(57) **CLAIM**

The ornamental design for a power and data center, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a power and data center showing our new design in a fully-closed configuration; FIG. 2 is another perspective view of the power and data center, shown in a partially-open configuration; FIG. 3 is another perspective view of the power and data center of FIG. 2; FIG. 4 is another perspective view of the power and data center, shown in another partially-open configuration; FIG. 5 is another perspective view of the power and data center, shown in another partially-open configuration; FIG. 6 is another perspective view of the power and data center, shown in a fully-open configuration; FIG. 7 is a top plan view of the power and data center of FIG. 1; FIG. 8 is a bottom plan view of the power and data center of FIG. 1; FIG. 9 is a right side elevation of the power and data center of FIG. 1; FIG. 10 is a left side elevation of the power and data center of FIG. 1; FIG. 11 is a front end elevation of the power and data center of FIG. 1; FIG. 12 is a rear end elevation of the power and data center of FIG. 1; FIG. 13 is a top plan view of the power and data center of FIGS. 2 and 3;

FIG. 14 is a bottom plan view of the power and data center of FIG. 2;

FIG. 15 is a right side elevation of the power and data center of FIG. 2;

FIG. 16 is a left side elevation of the power and data center of FIG. 2;

FIG. 17 is a front end elevation of the power and data center of FIG. 2;

FIG. 18 is a rear end elevation of the power and data center of FIG. 2;

FIG. 19 is a top plan view of the power and data center of FIG. 6;

FIG. 20 is a bottom plan view of the power and data center of FIG. 6; FIG. 21 is a right side elevation of the power and data center of FIG. 6;

FIG. 22 is a left side elevation of the power and data center of FIG. 6;

FIG. 23 is a front end elevation of the power and data center of FIG. 6; and,

FIG. 24 is a rear end elevation of the power and data center of FIG. 6.

The broken lines in the figures represent unclaimed environment only and form no part of the claimed design.
