DESCRIPTION

(57) **CLAIM**
The ornamental design for a vehicle bed liner, as shown and described.

FIG. 1 is a first perspective of a vehicle bed liner showing the new design.
 FIG. 2 is a second perspective view, thereof.
 FIG. 3 is a front elevation view, thereof; and,
 FIG. 4 is a top plan view, thereof.
 Portions illustrated by dashed line do not form part of the design and are shown to provide additional context for the design. Portions lying between a dashed line and a solid line also do not form part of the design. The design does not include non-illustrated portions including an underside, a backside, and outsides of that illustrated.
 In FIGS. 1 and 2, the near side wall and its components are removed to reveal more fully the interior components of the vehicle bed liner. As shown in FIGS. 3 and 4, the vehicle bed liner includes both the left-side wall of FIG. 1 and the right-side wall of FIG. 2, and the vehicle bed liner is symmetrical.
