(57) **CLAIM**

The ornamental design for a display screen with a transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a display screen with a transitional graphical user interface showing the new design in a first state;

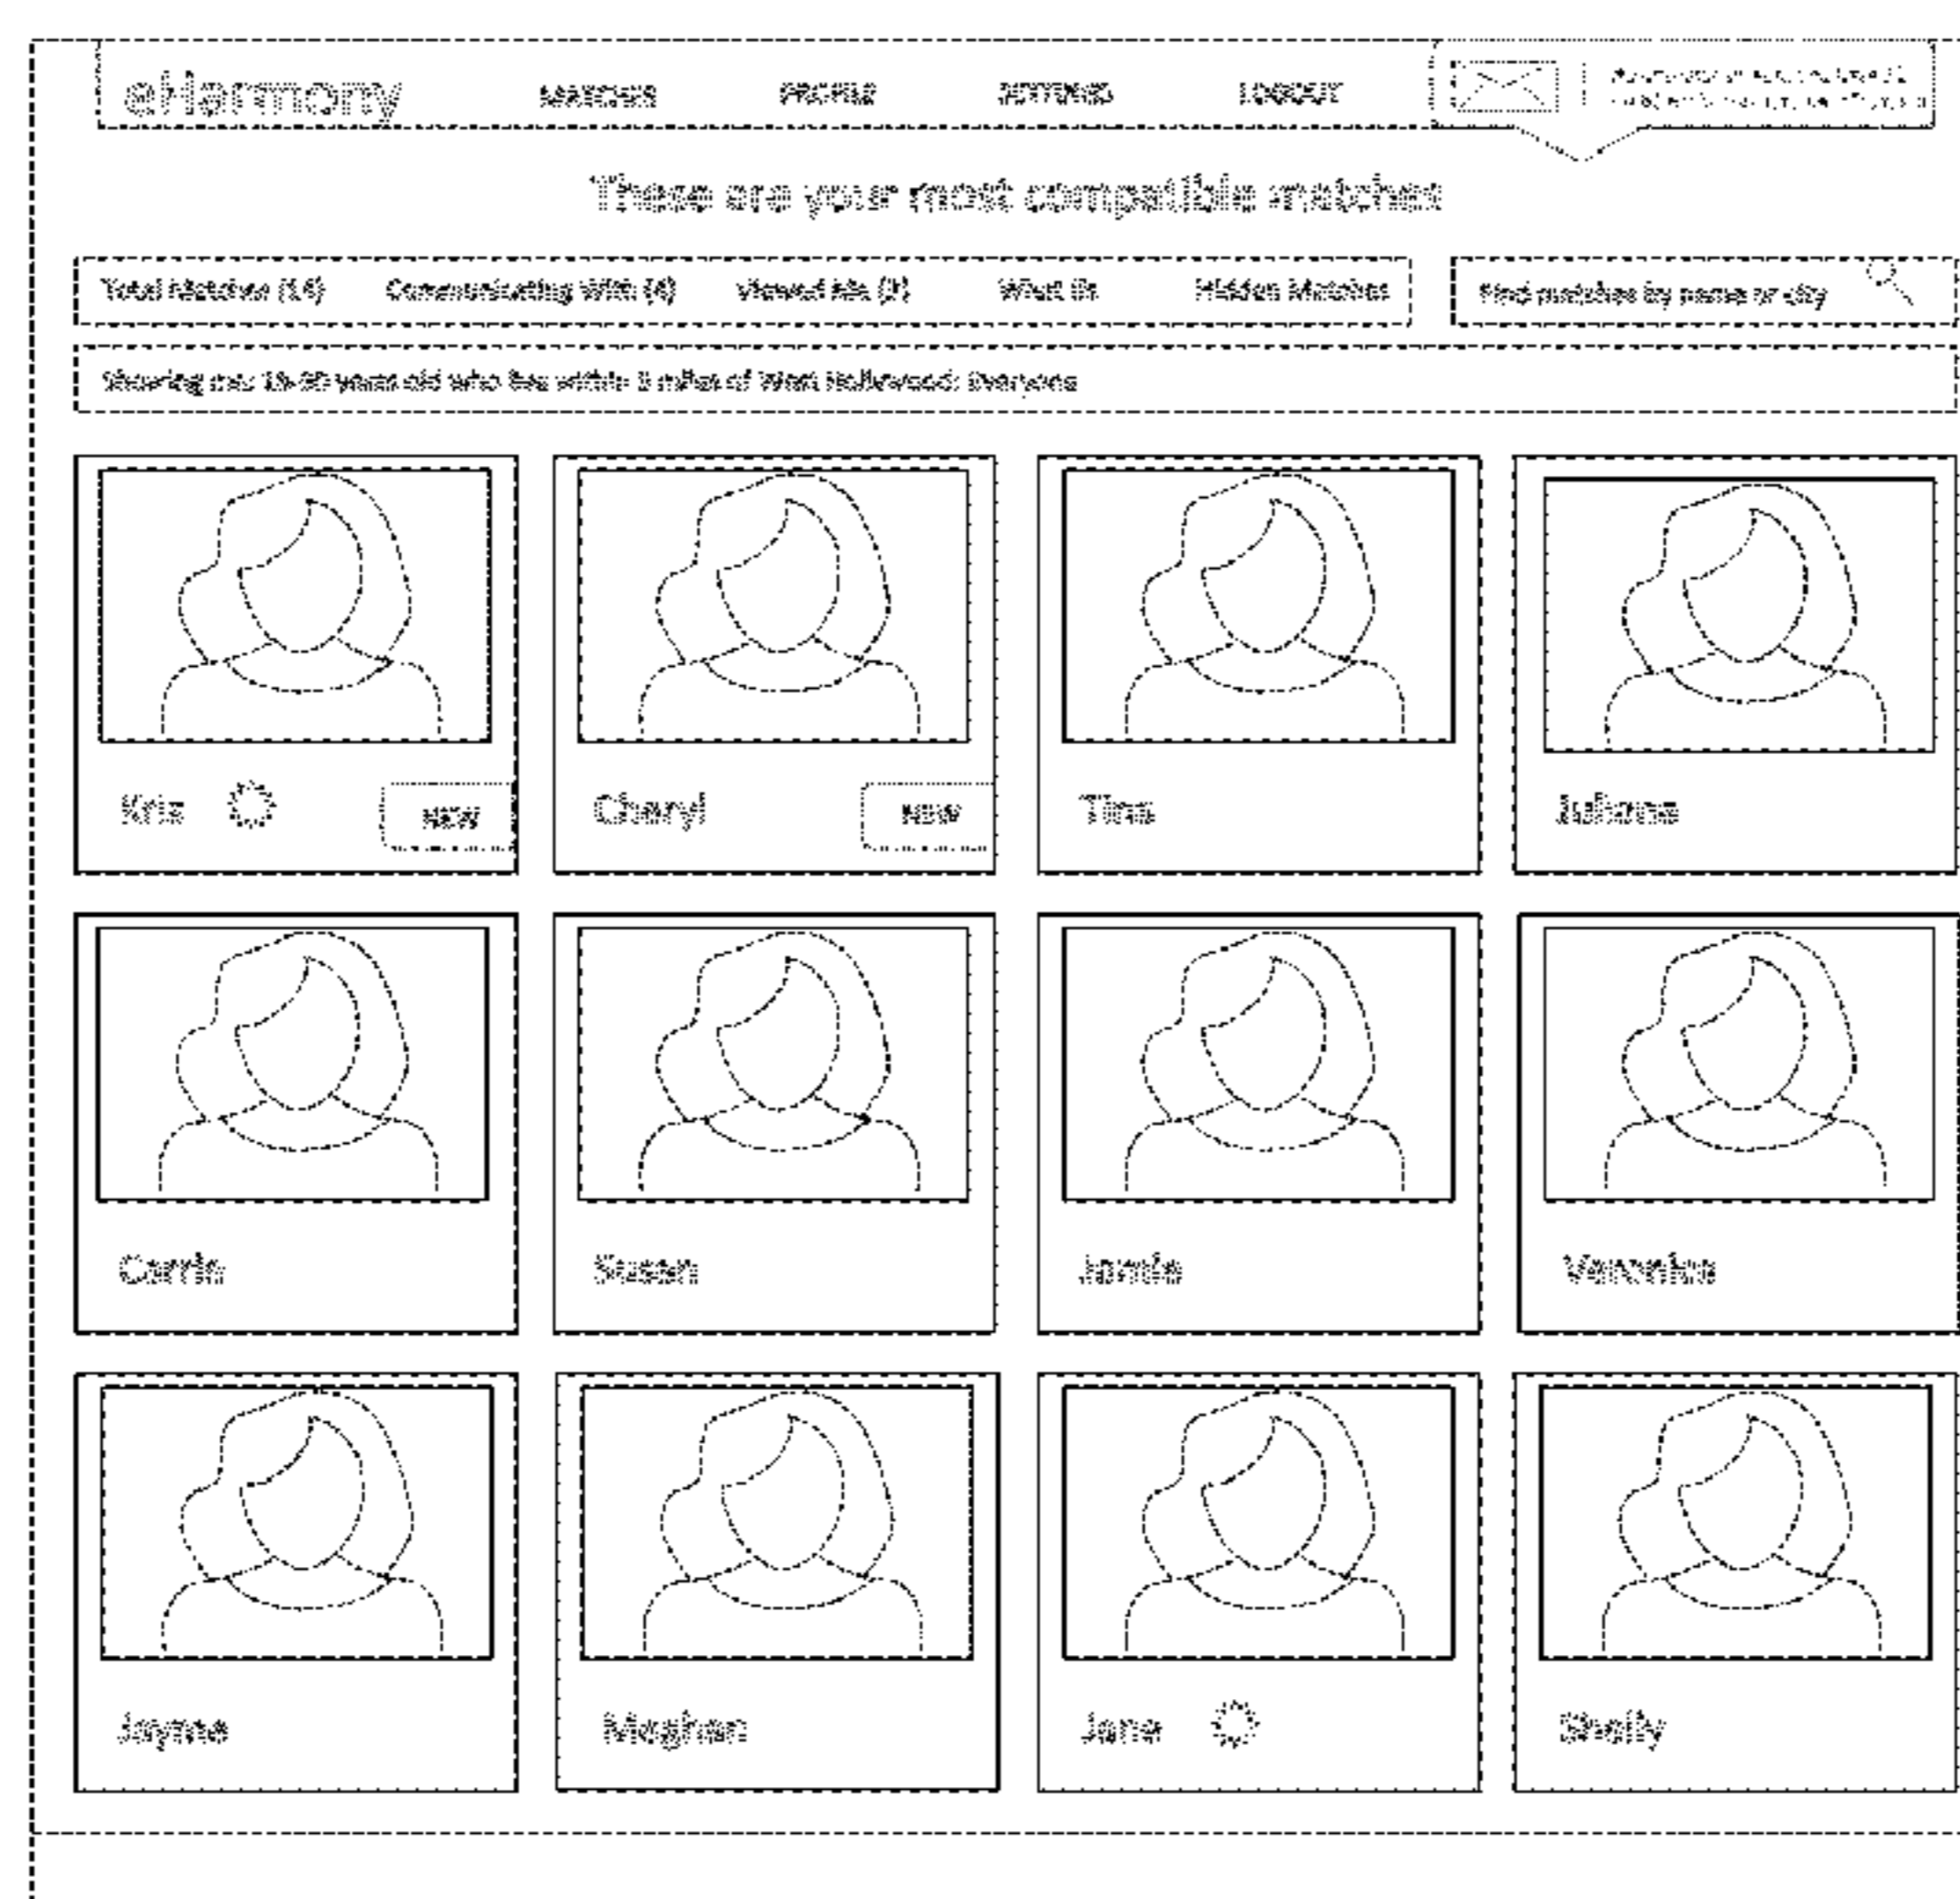

FIG. 2 is a front view thereof showing the new design in a second state; and,

FIG. 3 is a front view thereof showing the new design in a third state.

The broken line showing of the display screen, the elements within the display screen, and the text forms no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
