(57) **CLAIM**

The ornamental design for a float for liquid storage container, as shown and described.

DESCRIPTION

This is related to the following co-pending U.S. patent applications, each having the same assignee: U.S. patent application Ser. No. 13/651,352 entitled Liquid Storage, Isolation and Dispensing Assembly, and U.S. patent application Ser. No. 29/434,518 entitled Float for Liquid Storage Container, both filed on 12 Oct. 2012, the disclosures of which are incorporated by reference.

FIG. 1 is a front, top perspective view of a float for liquid storage container showing my new design;

FIG. 2 is a front elevation view thereof, the rear elevation view, right side elevation view and left side elevation view being identical;

FIG. 3 is a top plan view thereof, the bottom plan view being identical; and,

FIG. 4 is a side elevation view thereof within a container, the container shown in broken lines for environmental purposes only.

The broken lines showing a container in FIG. 4 illustrate environmental structure and form no part of the claimed design.

The float for liquid storage container is used to float on the surface of a liquid within a container.
