(57) **CLAIM**

The ornamental design for a self-powered robotic lawn mower, as shown and described.

DESCRIPTION

FIG. 1 is a left side elevation view of the self-powered robotic lawn mower showing our new design.
FIG. 2 is a front elevation view.
FIG. 3 is a perspective view.
FIG. 4 is a plan view; and,
FIG. 5 is a rear elevation view.
The right side elevation view is a mirror image of the left side. The shading lines shown in the drawings illustrate the three-dimensional shape of the self-powered robotic lawn mower. The article is a self-driving, self-directed robotic lawn mower that does not require human direction or power.
