See application file for complete search history.

FIG. 1 is a front perspective view of a multi-directional secu-
rity light according to the present invention.

FIG. 2 is a rear perspective view of the multi-directional
security light illustrated in FIG. 1.

FIG. 3 is a left side elevation view of the multi-directional
security light illustrated in FIG. 1.

FIG. 4 is a right side elevation view of the multi-directional
security light illustrated in FIG. 1.

FIG. 5 is a front elevation view of the multi-directional secu-
rity light illustrated in FIG. 1.

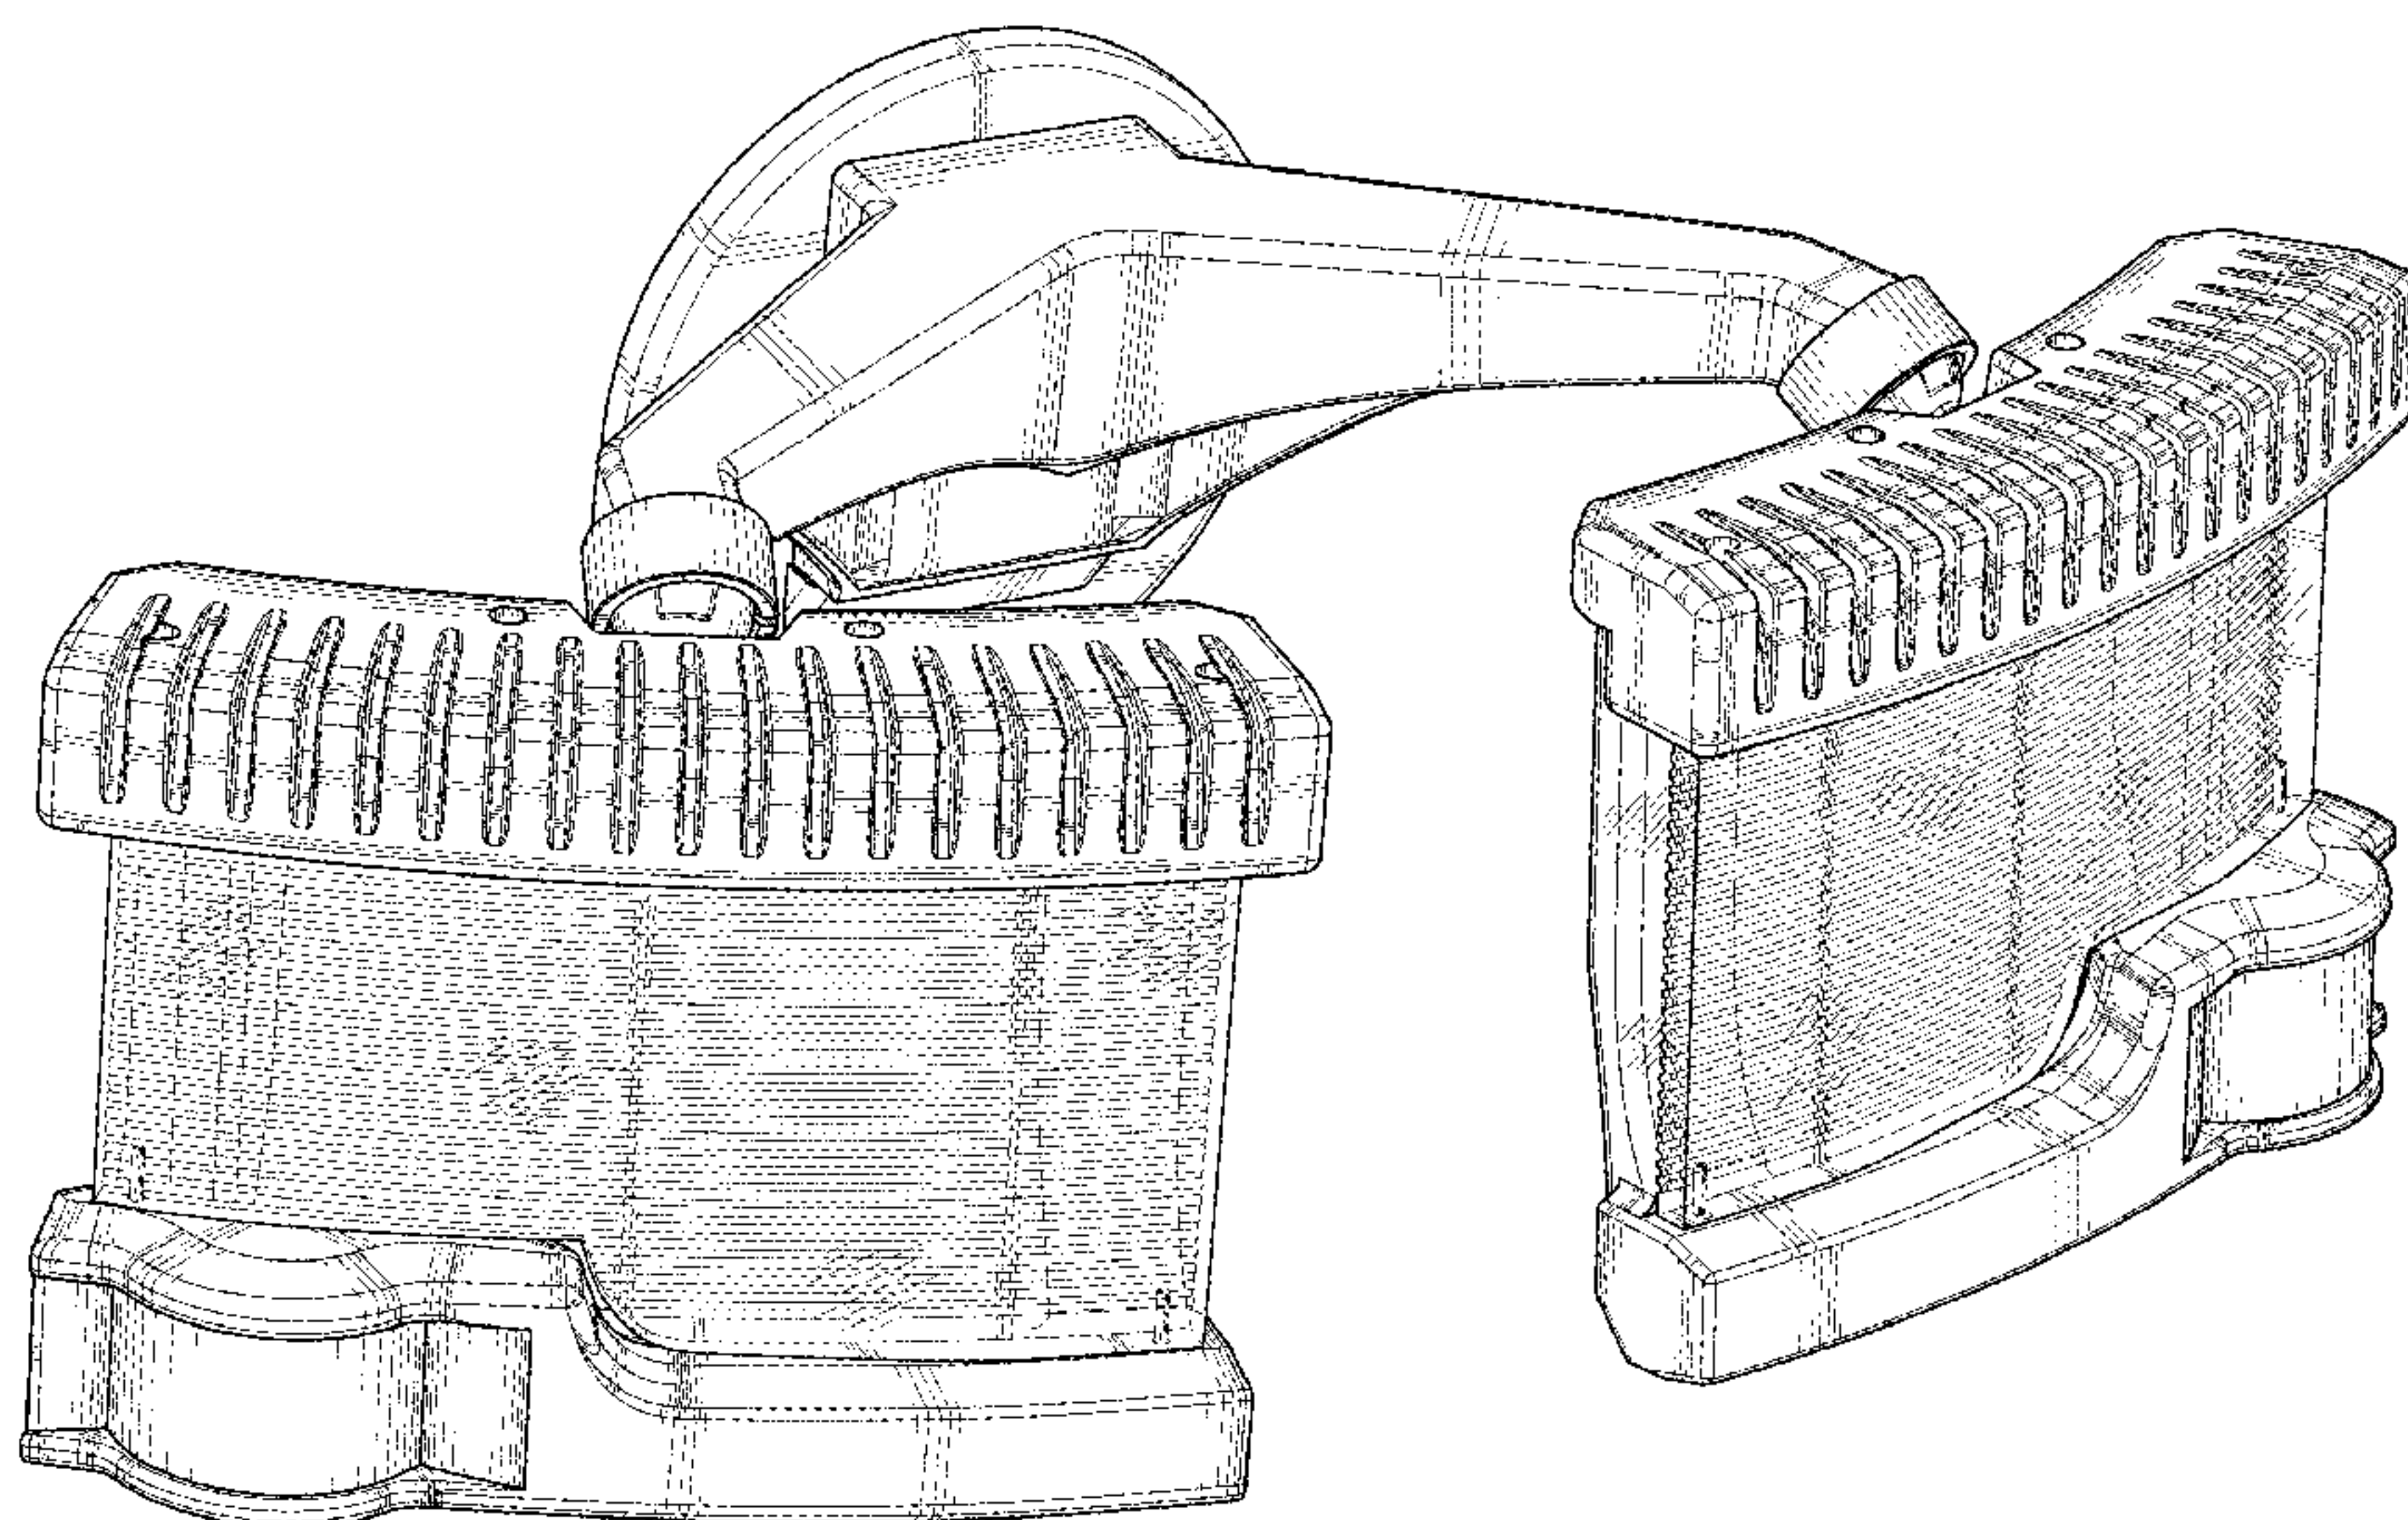

FIG. 6 is a rear elevation view of the multi-directional security
light illustrated in FIG. 1.

FIG. 7 is a top plan view of the multi-directional security light
illustrated in FIG. 1; and,

FIG. 8 is a bottom plan view of the multi-directional security
light illustrated in FIG. 1.

The broken lines depict elements of the multi-directional
security light that do not form a claimed feature of the present
invention.
