(57) **CLAIM**

The ornamental design for the earring fastener, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of an earring fastener, showing our new design,

FIG. 2 is a front view of the earring fastener of FIG. 1,

FIG. 3 is a rear view of the earring fastener of FIG. 1,

FIG. 4 is a left side view of the earring fastener of FIG. 1,

FIG. 5 is a right side view of the earring fastener of FIG. 1.

FIG. 6 is a plan view of the earring fastener of FIG. 1,

FIG. 7 is a bottom view of the earring fastener of FIG. 1 and

FIG. 8 is reference drawing providing a cross-sectional view of the earring fastener of FIG. 1; and,

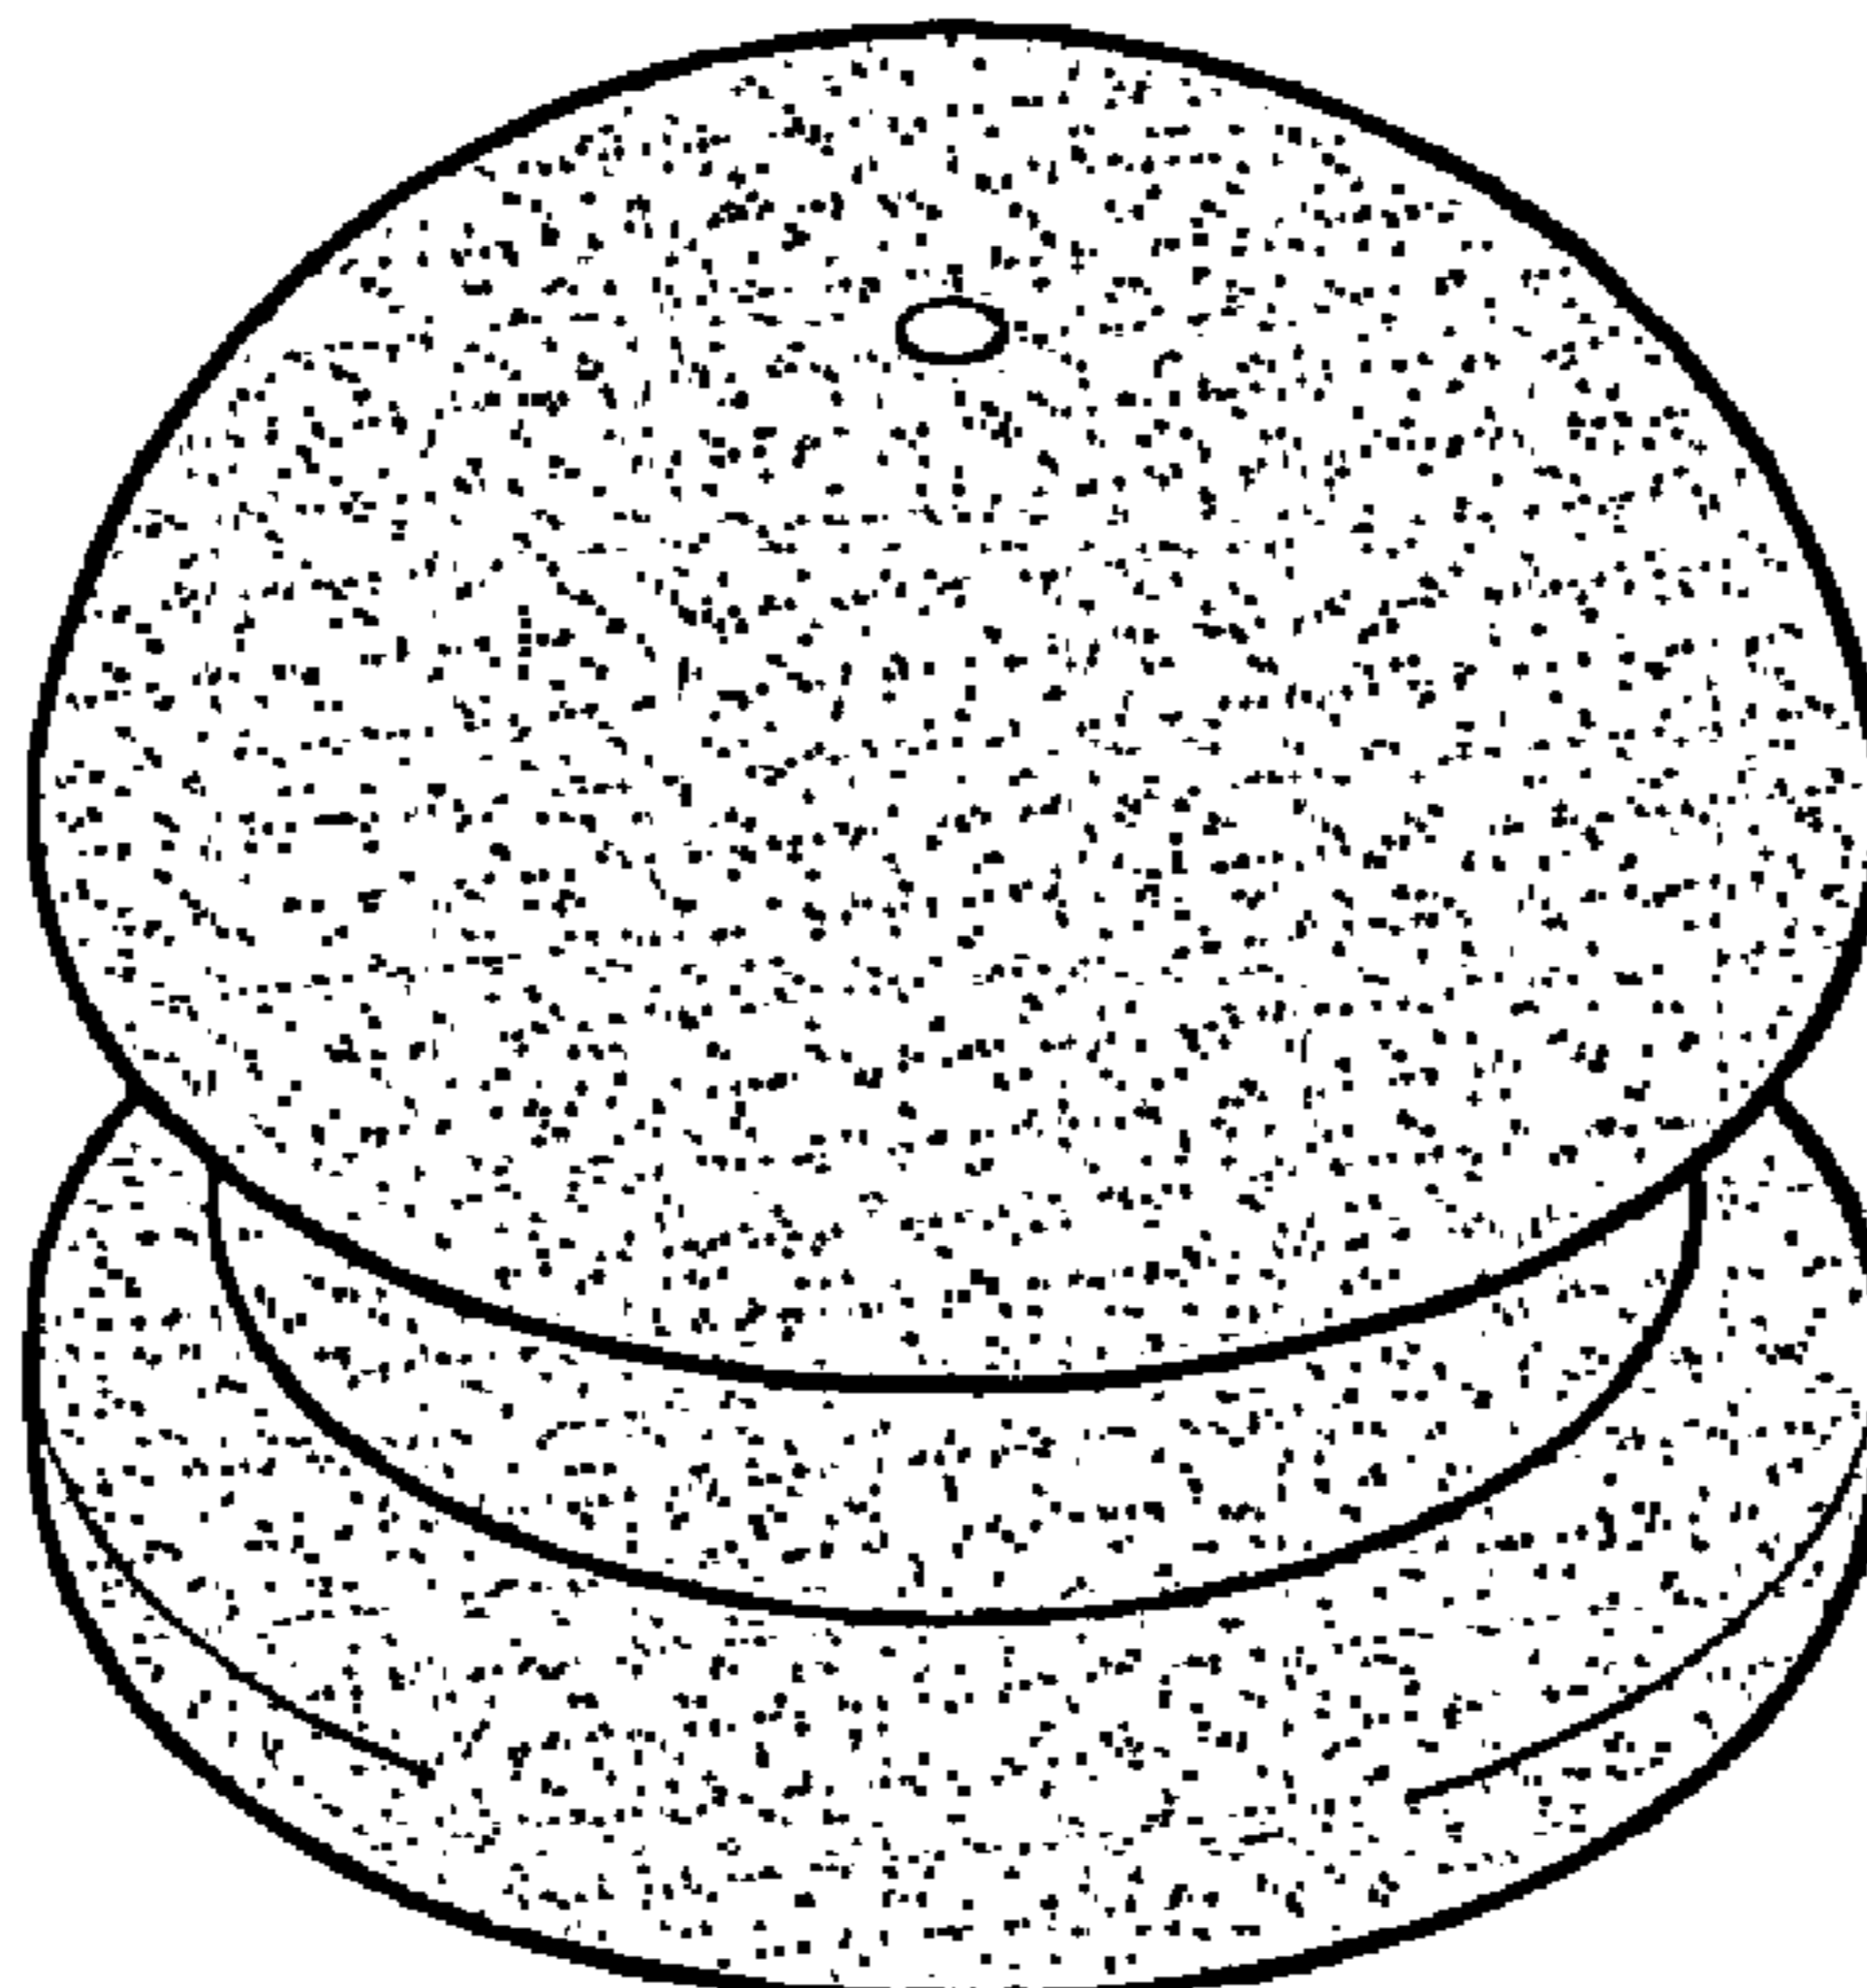

FIG. 9 is a reference view showing use of the earring fastener of FIG. 1. The broken line showing of a woman's head is for the purpose of illustrating use of the earring fastener and forms no part of the claimed design.

The object of the design is made of metal and silicone.

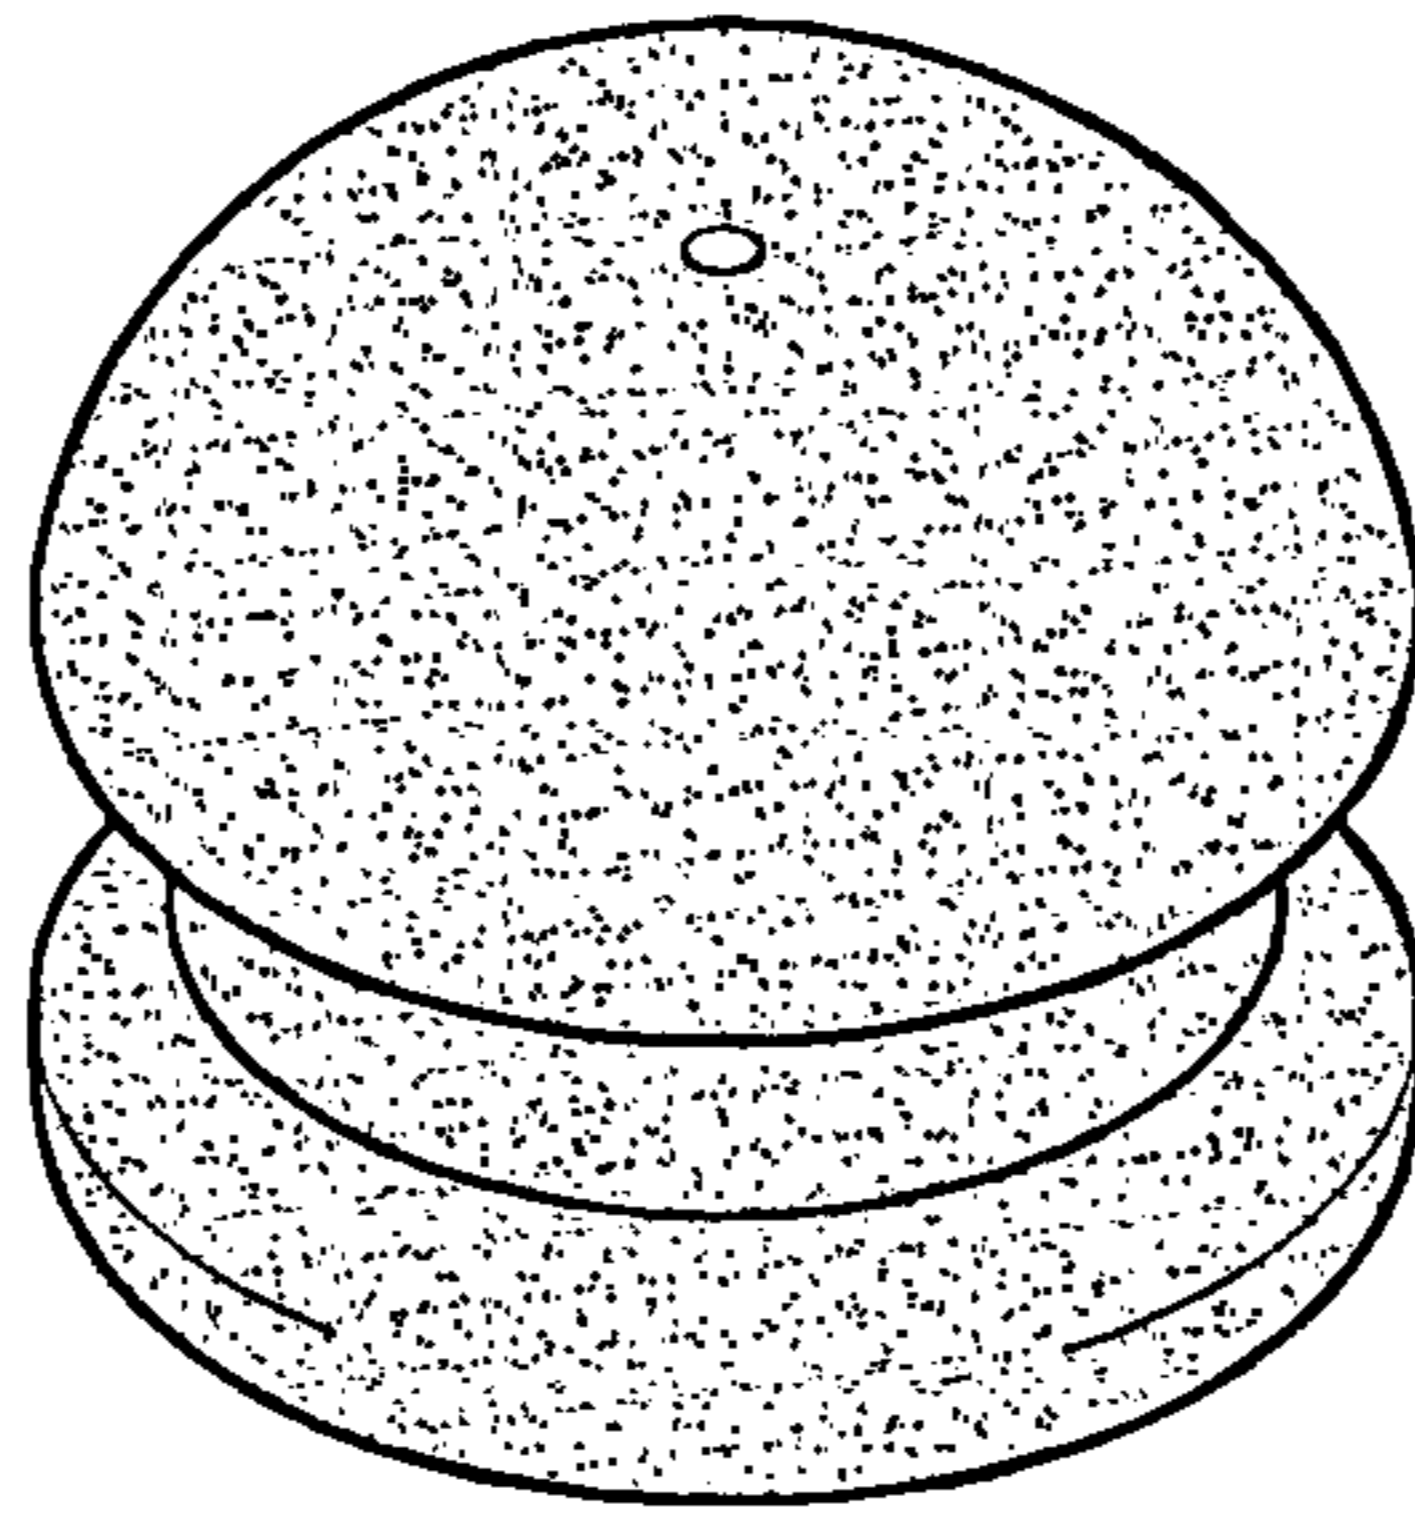

The object of the design is used to fasten an earring to an ear. The object is fastened to an ear by inserting an earring pin into a hole at the bottom of the object, as shown in FIG. 9. As shown in FIG. 8, the metal parts for fixation are mounted inside the silicone material.

No claim is made to the dashed lines, dashed image, or text. Said dashed lines, dashed image, and text are being presented only for the environmental purposes.
