(57) **CLAIM**

I claim the ornamental design for a threaded beaker top, as shown and described.

DESCRIPTION

FIG. 1 is a left side elevational view of the threaded beaker top showing the invention separated from an exemplary beaker, the right side view would be a mirror image thereof;

FIG. 2 is a front elevational view of the threaded beaker top of the invention separated from the exemplary beaker, the rear view would be a mirror image thereof;

FIG. 3 is a top perspective view of the threaded beaker top of the invention separated from the exemplary beaker;

FIG. 4 is a left side elevational view of the threaded beaker top of the invention assembled on the exemplary beaker, the right side view would be a mirror image thereof;

FIG. 5 is a top perspective view of the threaded beaker top of the invention assembled on the exemplary beaker;

FIG. 6 is a bottom perspective view of the threaded beaker top of the invention assembled on the exemplary beaker;

FIG. 7 is a bottom plan view of the threaded beaker top of the invention assembled on the exemplary beaker;

FIG. 8 is a top plan view of the threaded beaker top of the invention;

FIG. 9 is a bottom plan view of the threaded beaker top of the invention;

FIG. 10 is a left side elevation view of the threaded beaker top of the invention, the right side view would be a mirror image thereof;

FIG. 11 is a top perspective view of the threaded beaker top of the invention; and,

FIG. 12 is a bottom perspective view of the threaded beaker top of the invention.

The broken lines defining the exemplary beaker are shown for illustrative purposes only and form no part of the claimed design.
