(57) **CLAIM**

The ornamental design for a digital camera display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a rear view of a digital camera display screen with animated graphical user interface showing my new design; FIG. 2 is an enlarged view of a first state of the display screen image;

FIG. 3 is an enlarged view of a second state of the display screen image; and, FIG. 4 is an enlarged view of a third state of the display screen image.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 2-4. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken line showing of a digital camera of FIG. 1 illustrates environmental structure and forms no part of the claimed design.

The digital camera display screen of FIG. 1 is applied for a brightness setting function. The display screen image is applied for setting a brightness value.
