(57) **CLAIM**
The ornamental design for a double notched catheter securement device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the catheter securement device with release layer, shown in an open position.
 FIG. 2 is a top view of the catheter securement device with release layer.
 FIG. 3 is a bottom view of the catheter securement device with release layer.
 FIG. 4 is a right side view of the catheter securement device with release layer.
 FIG. 5 is a left side view of the catheter securement device with release layer.
 FIG. 6 is a rear view of the catheter securement device with release layer.
 FIG. 7 is a front view of the catheter securement device with release layer.
 FIG. 8 is a top view of the catheter securement device with the release layer removed.
 FIG. 9 is a bottom view of the catheter securement device with the release layer removed.
 FIG. 10 is a right side view of the catheter securement device with the release layer removed.
 FIG. 11 is a left side view of the catheter securement device with the release layer removed.
 FIG. 12 is a rear view of the catheter securement device with the release layer removed; and,
 FIG. 13 is a front view of the catheter securement device with the release layer removed.
