(57) **CLAIM**

I claim the new and ornamental design for a phallus retention harness, as shown and described.

DESCRIPTION

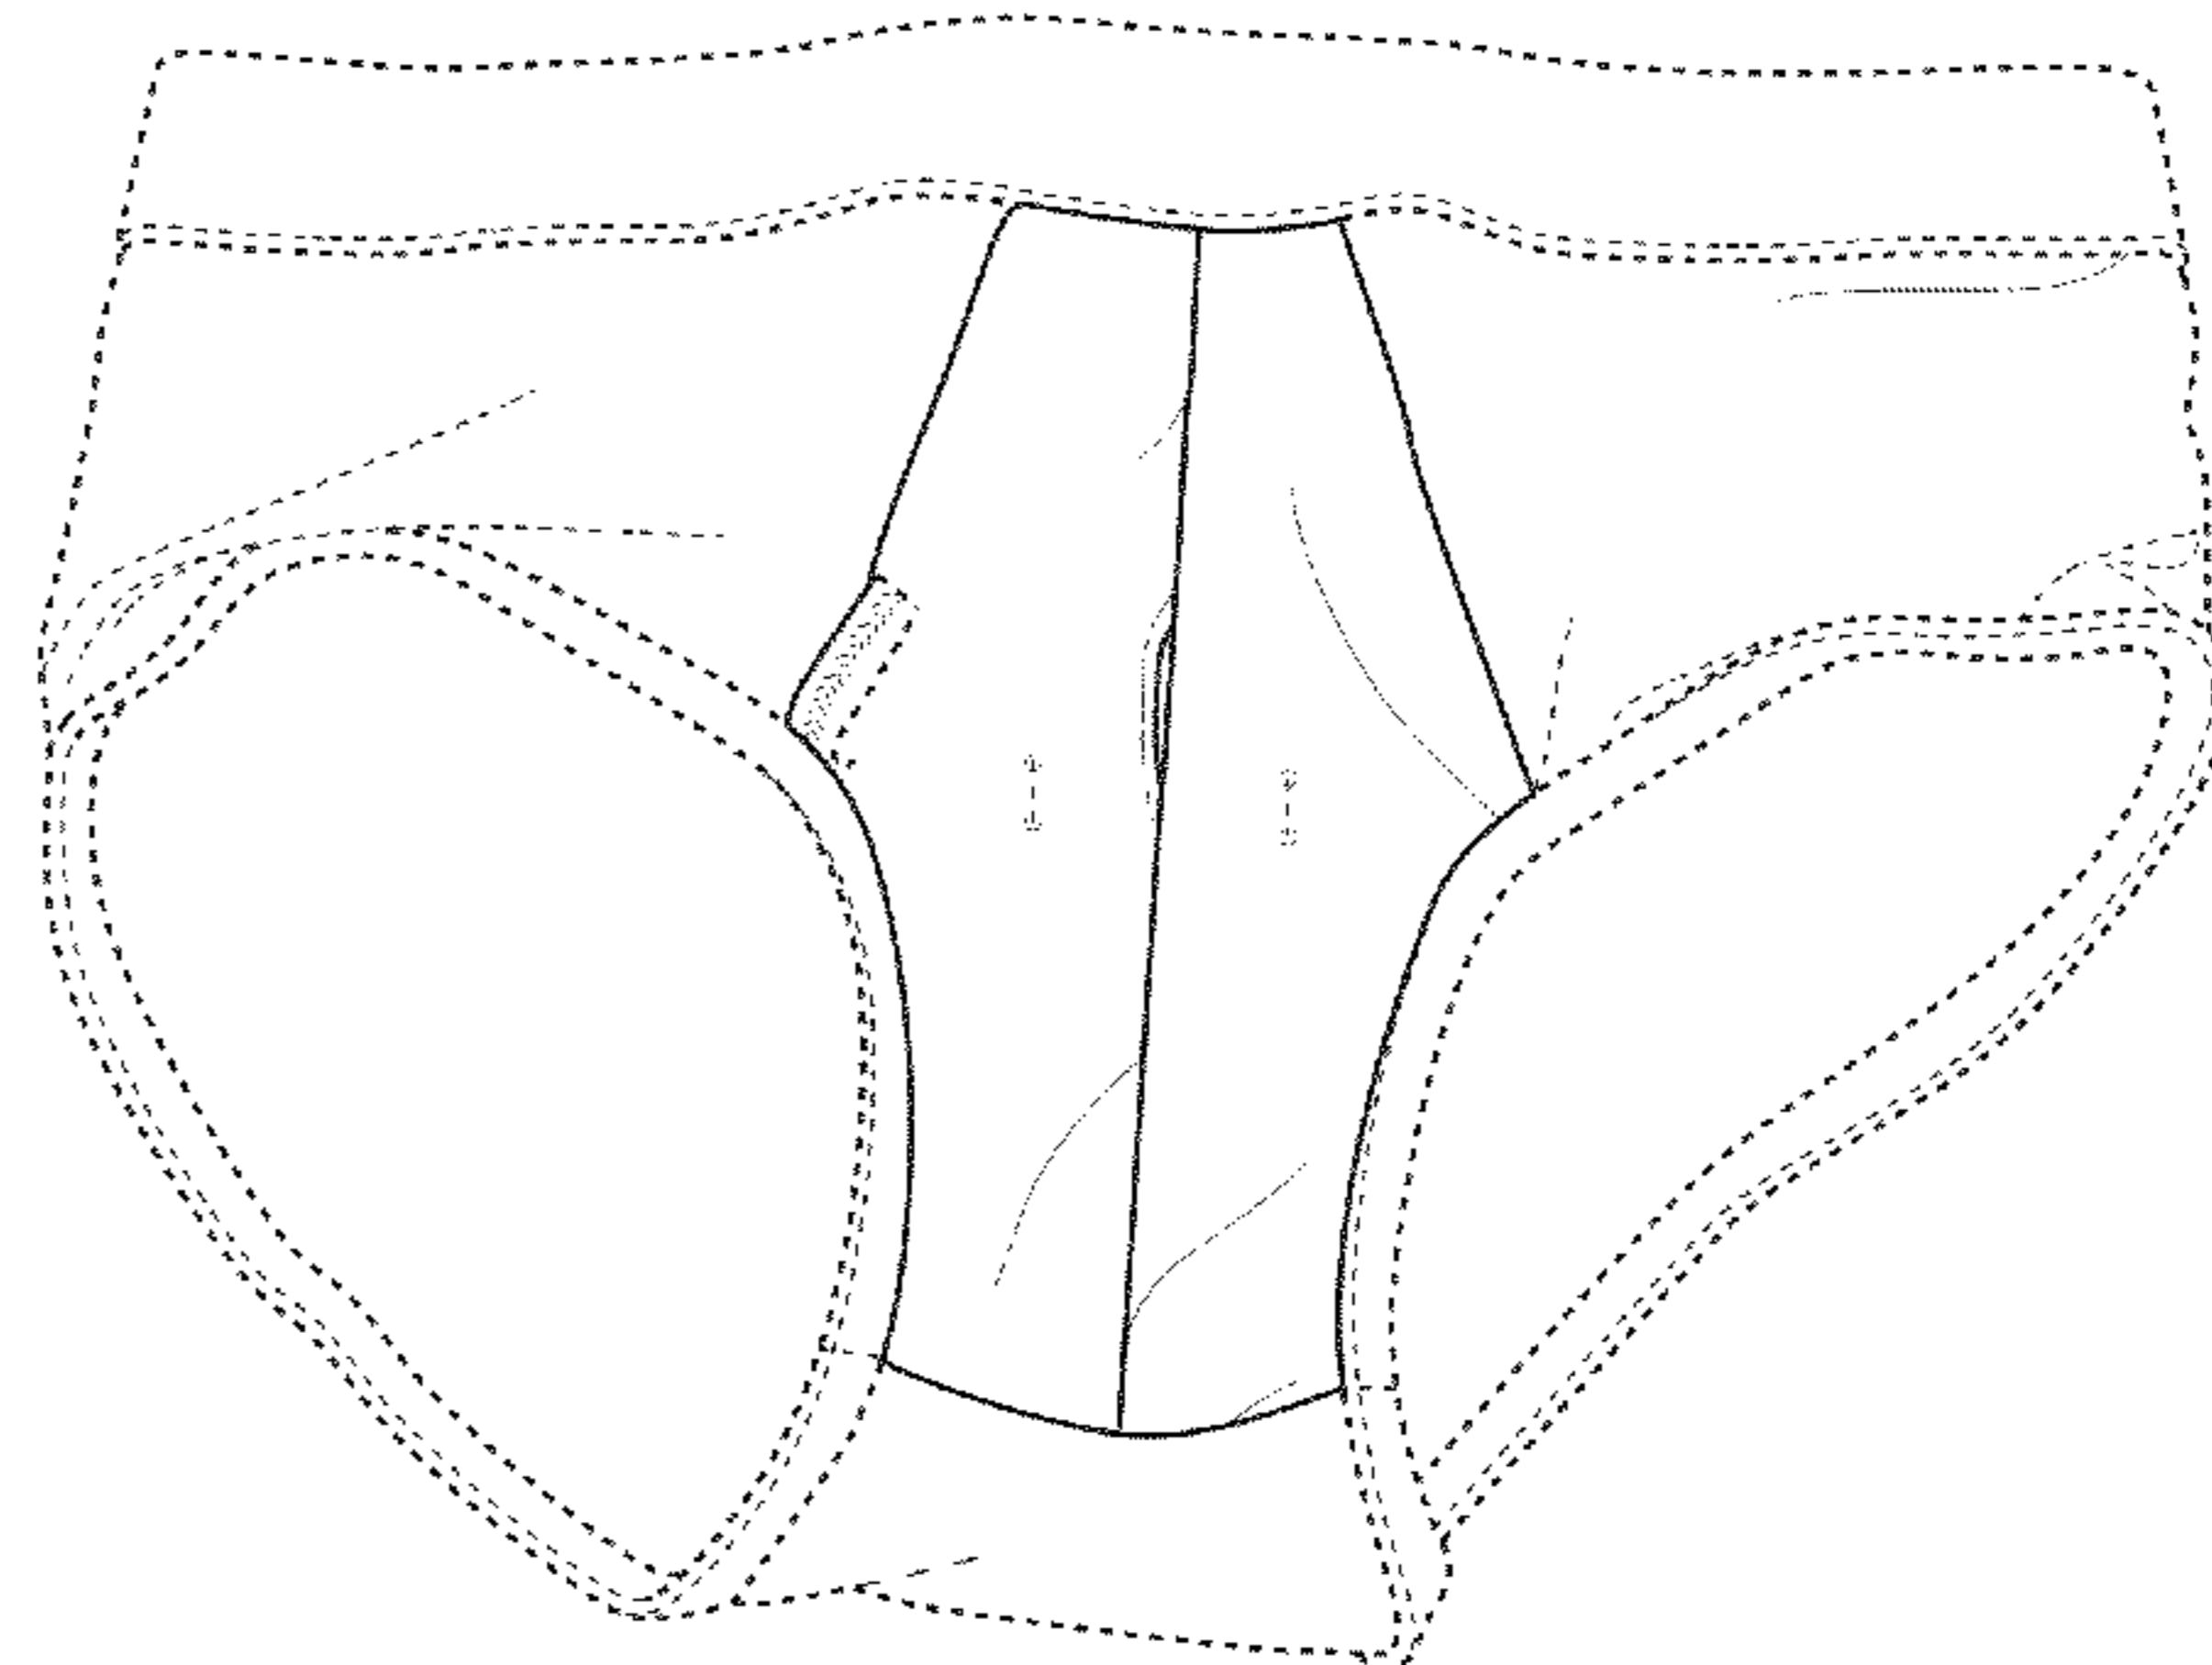

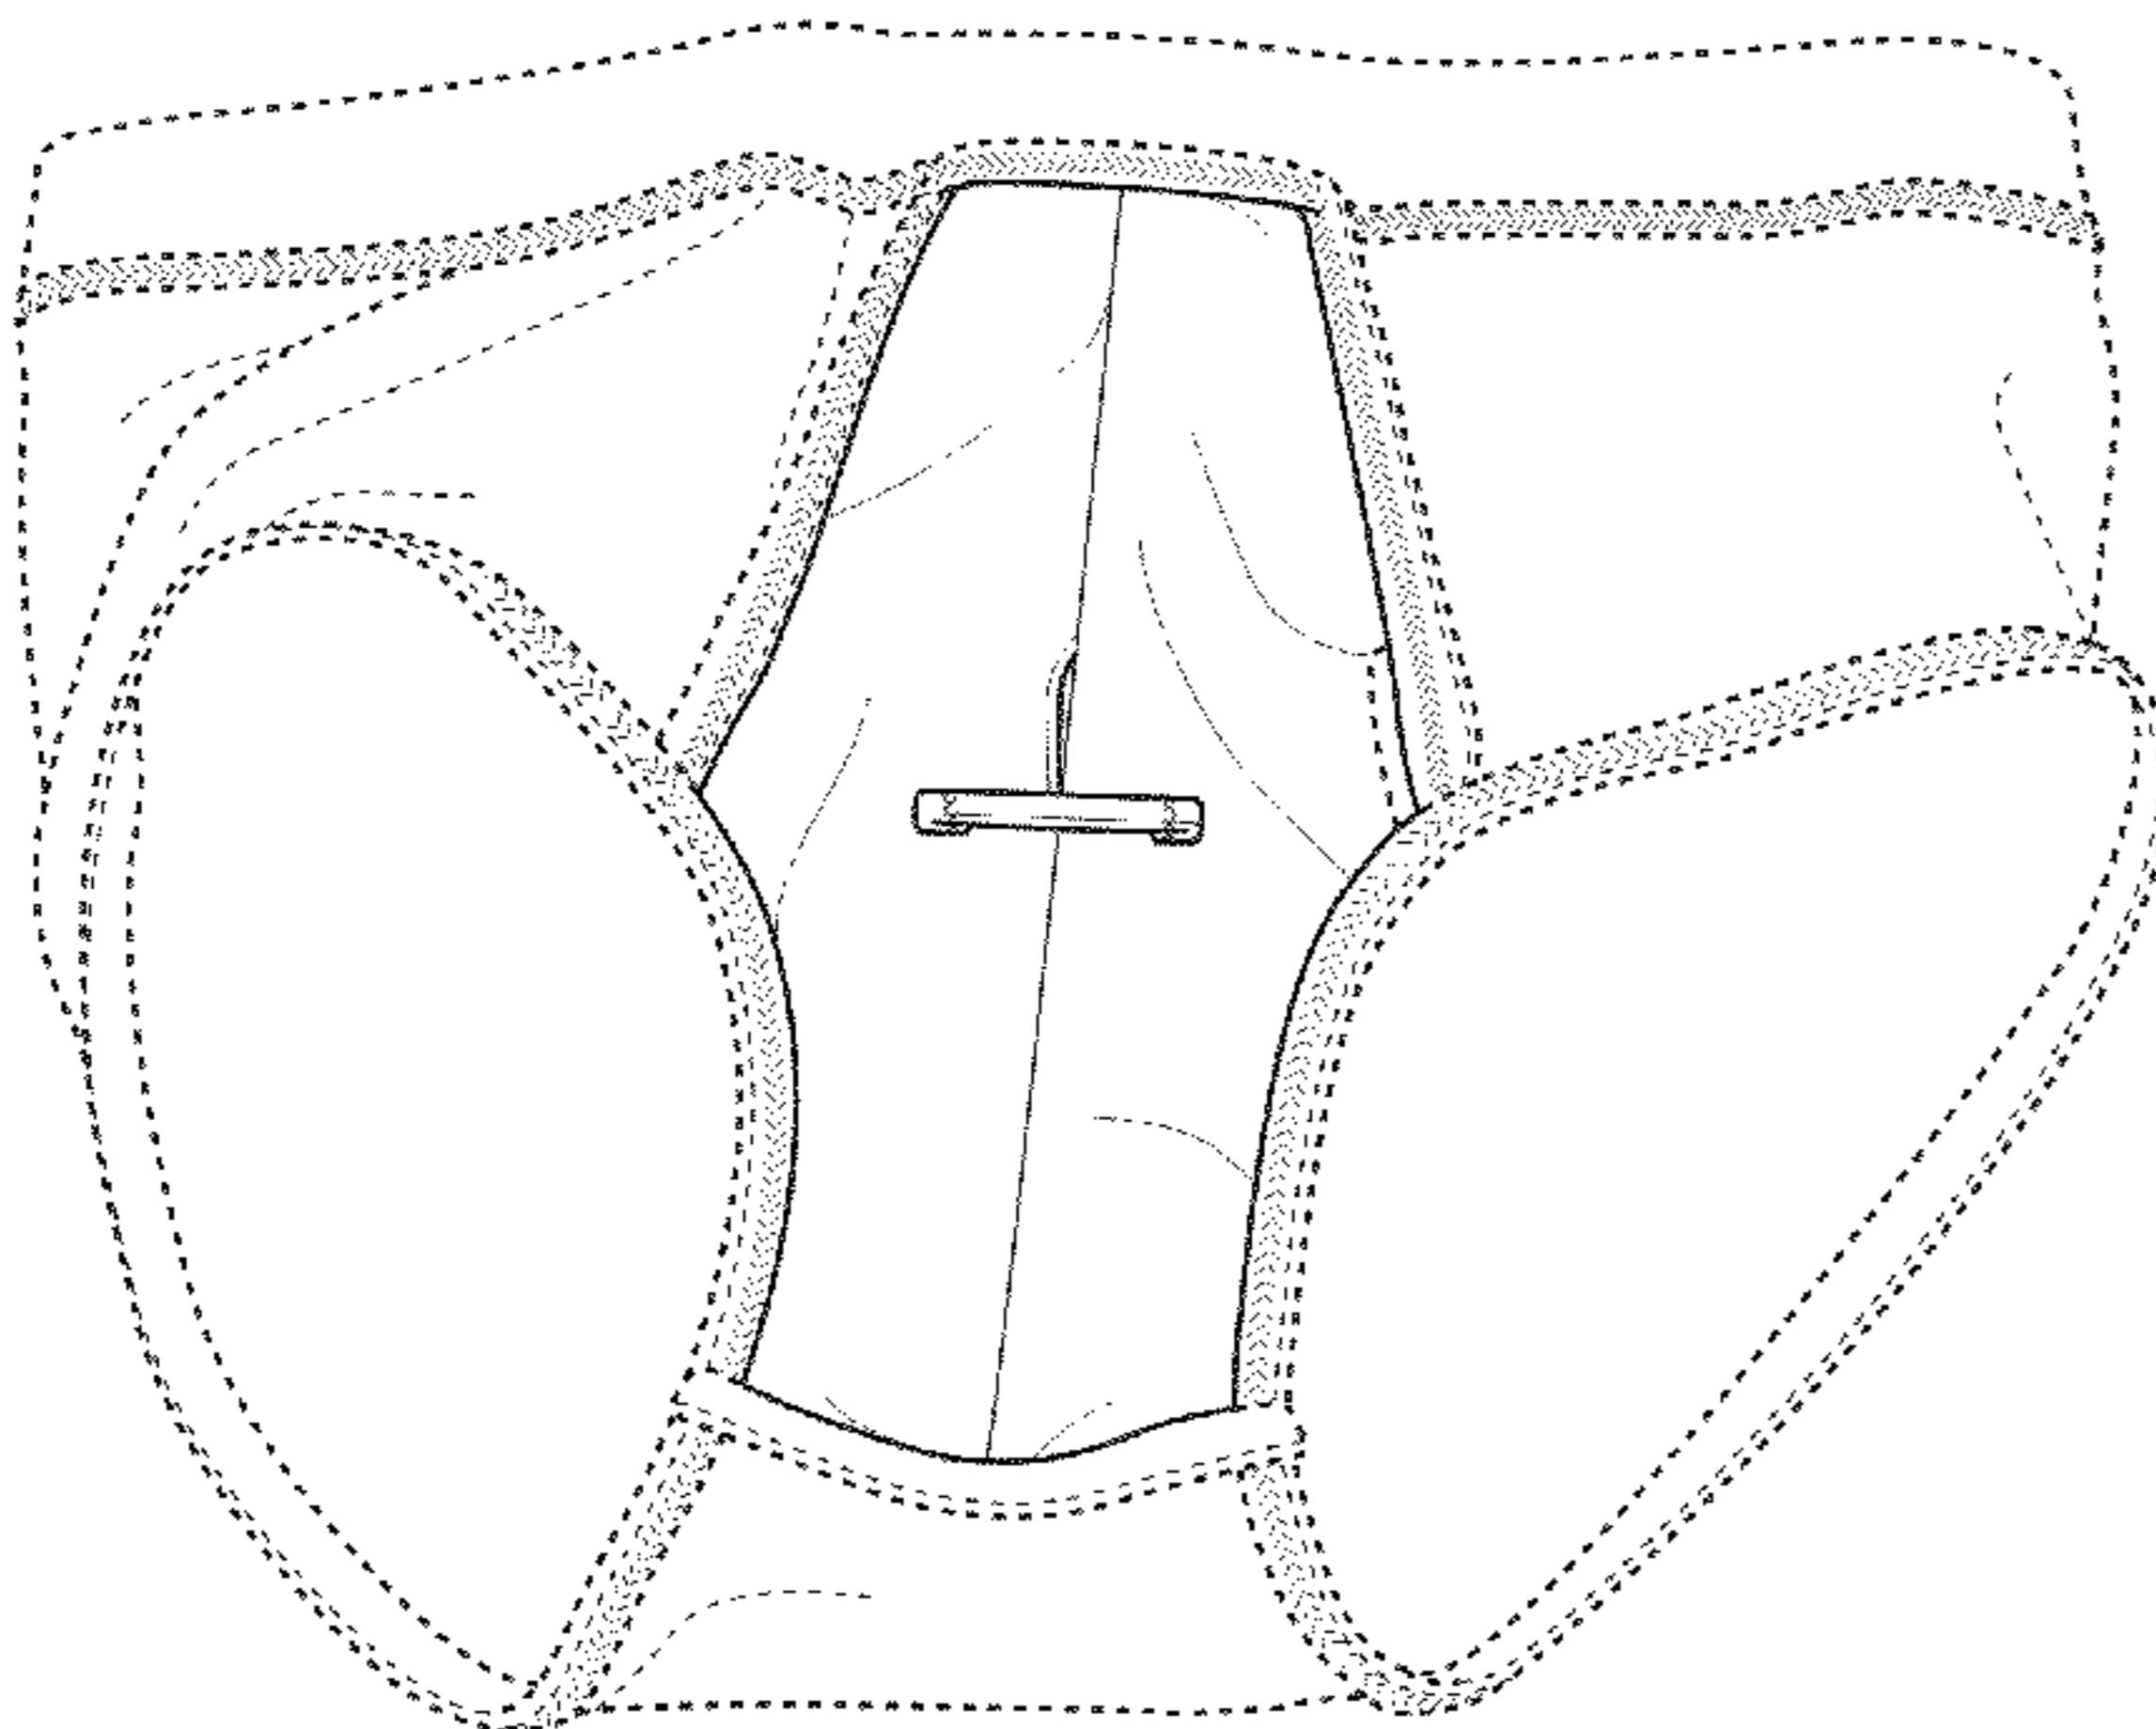

FIG. 1 is a view in front elevation of a phallus retention harness showing my new design;
 FIG. 2 is a view in rear elevation of the phallus retention harness of FIG. 1;
 FIG. 3 is an enlarged view in front elevation of the crotch panel of the phallus retention harness shown separately for clarity of illustration; and,
 FIG. 4 is a view in rear elevation of the crotch panel of the phallus retention harness shown separately for clarity of illustration.

The broken lines in FIGS. 1 and 2 outside of the solid lines bordering the crotch panel portion showing a phallus retention harness illustrate portions of the article in which the design is embodied that form no part of the claimed design. The evenly-incremented broken lines shown on the crotch panel itself are stitching, and form a part of the claimed design.
