DESCRIPTION

FIG. 1 is a front view of the present invention;
FIG. 2 is a right side view of the present invention, left side view being a mirror image thereof;
FIG. 3 is a top view of the present invention, bottom view being a mirror image thereof;
FIG. 4 is a back view of the present invention, mounted on a frame similar to the shape of a conventional shutter; and,
FIG. 5 is an environmental front view of the present invention, disposed alongside a conventional window with a conventional matching awning.

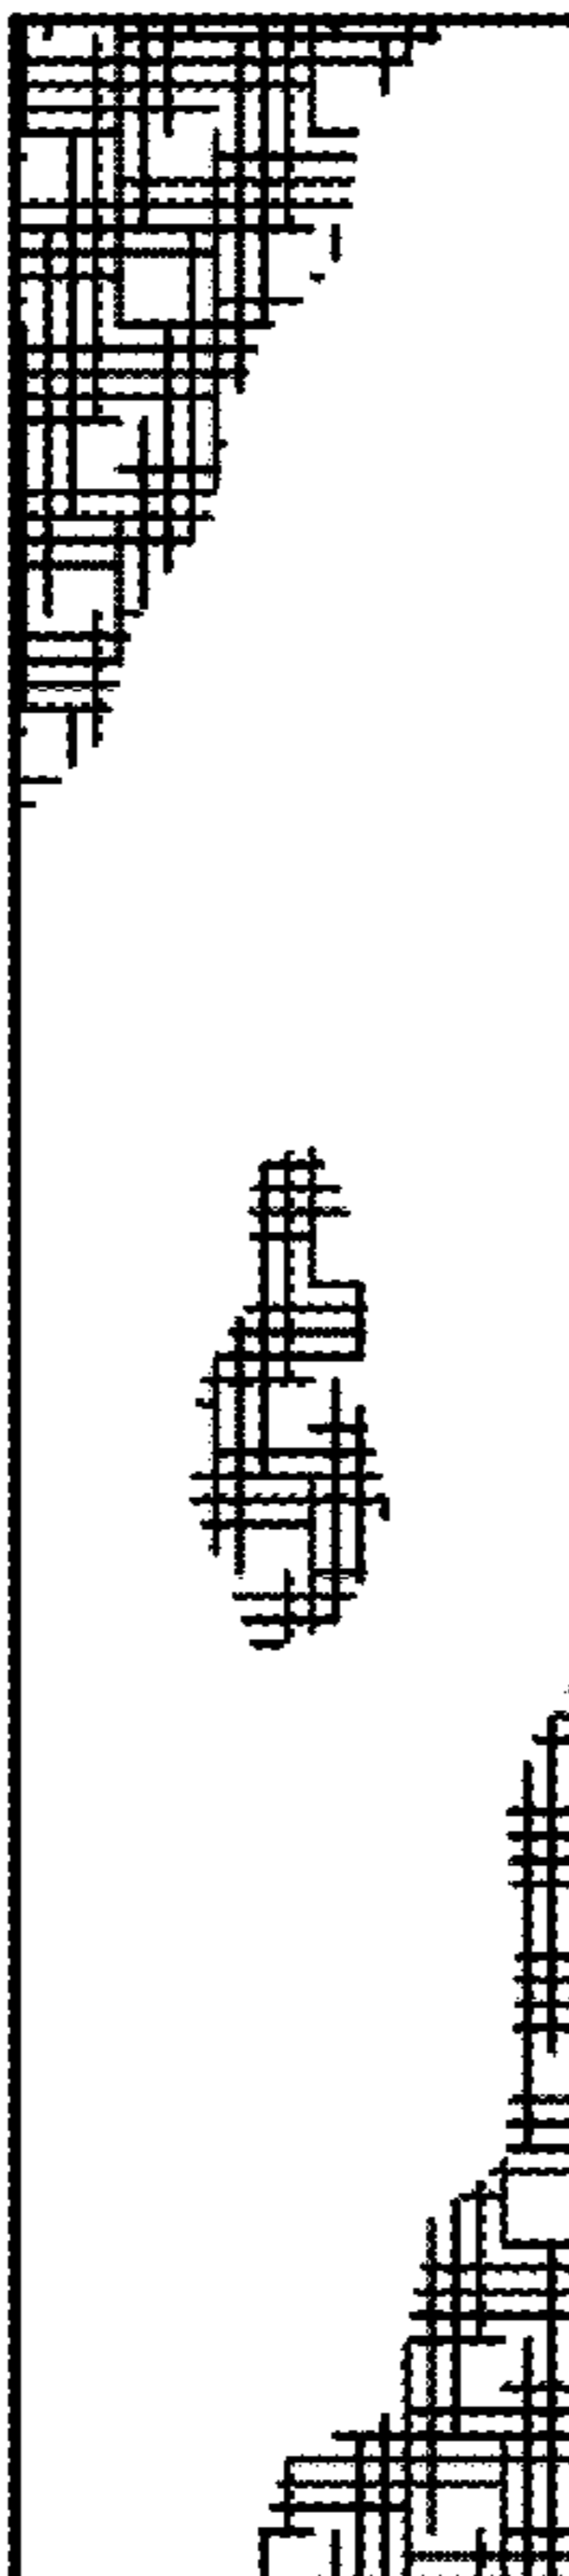

The broken lines showing the shutters, windows, and awnings are for illustrative purposes only and form no part of the claimed design.
