(57) **CLAIM**

The ornamental design for a detachable visor, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a detachable visor showing my new design;

FIG. 2 is a right side elevation view thereof (the left side is a mirror image) shown attached to eye glasses;

FIG. 3 is a front elevation shown without the attachments to the eyeglass stems for clarity of illustration;

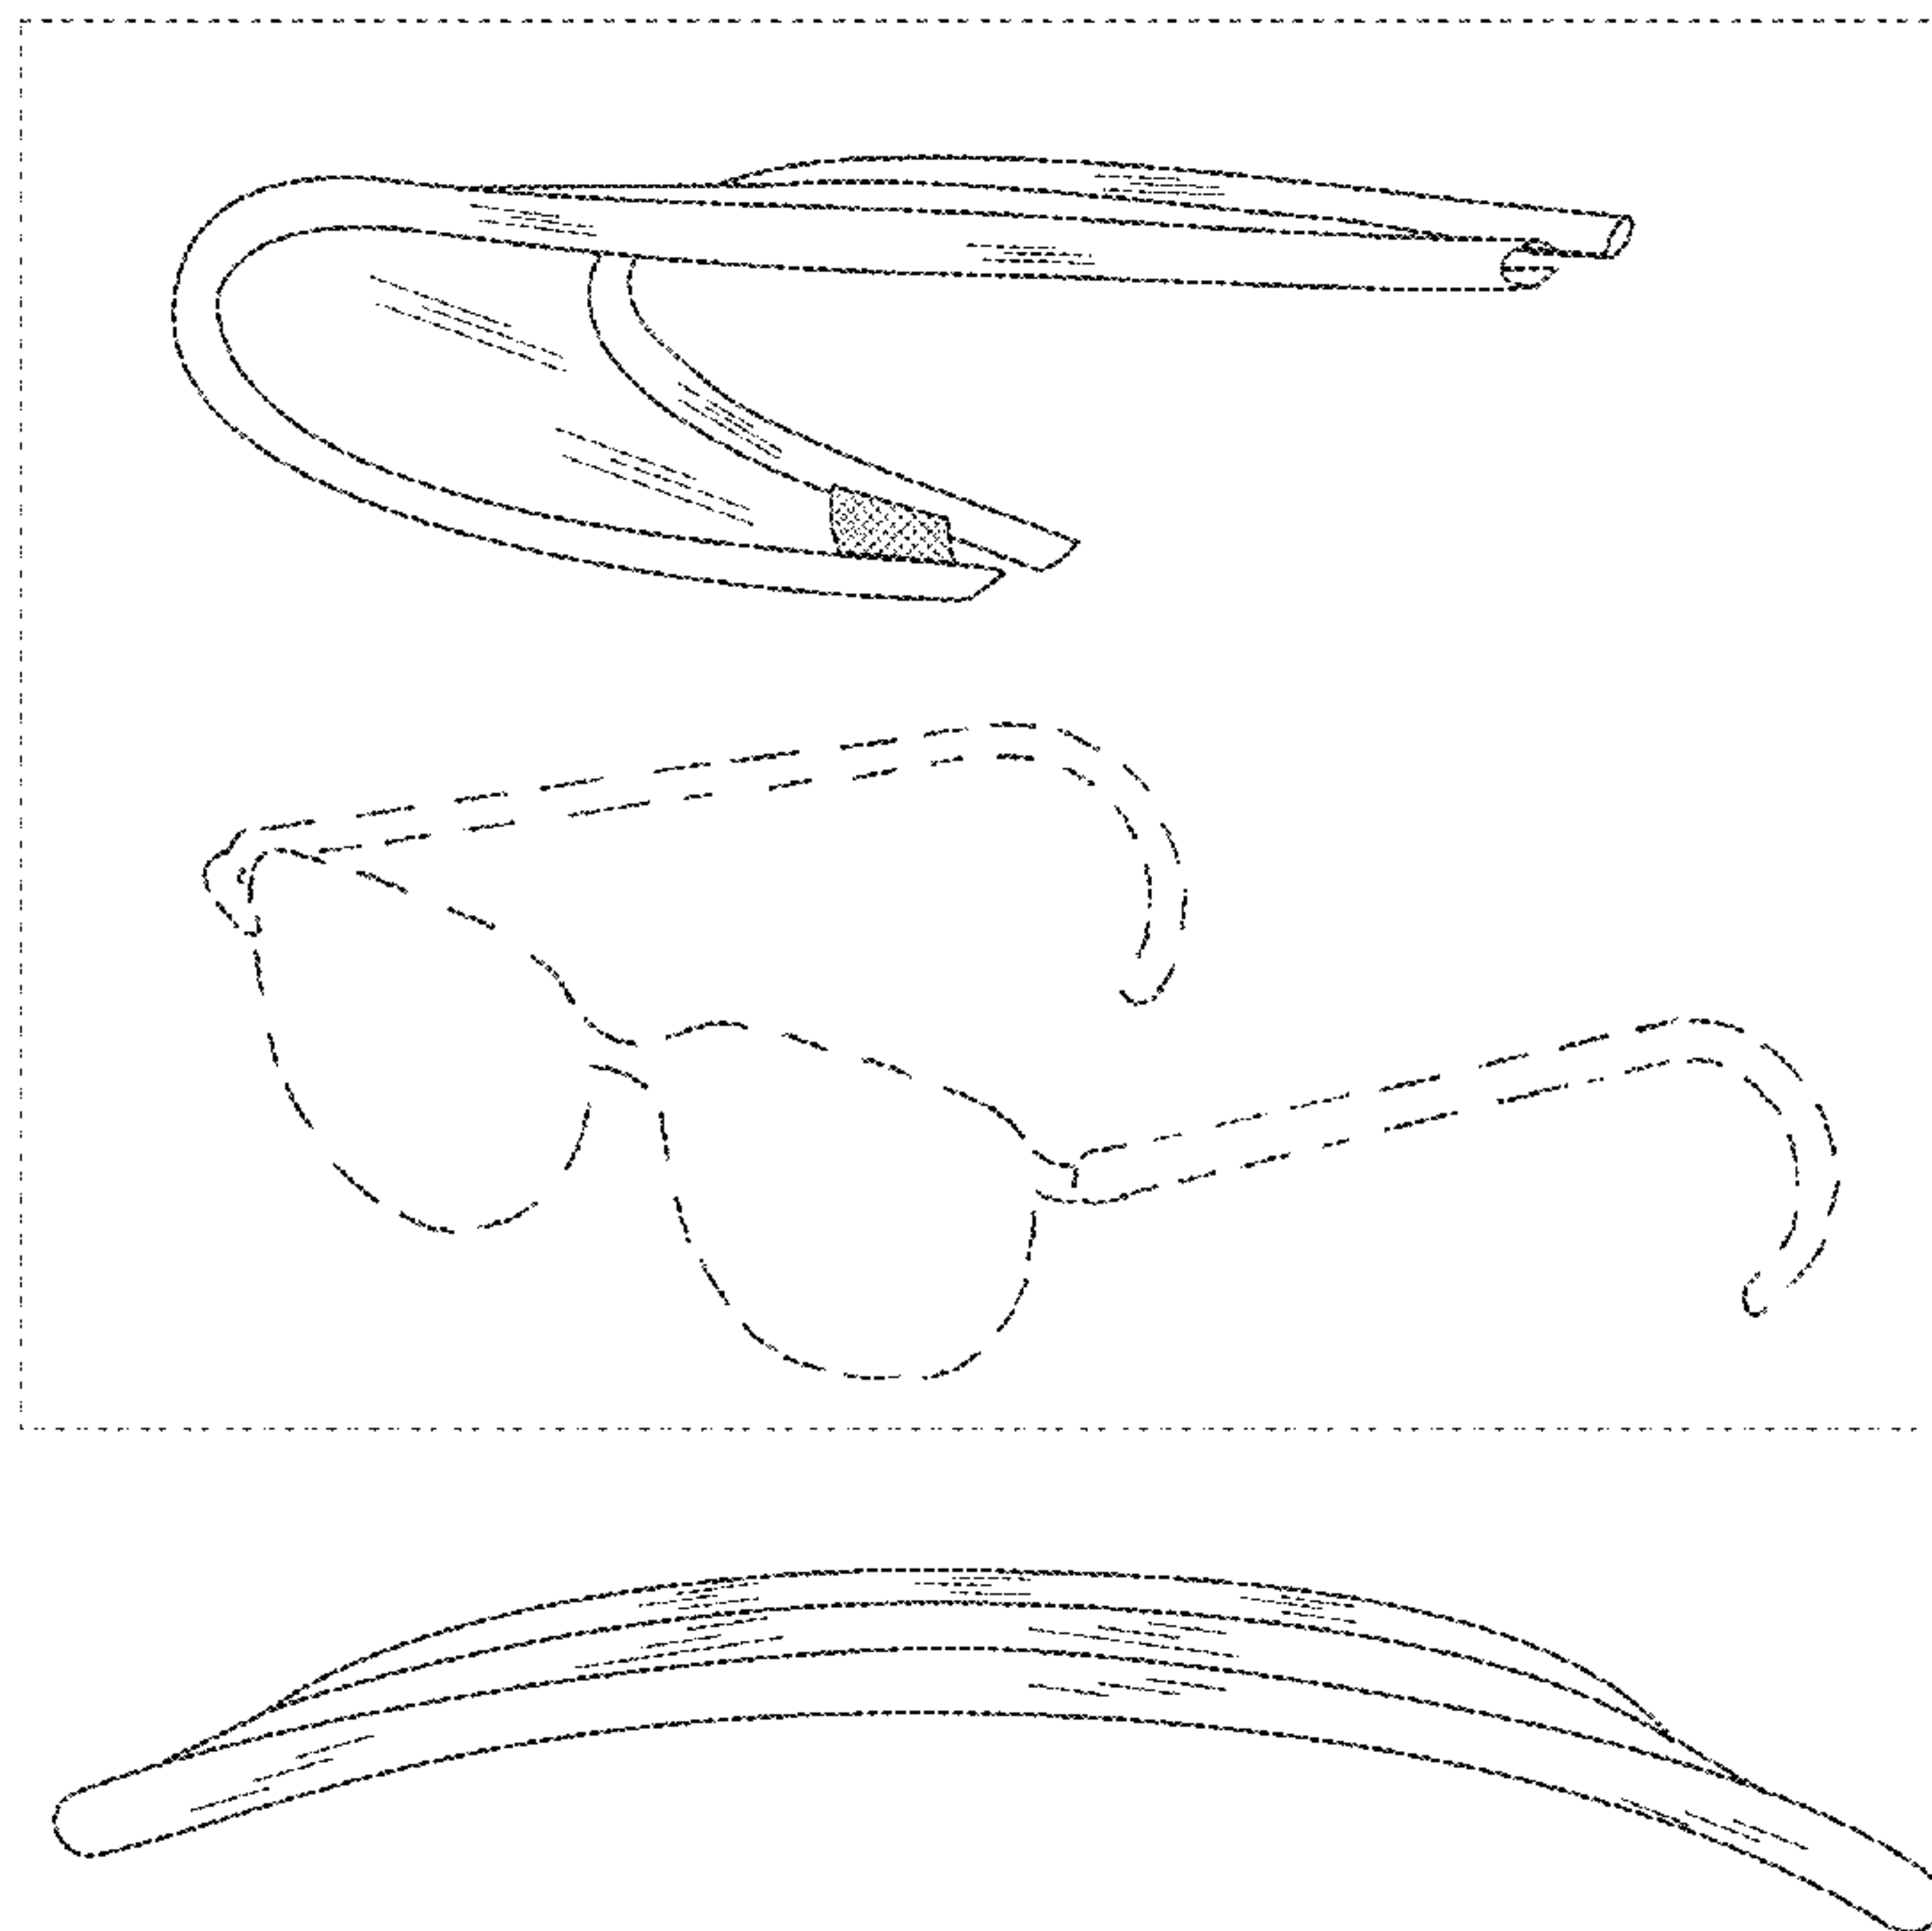

FIG. 4 is a rear elevation shown without the attachments to the eyeglass stems for clarity of illustration;

FIG. 5 is a top plan view shown without the attachments to the eyeglass stems for clarity of illustration; and,

FIG. 6 is a bottom plan view shown without the attachments to the eyeglass stems for clarity of illustration.

The broken lines in the drawings depict environmental matter only and form no part of the claimed design.
