(57) **CLAIM**

The ornamental design for a magnetic sign, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in colour. Copies of this patent or patent application publication with colour drawing(s) will be provided by the Office upon request and payment of the necessary fee. The FIGURE is a front elevation view for a magnetic sign as showing my new design. The claimed magnetic sign is used to warn drivers that the user is driving his vehicle using a space saver tyre and therefore his speed is restricted to 50 miles per hour. The magnetic sign is placed on the rear of the vehicle to warn approaching drivers, in particular truck drivers of the vehicle speed.
