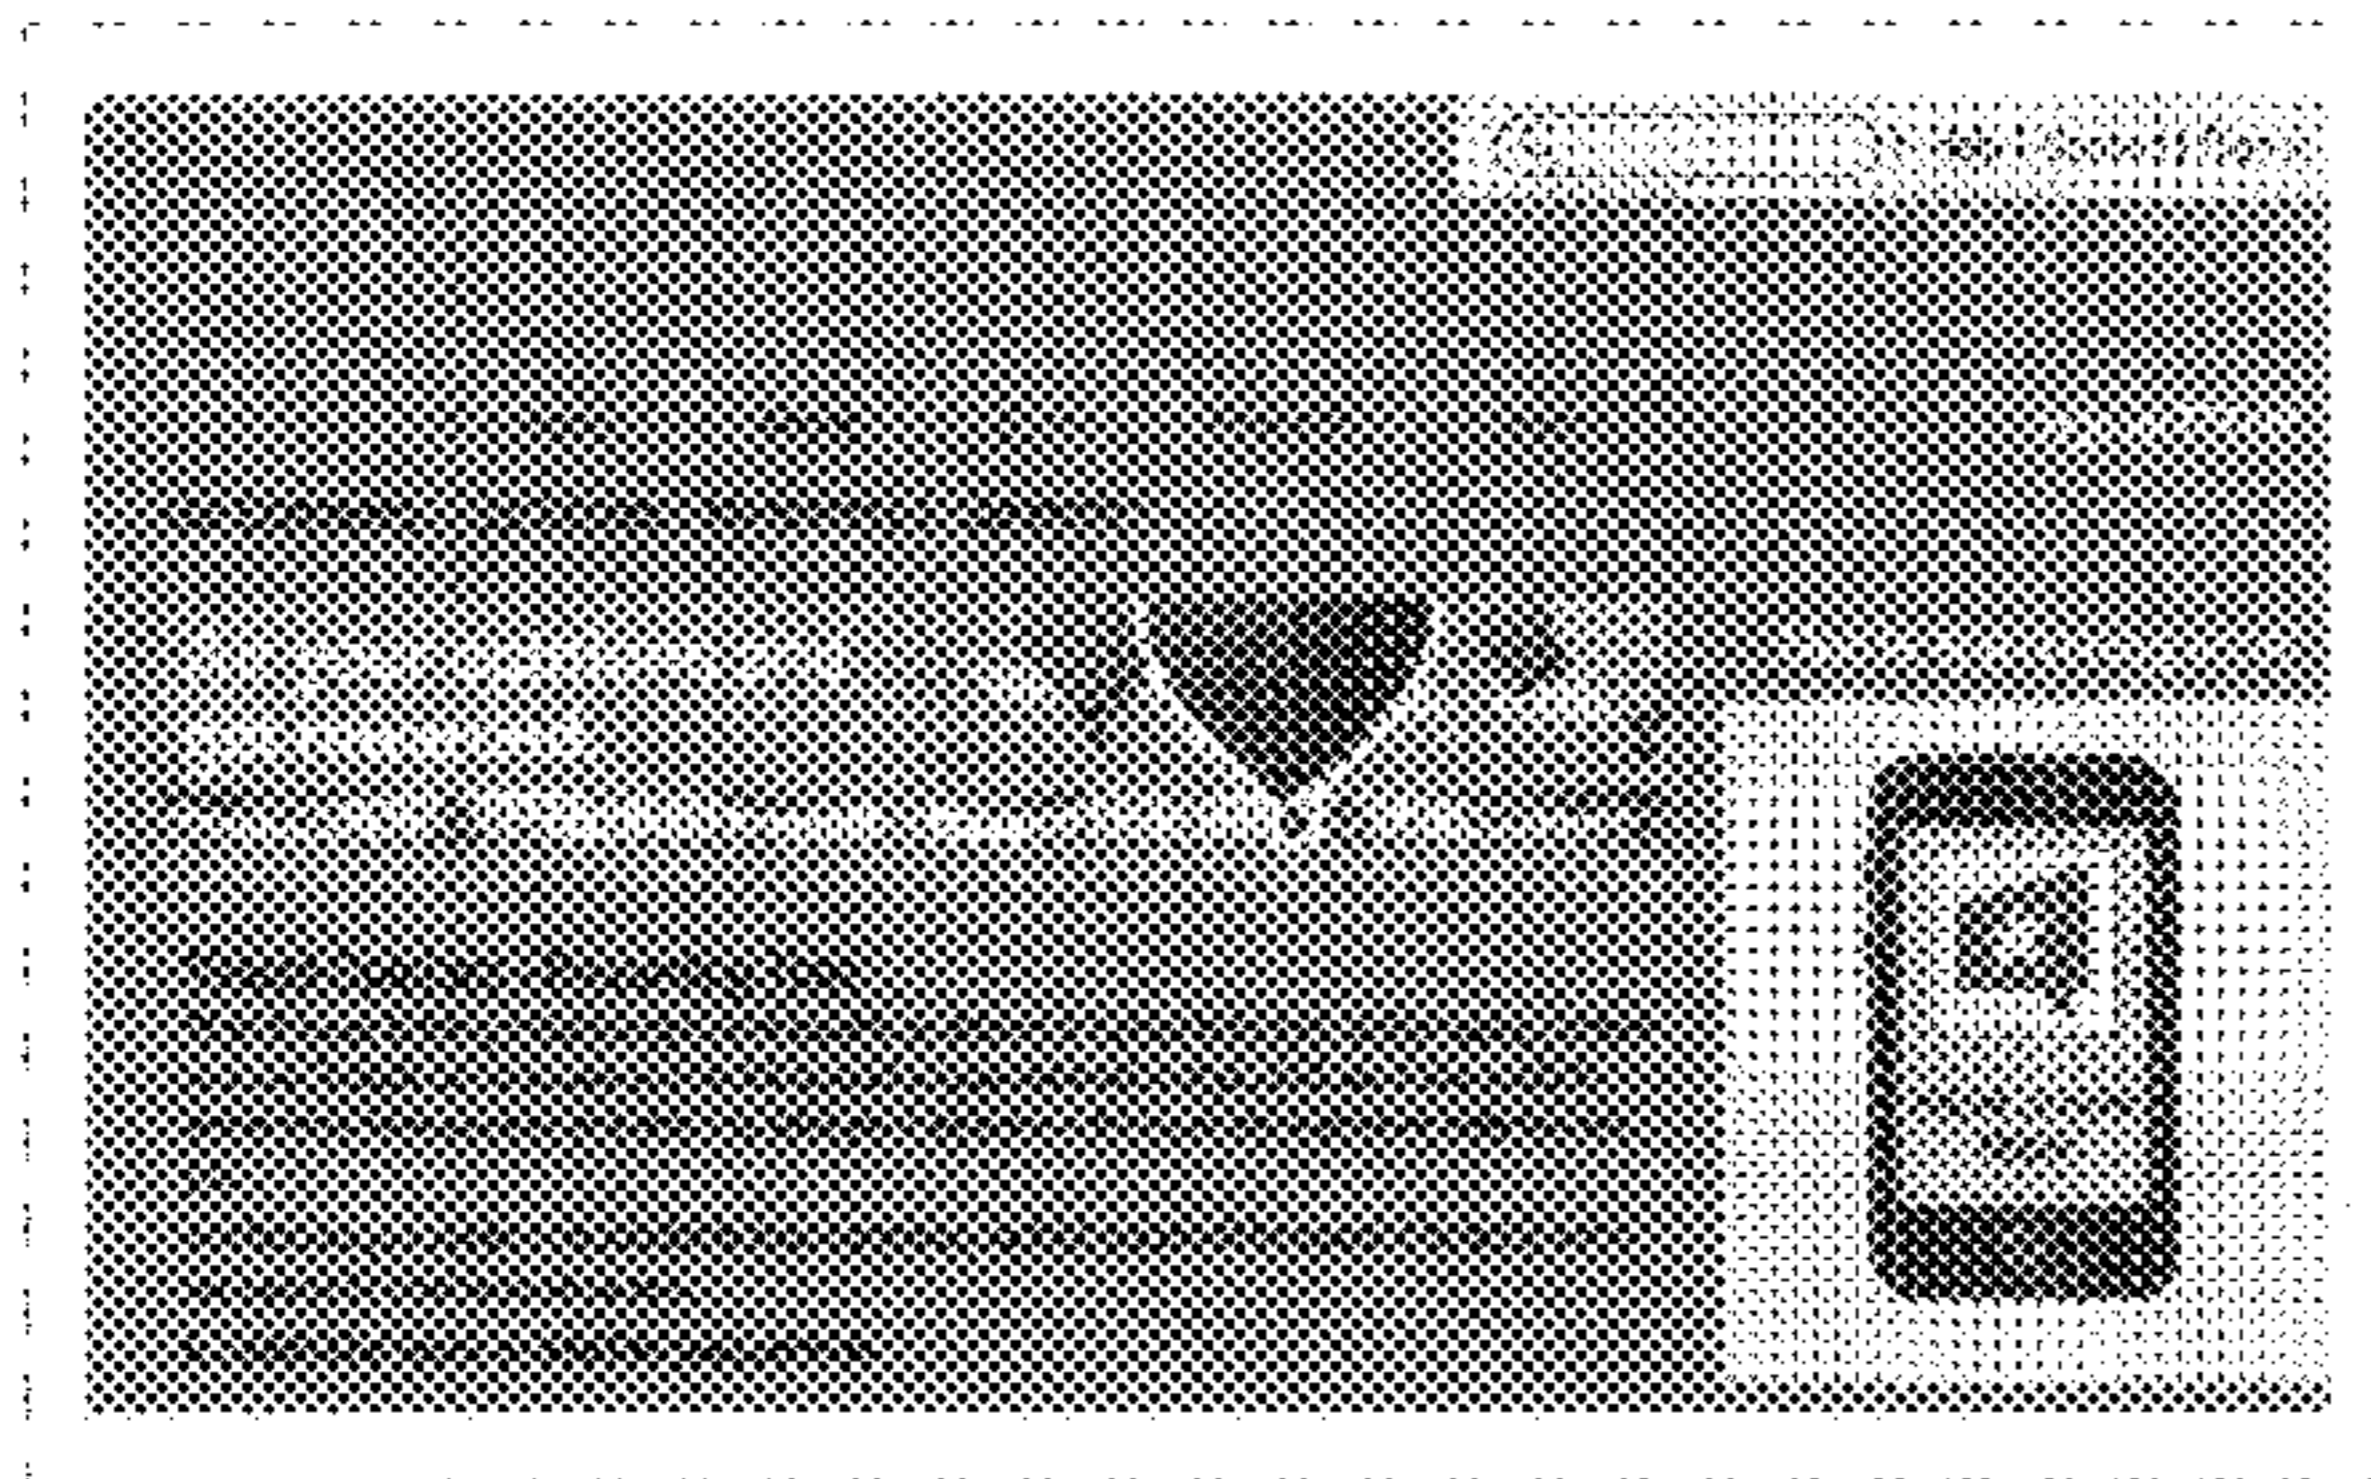

FIG. 2 is a front view of the second image in the sequence for a computer display screen with an animated graphical user interface; and,

FIG. 3 is a front view of the third image in the sequence for a computer display screen with an animated graphical user interface.

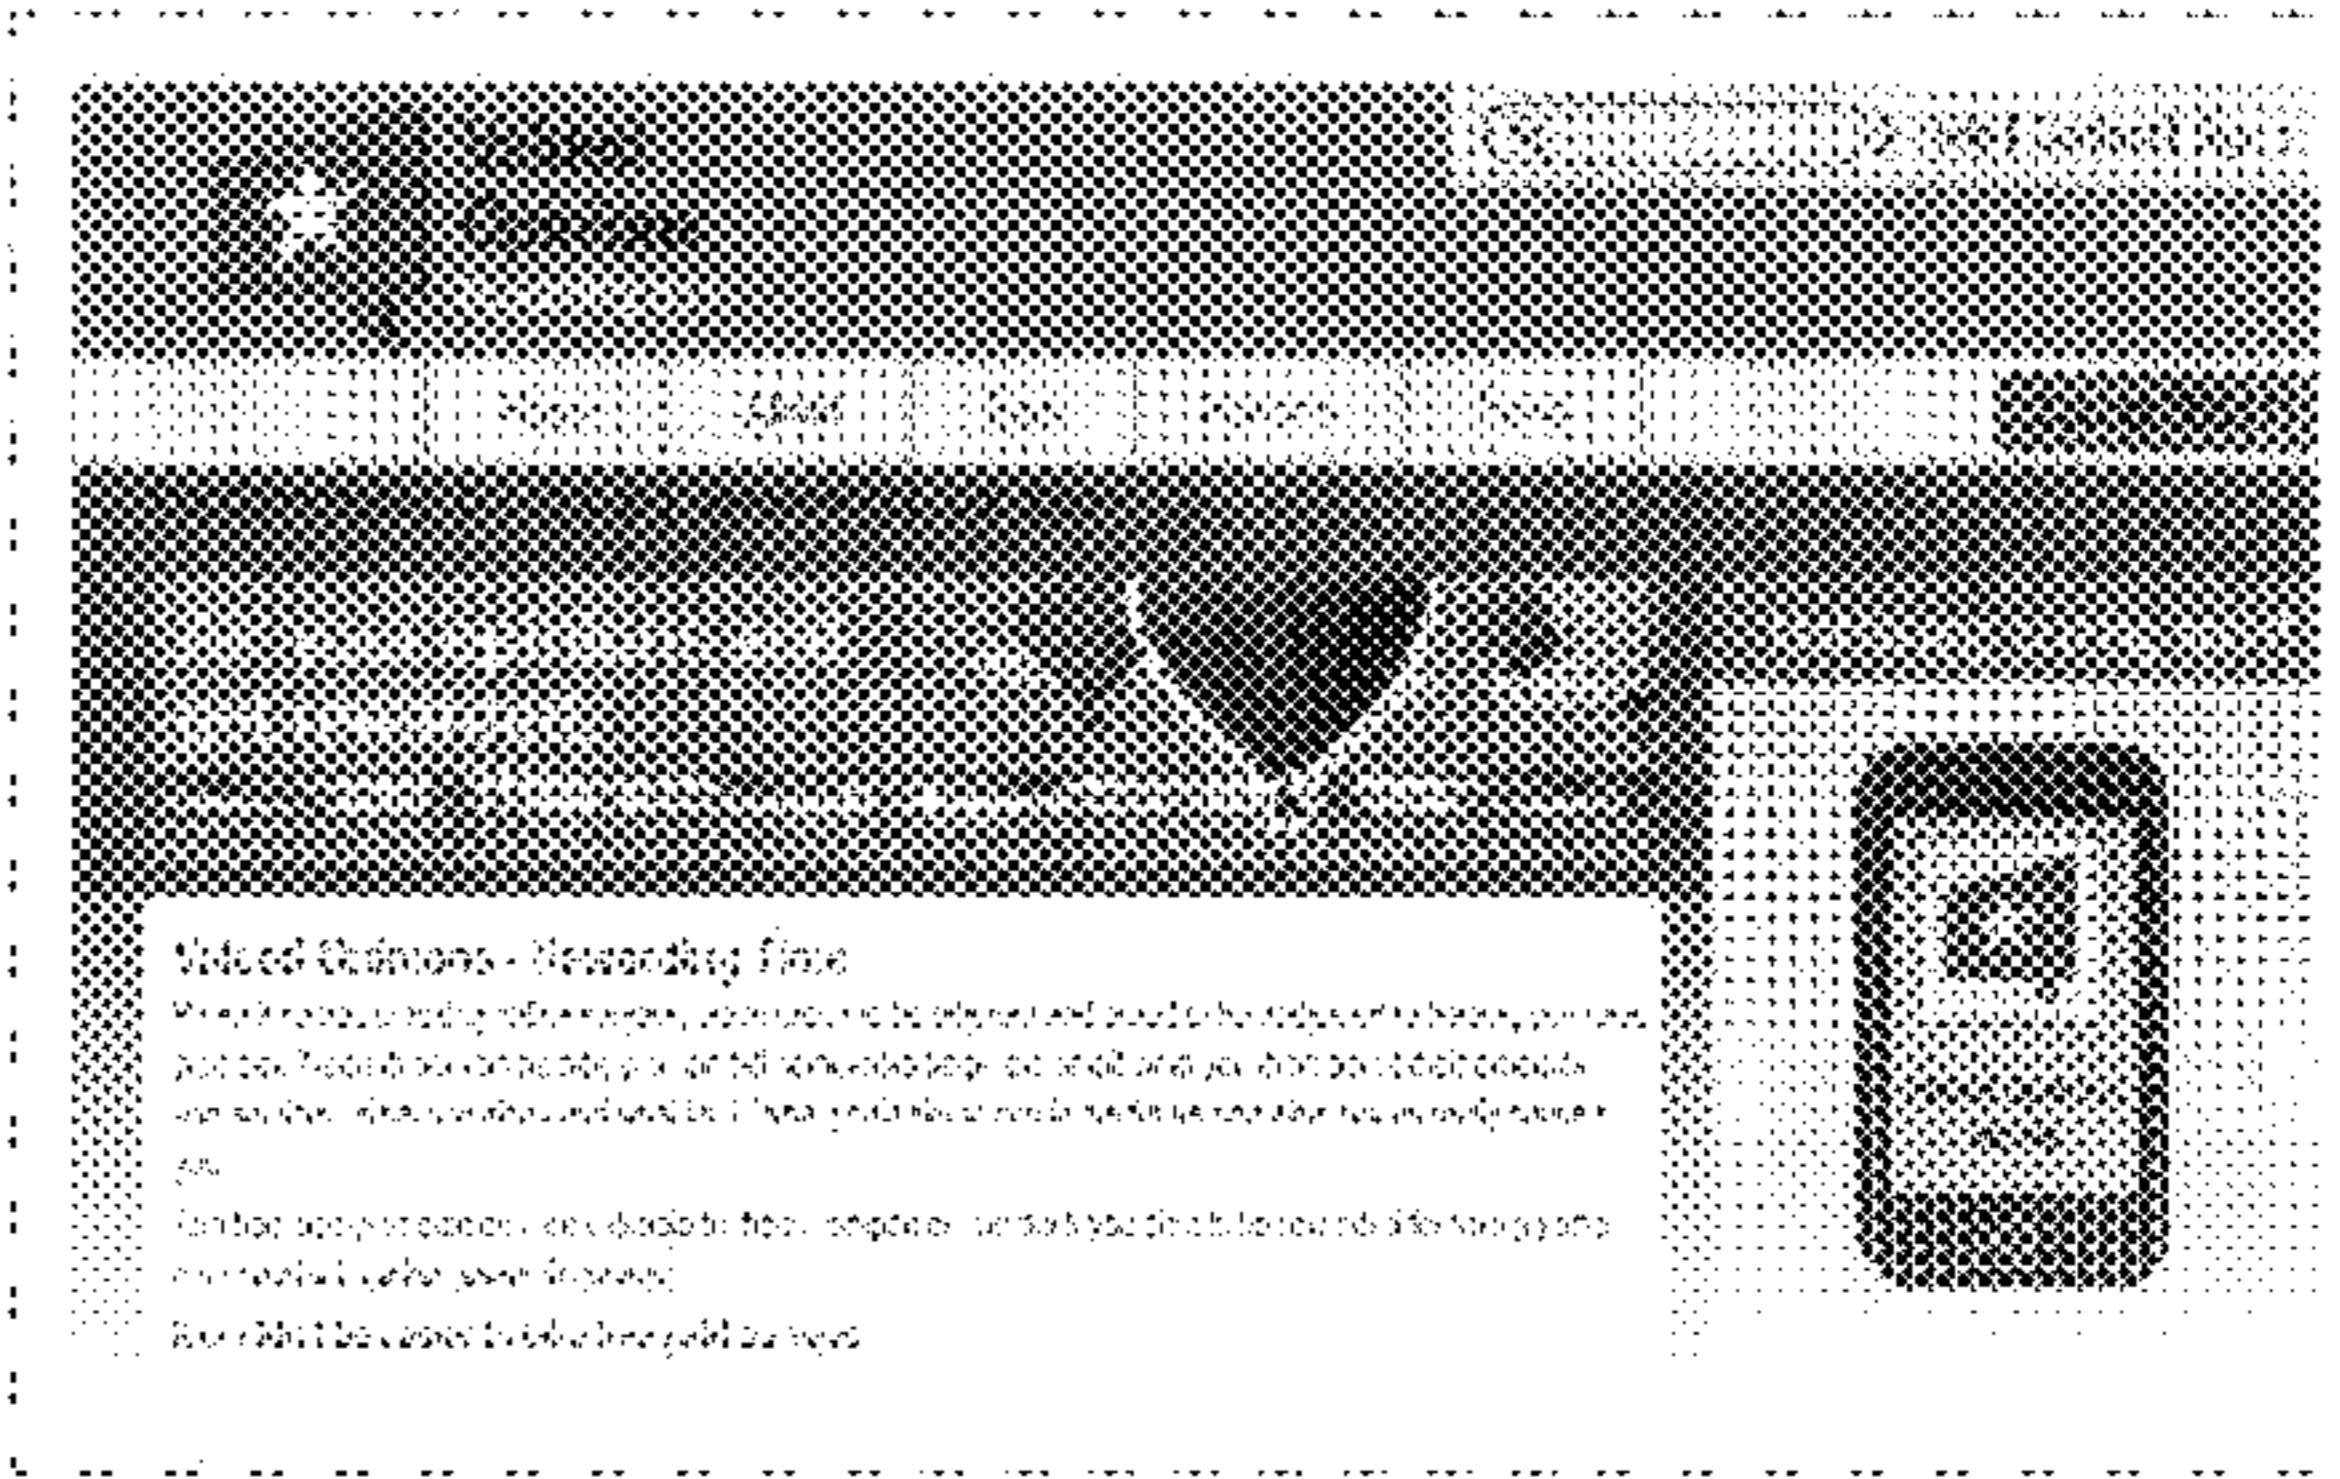

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

The gridded patterned lines and the broken line showing of the text are included for the purpose of illustrating portions of the computer display screen with an animated graphical user interface and form no part of the claimed design. The broken line showing of the display screen is for the purpose of illustrating environmental structure and forms no part of the claimed design.
