(57) **CLAIM**
The ornamental design for a display with transitional graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all other copyrights whatsoever.

FIG. 1 is a front view of the first state in a sequence for a display with graphical user interface, showing our new design;

FIG. 2 is a front view of a second state thereof;

FIG. 3 is a front view of the first state in a sequence of an alternate embodiment for a display with graphical user interface showing our new design;

FIG. 4 is a front view second state thereof; and,

FIG. 5 is a front view third state thereof.

The broken line showings of the display and portions of the transitional graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.

The appearance of the transitional user interface sequentially transitions between the images shown in FIGS. 1-2 and between the images shown in FIGS. 3-5 in an alternate embodiment. The process or period in which one image transitions to another image forms no part of the claimed design.
