(57) **CLAIM**

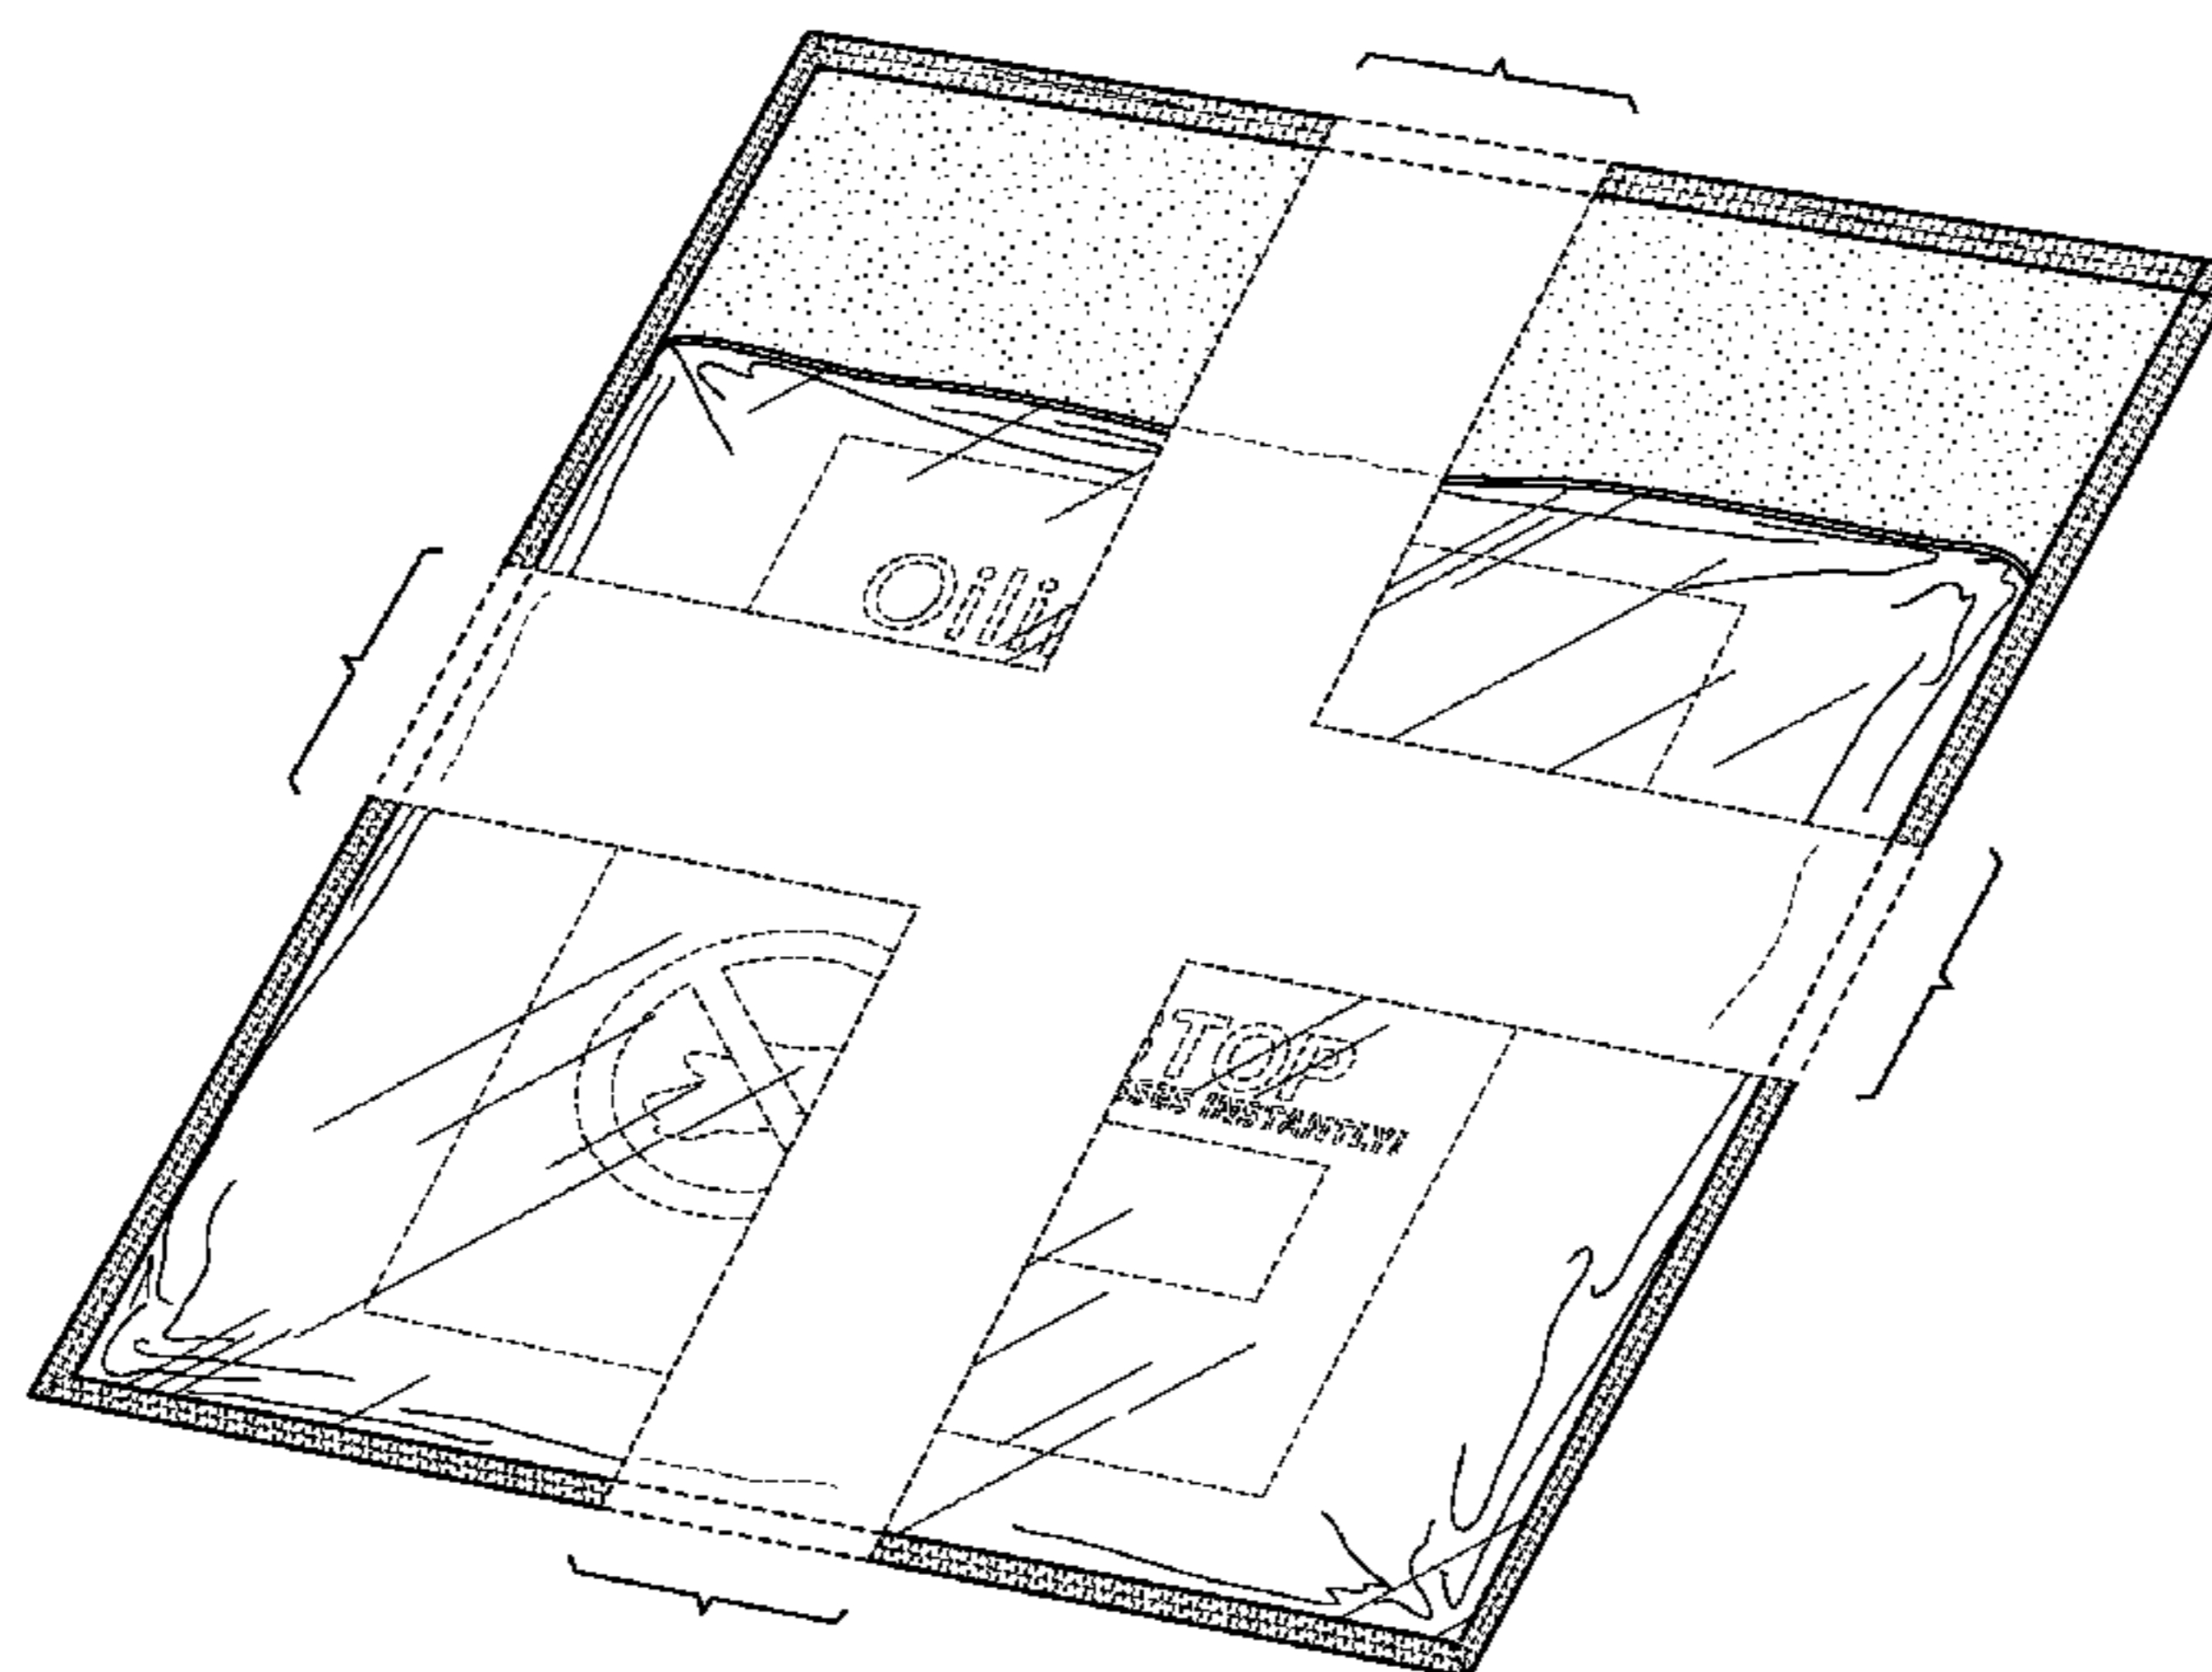

I claim the ornamental design for an absorbent ground-protecting pad, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an absorbent ground-protecting pad, showing my new design;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a rear elevational view thereof;
FIG. 4 is a left-side elevational view thereof, the right-side elevational view being a mirror image thereof;
FIG. 5 is a top plan view thereof; and,
FIG. 6 is a bottom plan view thereof.

The design is shaded with oblique lines in FIGS. 1 and 2 to represent a transparent surface on the front of the design. The portions drawn in stippled shading represent a contrast in texture with the other areas. The broken line rendering of an unclaimed marketing flyer under the transparent sheet in FIG. 1 depicts environmental subject matter and forms no part of the claimed design. The broken lines and the areas between the unclaimed break lines in all of the figures form no part of the claimed design.
