(57) **CLAIM**

The ornamental design for a temporomandibular joint correction apparatus, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a temporomandibular joint correction apparatus showing our new design;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a rear elevational view thereof;
FIG. 4 is a left side elevational view thereof;
FIG. 5 is a right side elevational view thereof;
FIG. 6 is a top plan view thereof; and,
FIG. 7 is a bottom plan view thereof.

The broken lines are included for the purpose of illustrating portion of the temporomandibular joint correction apparatus that forms no part of the claimed design.

The article is made of synthetic resins such as silicone. The present design is used for correcting unbalance of temporomandibular joint in mouth. The gist of the creation of the present design is a combination of the shape and form of “a temporomandibular joint correction apparatus”.
