A portion of the disclosure of this patent document contains material which is subject to copyright and trademark protection. The copyright and trademark owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the U.S. Patent and Trademark Office patent file or records, but otherwise reserves all copyright and trademark rights whatsoever.

FIG. 1 is a front view of a graphical user interface having a first appearance state.

FIG. 2 is a front view of the graphical user interface having a second appearance state; and,

FIG. 3 is a front view of the graphical user interface having a third appearance state.

The broken line features in the Figures are for illustrative purposes only and form no part of the claimed design.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
