DESCRIPTION

FIG. 1 is a perspective view of a hood side according to our new design;

FIG. 2 is top view of the hood side of FIG. 1;

FIG. 3 is a front view of the hood side of FIG. 1; and,

FIG. 4 is a left side elevational view of the hood side of FIG. 1.

The broken lines immediately adjacent the shaded areas, including those disposed around a portion of the periphery of the design as depicted in the FIGURES, represent the bounds of the claimed design while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design.

FIGS. 1-4 illustrate a first embodiment of our novel design suitable for use on the left side of a vehicle. Our novel design also includes a second embodiment suitable for use on the right side of a vehicle, which is mirror symmetrical to FIGS. 1-4 and therefore not separately illustrated.
