(57) **CLAIM**

I claim the ornamental design for a electric vehicle recharging terminal with screen display, as shown and described.

DESCRIPTION

FIG. **1** is a front right perspective view of a first embodiment of an electric vehicle recharging terminal with screen display showing my new design;
FIG. **2** is a rear right perspective view thereof;
FIG. **3** is a front left perspective view thereof;
FIG. **4** is a rear left perspective view thereof;
FIG. **5** is a front right perspective view of a second embodiment of an electric vehicle recharging terminal with screen display showing my new design;
FIG. **6** is a rear right perspective view thereof;
FIG. **7** is a front left perspective view thereof;
FIG. **8** is a rear left perspective view thereof;
FIG. **9** is a front right perspective view of an alternative embodiment of the electric vehicle recharging terminal with screen display of FIGS. **5-8** showing my new design;
FIG. **10** is a rear right perspective view thereof;
FIG. **11** is a front right perspective view of an alternative embodiment of the electric vehicle recharging terminal with screen display of FIGS. **1-4** showing my new design; and,
FIG. **12** is a rear right perspective view thereof.
The rectangular regions in the figures shown in the upper portion of the electric vehicle recharging terminal represents a computer screen display for displaying graphical information and images. The unshown bottom of the electric vehicle recharging terminal with screen display forms no part of the claimed design.
