(57) **CLAIM**

The ornamental design for a fluid applicator, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of our ornamental design for a fluid applicator containing four holes radially spaced 90° apart around the distal end, two of which are shown. Two additional holes are located on the opposite perspective side view which is identical to FIG. 1.

FIG. 2 is a top view of our design shown in FIG. 1.

FIG. 3 is a side plan view of our design showing one hole, with the other side plan views being identical; and,

FIG. 4 is a bottom view of our design shown in FIG. 1.

The fluid applicator is used to apply a fluid to a surface.

The applicator is open at the top end straight through up to and including the bottom end.
