(57) **CLAIM**

The ornamental design for a tubing connector, as shown and described.

DESCRIPTION

FIG. 1 is a top, front perspective view of the tubing connector of the present invention showing our new design; FIG. 2 is a bottom, rear perspective view thereof; FIG. 3 is a front elevational view thereof, the back elevational view being a mirror image of the front elevational view; FIG. 4 is a right side elevational view thereof, the left side elevational view being a mirror image of the right side elevational view; FIG. 5 is a bottom plan view thereof; FIG. 6 is a top plan view thereof; and, FIG. 7 is a front elevational view thereof, with the dotted lines depicting solely environmental structures including ancillary components of the ventilation system and the head of a patient using the same, and forming no part of the claimed design. The broken lines in FIGS. 1-3 illustrate portions of the tubing connector which form no part of the claimed design.
