Primary Examiner — Derrick Holland

(57) **CLAIM**

The ornamental design for a generator system, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a generator system showing our new design.

FIG. 2 is a front elevational view thereof.

FIG. 3 is a back elevational view thereof.

FIG. 4 is a left side elevational view thereof.

FIG. 5 is a right side elevational view thereof.

FIG. 6 is a top view thereof.

FIG. 7 is a bottom view thereof.

FIG. 8 is an exploded front perspective view of the generator system.

FIG. 9 is a front perspective view of a cart portion of the generator system.

FIG. 10 is a back elevational view thereof.

FIG. 11 is a front elevational view thereof.

FIG. 12 is a left side elevational view thereof.

FIG. 13 is a right side elevational view thereof.

FIG. 14 is a top view thereof.

FIG. 15 is a bottom view thereof.

FIG. 16 is a front perspective view of a generator portion of the generator system.

FIG. 17 is a front elevational view thereof.

FIG. 18 is a back elevational view thereof.

FIG. 19 is a left side elevational view thereof.

FIG. 20 is a right side elevational view thereof.

FIG. 21 is a top view thereof; and,

FIG. 22 is a bottom view thereof.

The broken lines shown represent unclaimed subject matter only and form no part of the claim. Where broken lines abut a claimed surface it is understood that those broken lines represent an unclaimed boundary between claimed and unclaimed surfaces. None of the broken lines form any part of the claimed design.

Portions of the generator system have been shown broken to indicate indeterminate length. The indeterminate portion of the article forms no part of the claim design. Patentability is based on those portions of the generator system that are shown in solid lines.

1 Claim, 12 Drawing Sheets
