(57) **CLAIM**

The ornamental design of a combined hair management and cutting device, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a combined hair management and cutting device having features of the present invention, with a portion of the device illustrated in phantom;

FIG. 1a is a close-up view of the portion of the combined hair management and cutting device shown in the dashed circle in FIG. 1;

FIG. 2 is a side view of the combined hair management and cutting device illustrated in FIG. 1, with a portion of the device illustrated in phantom;

FIG. 2a is a close-up view of the portion of the combined hair management and cutting device shown in the dashed oval in FIG. 2;

FIG. 3 is a top view of the combined hair management and cutting device illustrated in FIG. 1, shown in an open position, with a portion of the device illustrated in phantom;

FIG. 3a is a close-up view of the portion of the combined hair management and cutting device shown in the dashed oval in FIG. 3;

FIG. 4 is an end view of the combined hair management and cutting device illustrated in FIG. 1, taken from the right side of the device illustrated in FIG. 2, with a portion of the device illustrated in phantom;

FIG. 5 is an end view of the combined hair management and cutting device illustrated in FIG. 1, taken from the left side of the device illustrated in FIG. 2, with a portion of the device illustrated in phantom;

FIG. 6 is a cross-sectional view of a portion of the combined hair management and cutting device showing the cutting blade, taken along line 6-6 in FIG. 2a;

FIG. 7 is a top view of the combined hair management and cutting device illustrated in FIG. 1, shown in a partially closed position, with a portion of the device illustrated in phantom; and,

FIG. 8 is a top view of the combined hair management and cutting device illustrated in FIG. 1, shown in a substantially closed position, with a portion of the device illustrated in phantom.

The phantom lines illustrate the environment of the article and form no part of the claimed design.
