(57) **CLAIM**

The ornamental design for an multimedia portable electronic communication device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a multimedia portable electronic communication device showing our new design; FIG. 2 is a front view of the multimedia portable electronic communication device of FIG. 1; FIG. 3 is a rear view of the multimedia portable electronic communication device of FIG. 1; FIG. 4 is a left-side view of the multimedia portable electronic communication device of FIG. 1; FIG. 5 is a right-side view of the multimedia portable electronic communication device of FIG. 1; FIG. 6 is a top plan view of the multimedia portable electronic communication device of FIG. 1; FIG. 7 is a bottom plan view of the multimedia portable electronic communication device of FIG. 1; and, FIG. 8 is a rear perspective view of the multimedia portable electronic communication device of FIG. 1.

The oblique lines shading in the Figures indicate reflective surfaces. The dash-dot-dash broken line immediately adjacent the solid-line portions of the design represents an unclaimed boundary of the design. All of the evenly spaced broken lines show portions of the multimedia portable electronic communication device that form no part of the claimed design. All of the broken lines throughout the views form no part of the claimed design.
