**CLAIM**

The ornamental design for a LED based light bulb, as shown and described.

**DESCRIPTION**

FIG. 1 is a side plan view of a LED based light bulb of a first embodiment;

FIG. 2 is a side plan view of the design of FIG. 1 rotated 30° respective to the side plan view of FIG. 1;

FIG. 3 is a top plan view of the design of FIG. 1;

FIG. 4 is a bottom plan view of the design of FIG. 1;

FIG. 5 is a perspective view of the design of FIG. 1;

FIG. 6 is a side plan view of a LED based light bulb of a second embodiment;

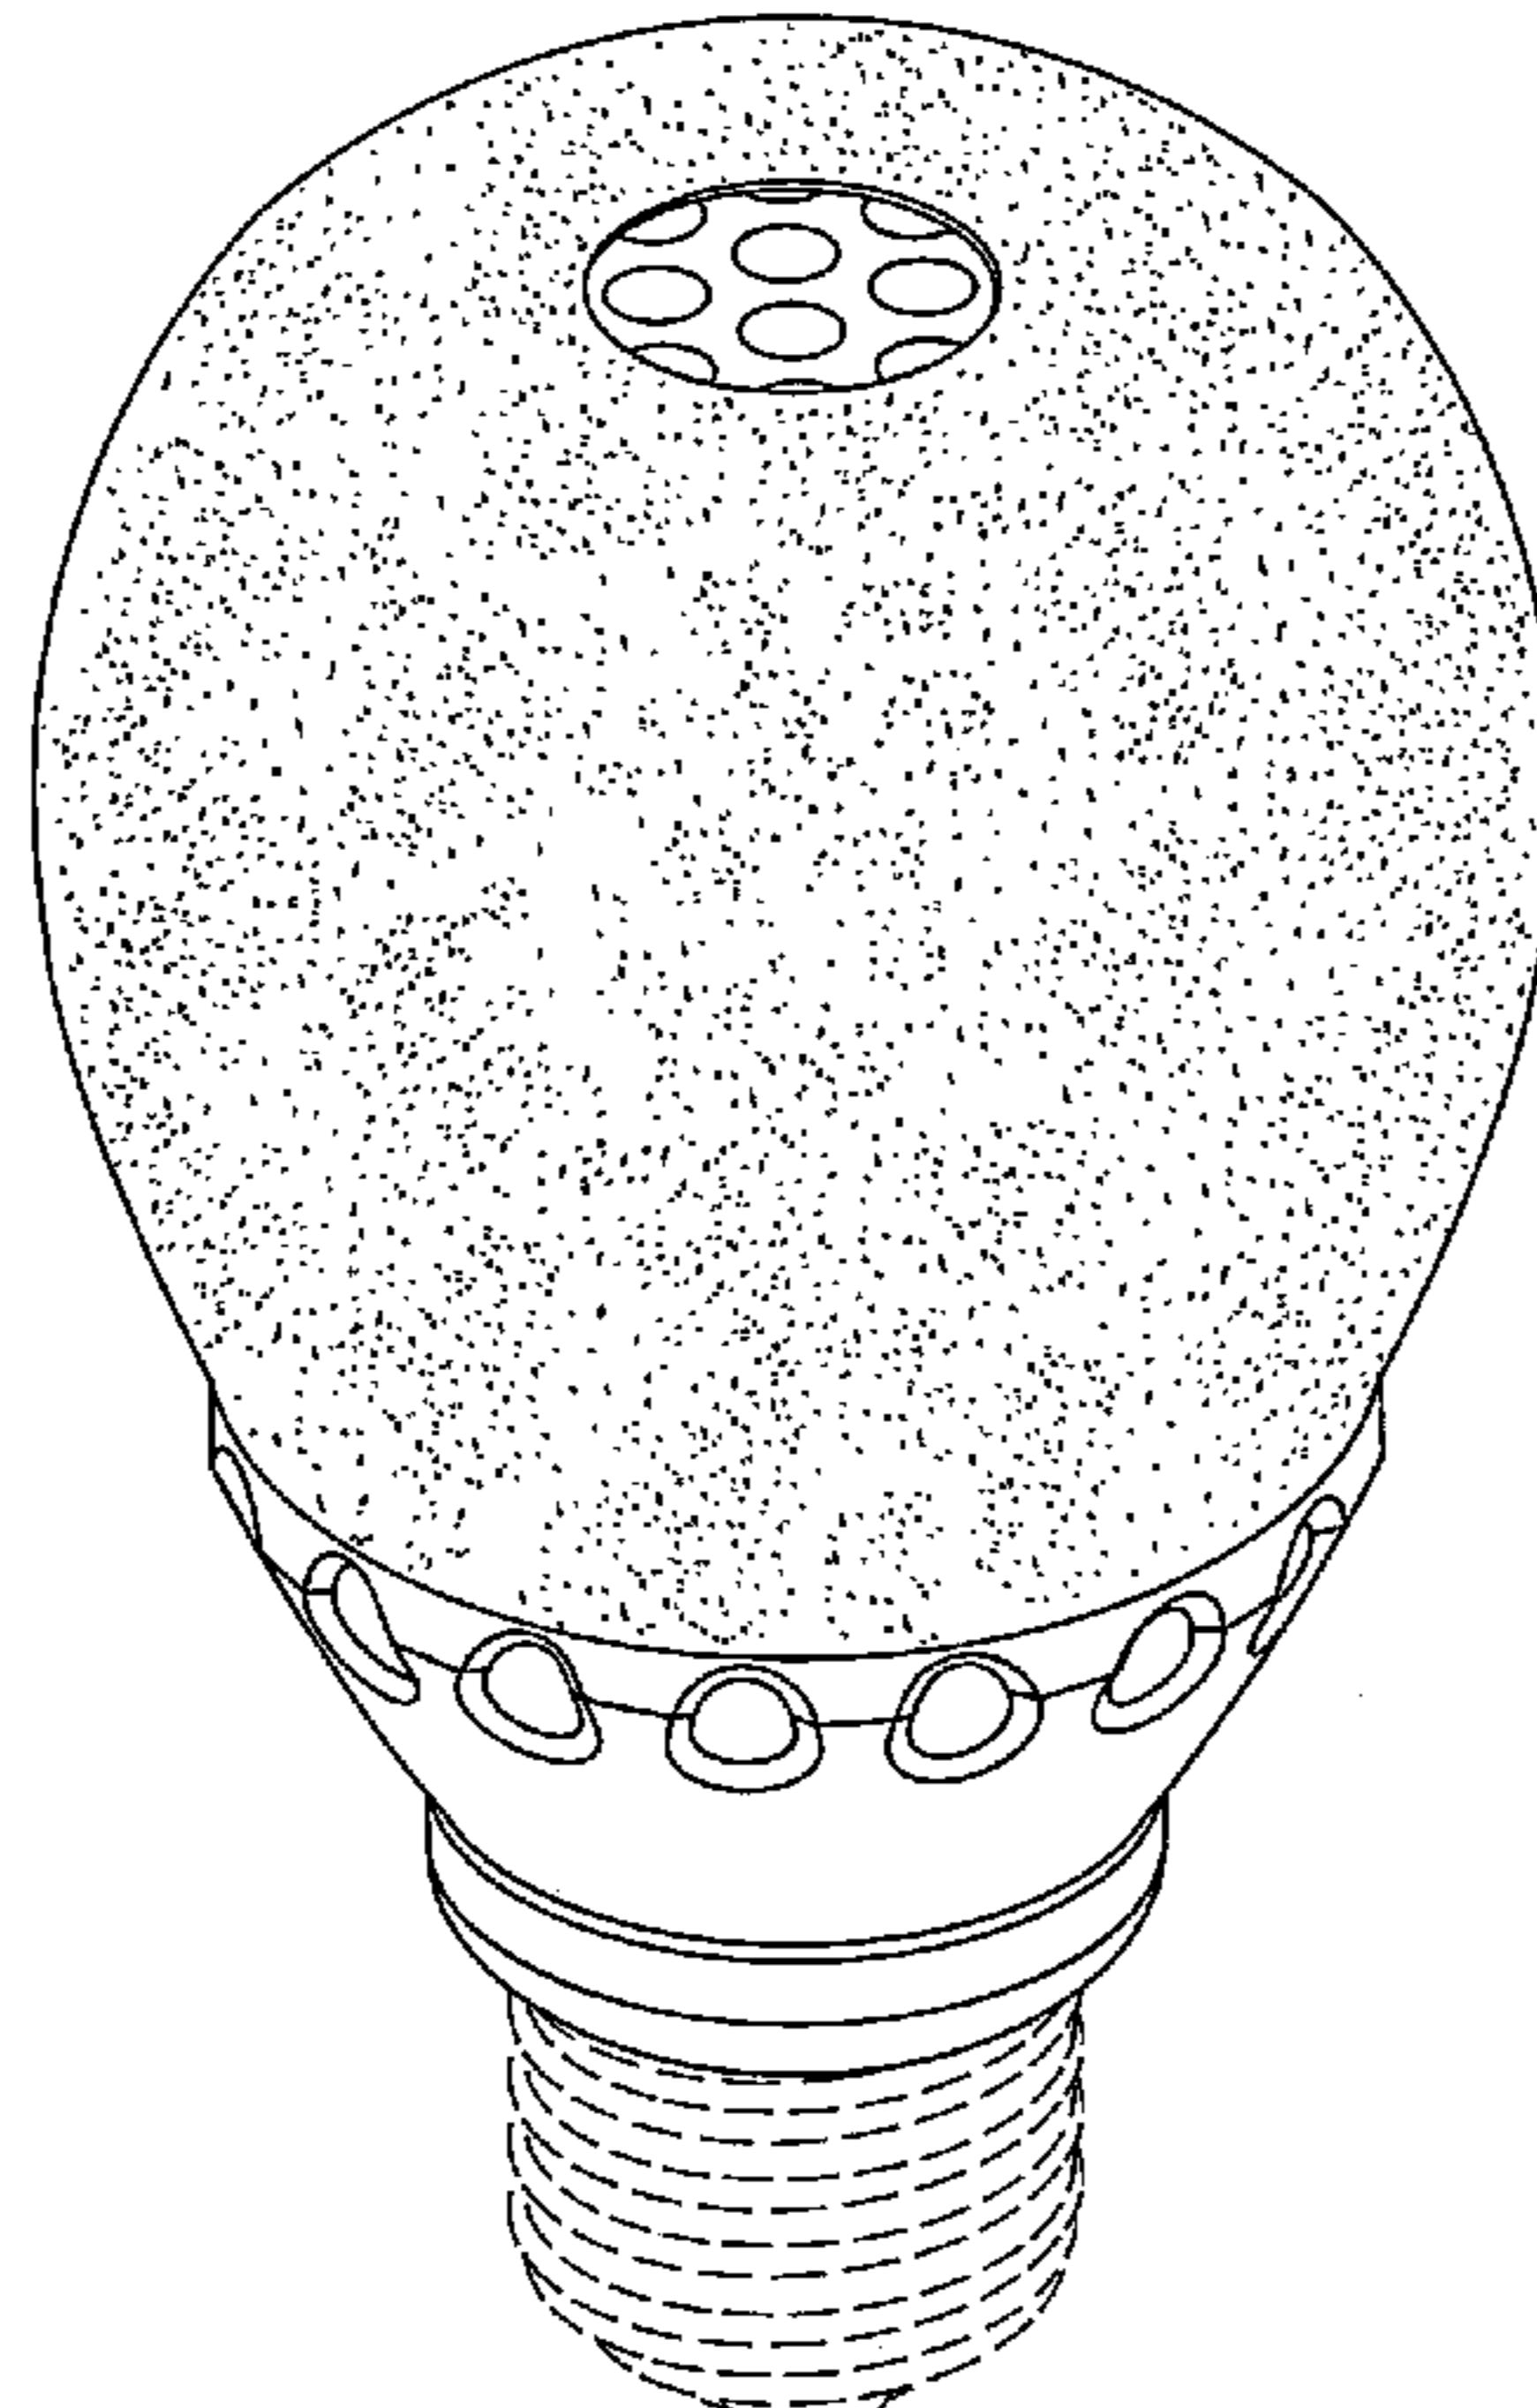

FIG. 7 is a side plan view of the design of FIG. 6 rotated 30° respective to the side plan view of FIG. 6;

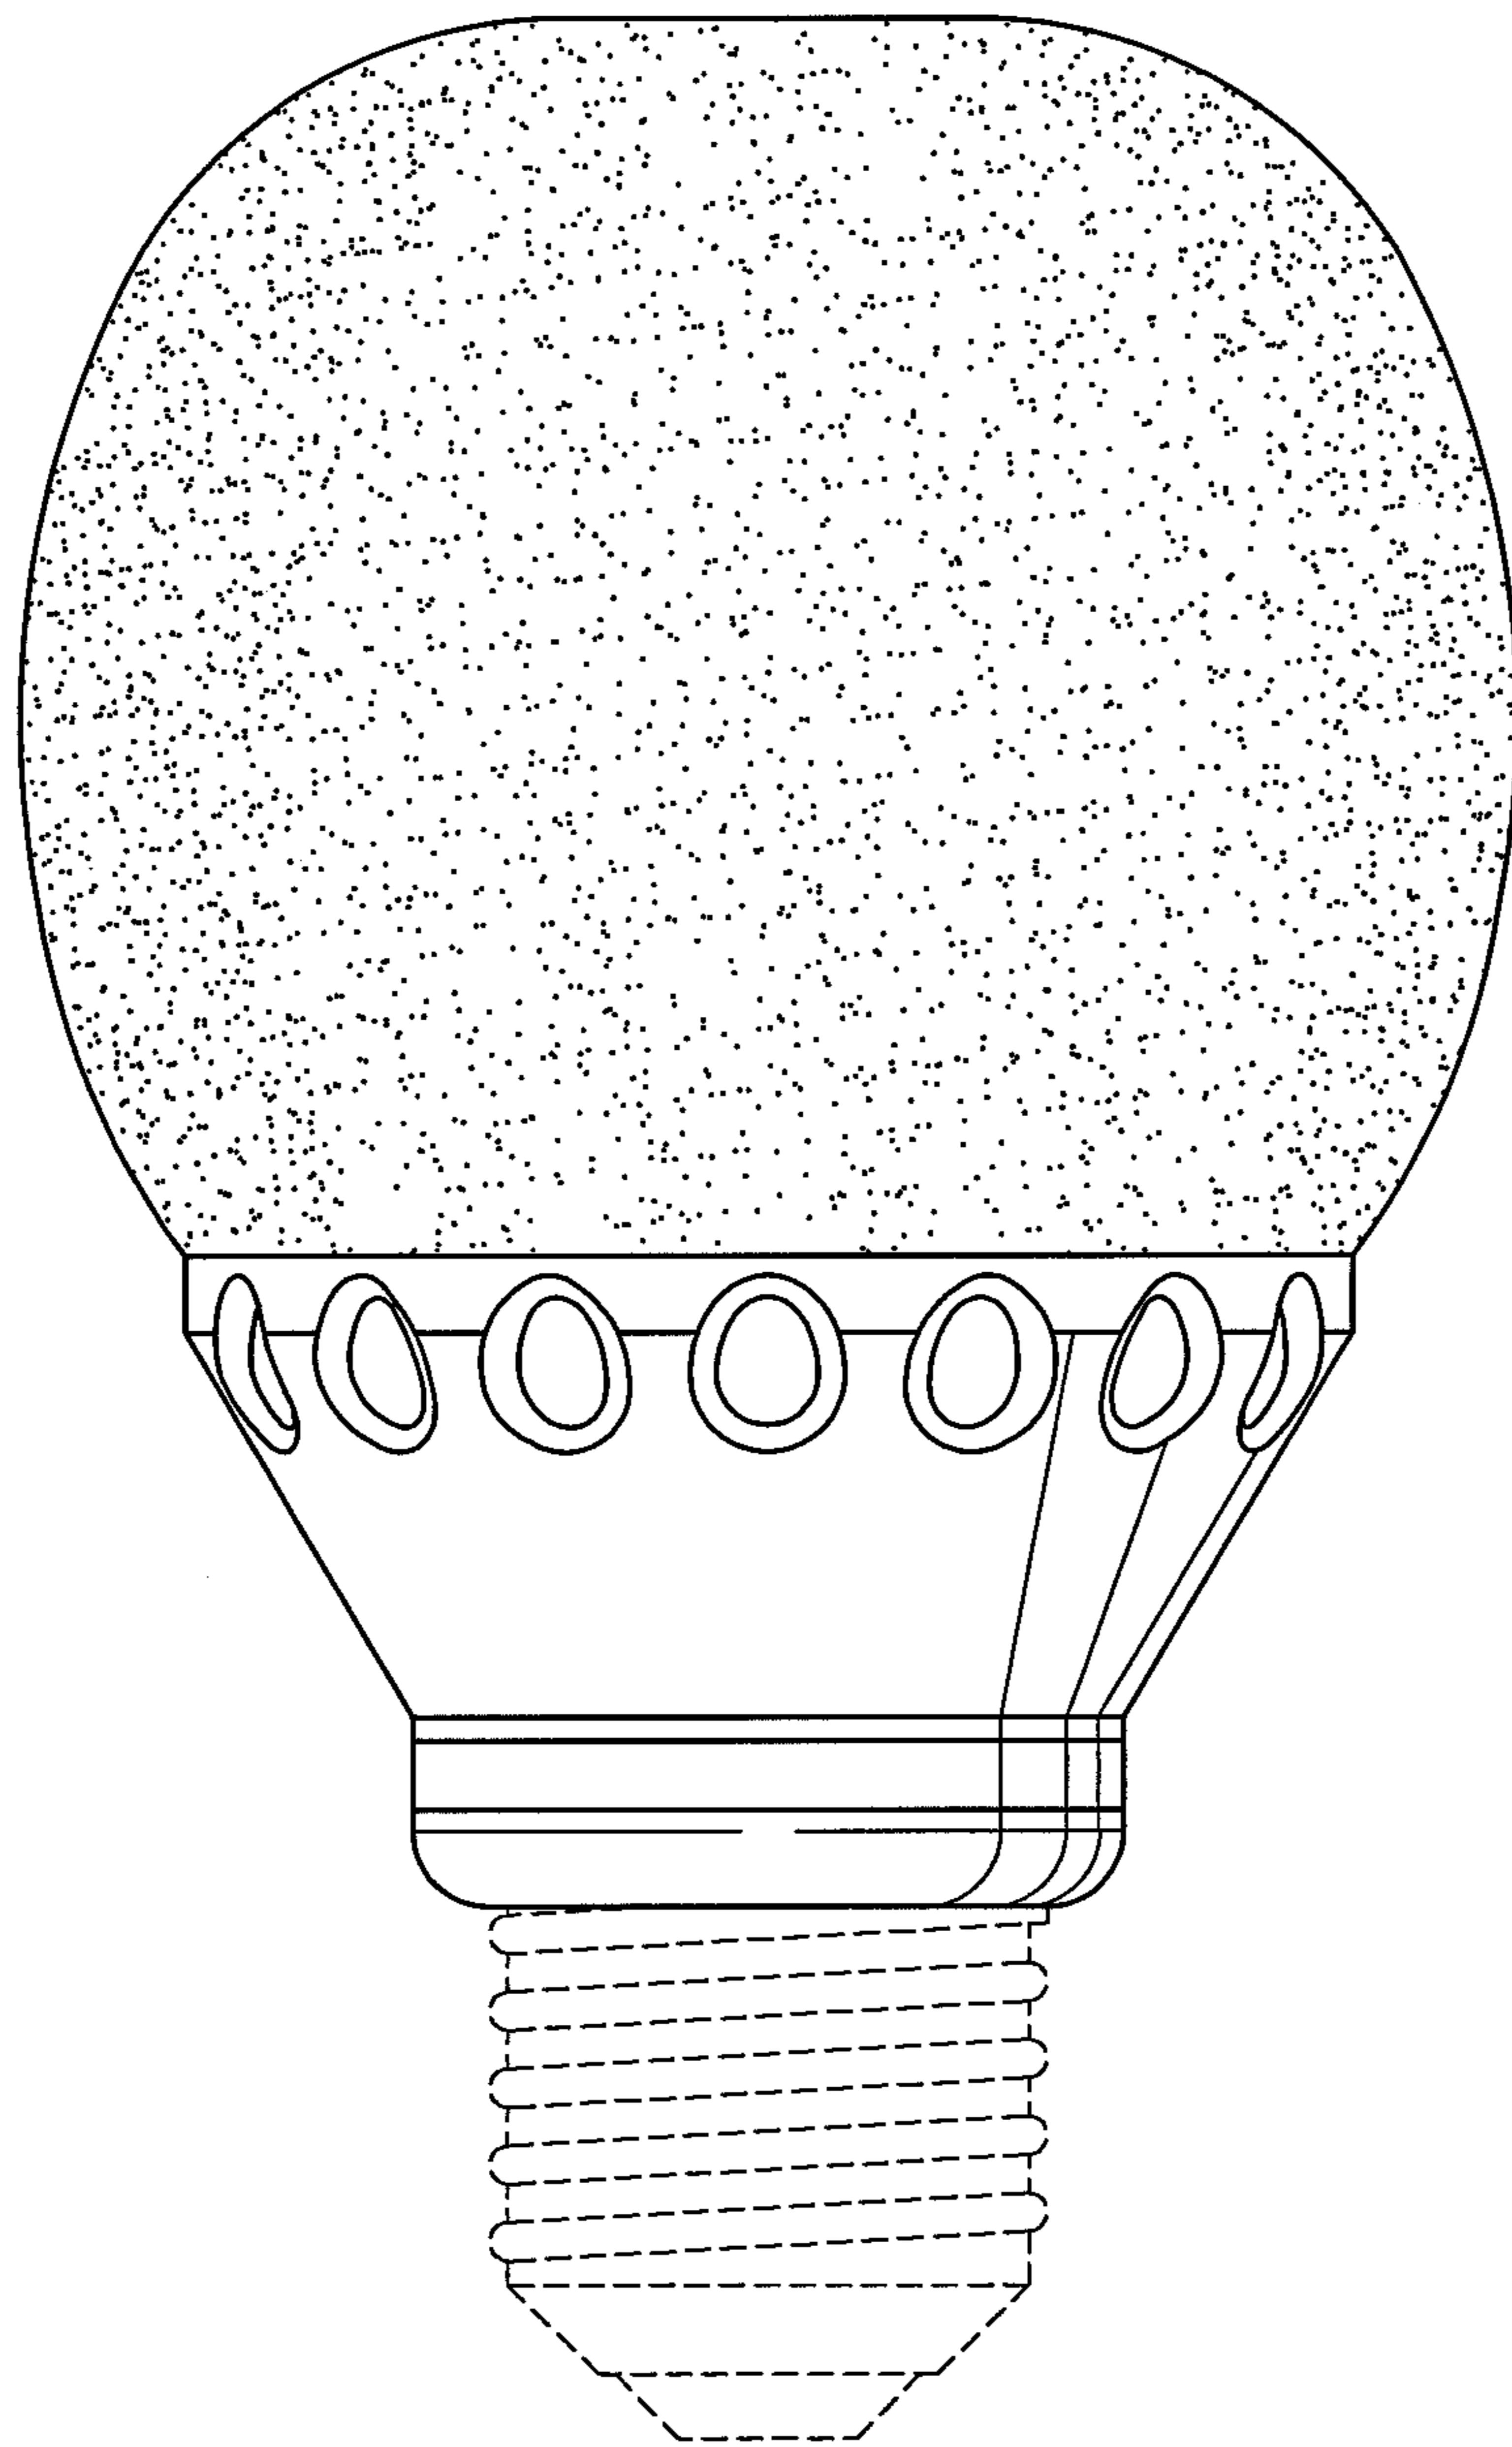

FIG. 8 is a top plan view of the design of FIG. 6;

FIG. 9 is a bottom plan view of the design of FIG. 6; and,

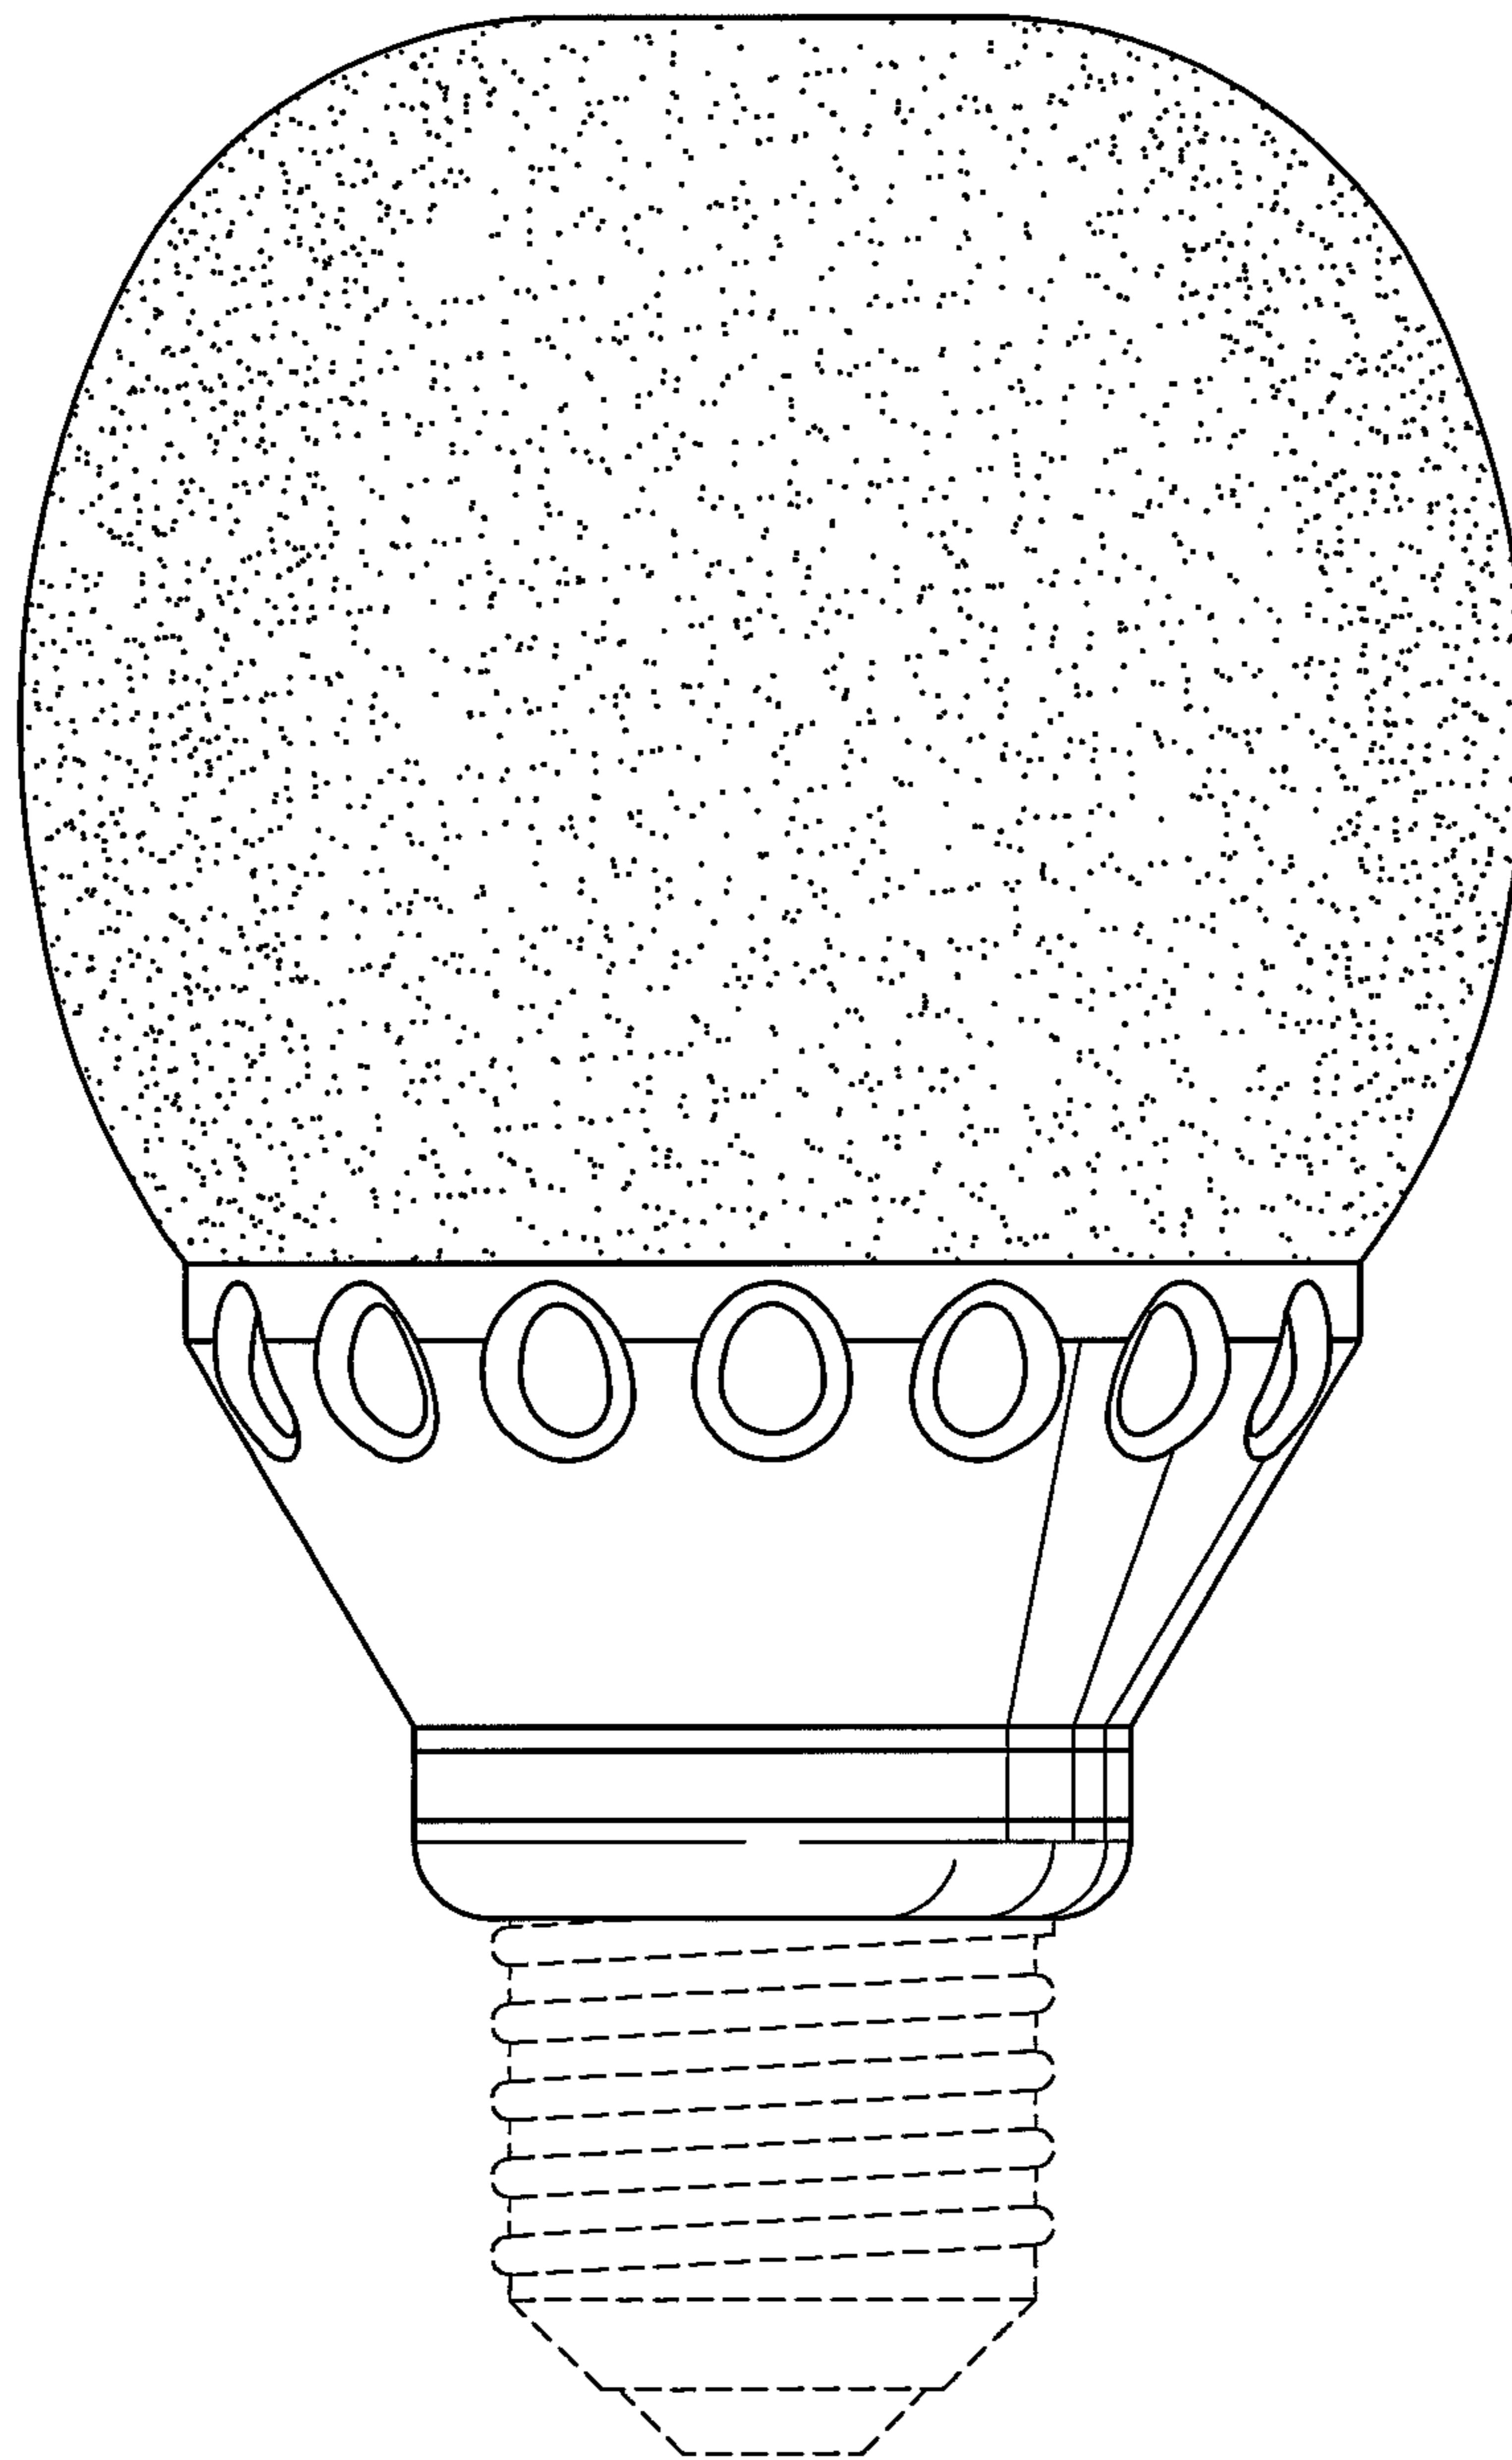

FIG. 10 is a perspective view of the design of FIG. 6.

Any broken line illustrations in the drawings are not part of the design sought to be patented. Speckling indicates frosted glass or another translucent light diffusive surface, and a relatively higher density of speckling indicates the surface has relatively higher light diffusiveness (i.e., relatively reduced visibility through the surface).

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

On the Title Page, in Item (57), under “CLAIM”, in Column 2, Line 1, delete “LED based” and insert  
-- light emitting diode (LED) based --, therefor.

Signed and Sealed this  
Twenty-seventh Day of October, 2015

Michelle K. Lee
