(57) **CLAIM**

The ornamental design for a button cover, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a button cover according to the present invention.

FIG. 2 is a front elevation view of the button cover illustrated in FIG. 1.

FIG. 3 is a side elevation view of the button cover illustrated in FIG. 1.

FIG. 4 is a top plan view of the button cover illustrated in FIG. 1.

FIG. 5 is a bottom plan view of the button cover illustrated in FIG. 1.

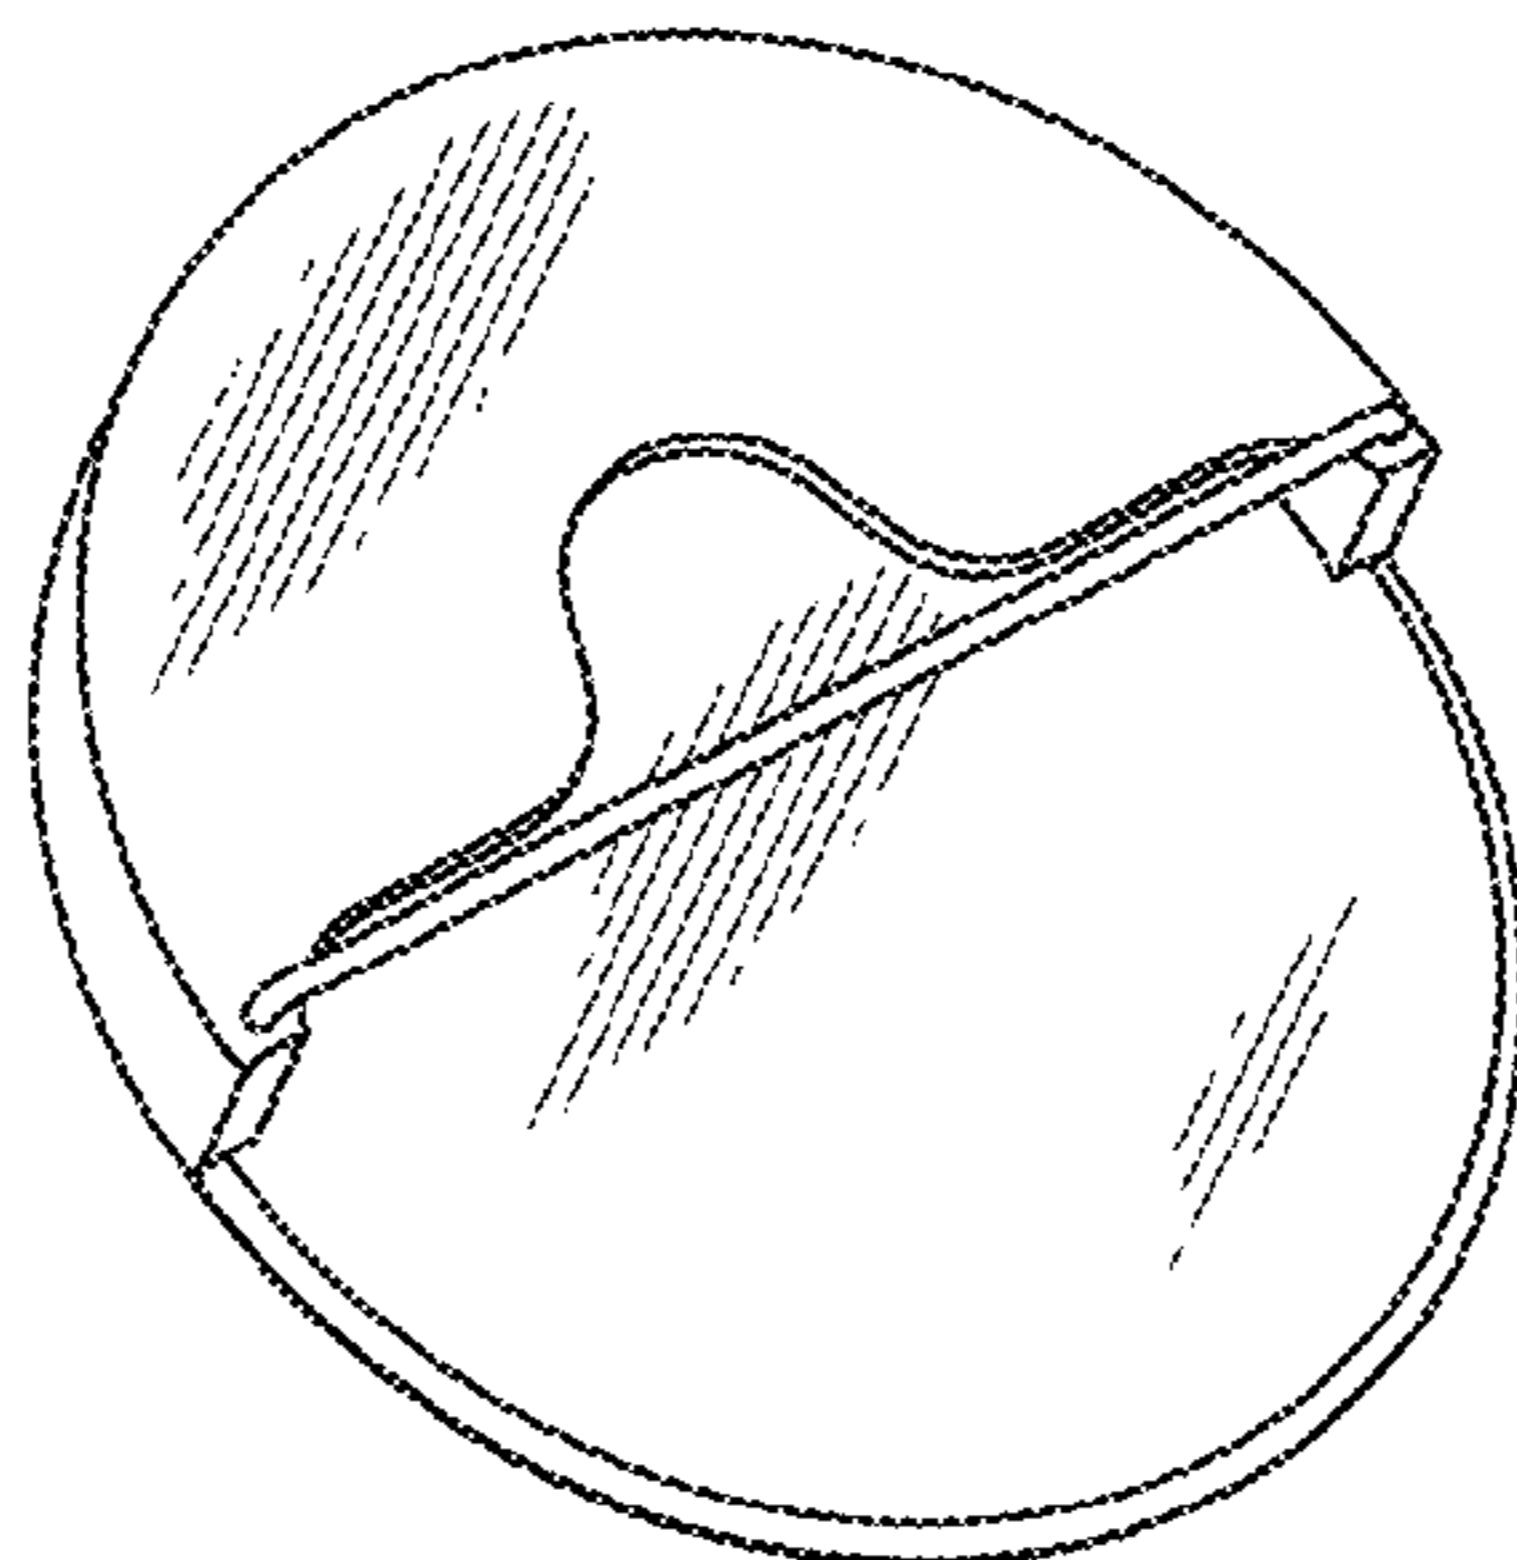

FIG. 6 is a perspective view of the button cover illustrated in FIG. 1 showing the button cover being adapted to matingly connect to a clip member, wherein the dashed lines depict a clip member that is adapted to engage the button cover, but is not a claimed feature of the present invention.

FIG. 7 is a perspective view of the button cover illustrated in FIG. 1 showing the button cover being adapted to matingly connect to a clip member on one side and matingly connect to an ornamental flower on the other side, wherein the dashed lines depict the clip member illustrated in FIG. 6 and the ornamental flower to be connected to a portion of the button cover, but are not claimed features of the present invention.

FIG. 8 is a perspective view of the button cover illustrated in FIG. 1 showing the button cover adapted to matingly connect to a button on a pair of pants on one side and matingly connect to an ornamental flower on the other side, wherein the dashed lines depict a button on a pair of pants to which the button cover is to be matingly engaged, and the flower to be matingly connected to a portion of the button cover, but are not claimed features of the present invention; and,

FIG. 9 is a perspective view of an ornamental flower connected to the button cover of the present invention, the button cover connected to the clip member illustrated in FIG. 6, and the clip member being connected to a handbag, wherein the dashed lines are not claimed features of the present invention.

1 Claim, 3 Drawing Sheets
