(57) **CLAIM**

The ornamental design for a women's undergarment top, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a women's undergarment top showing my new design

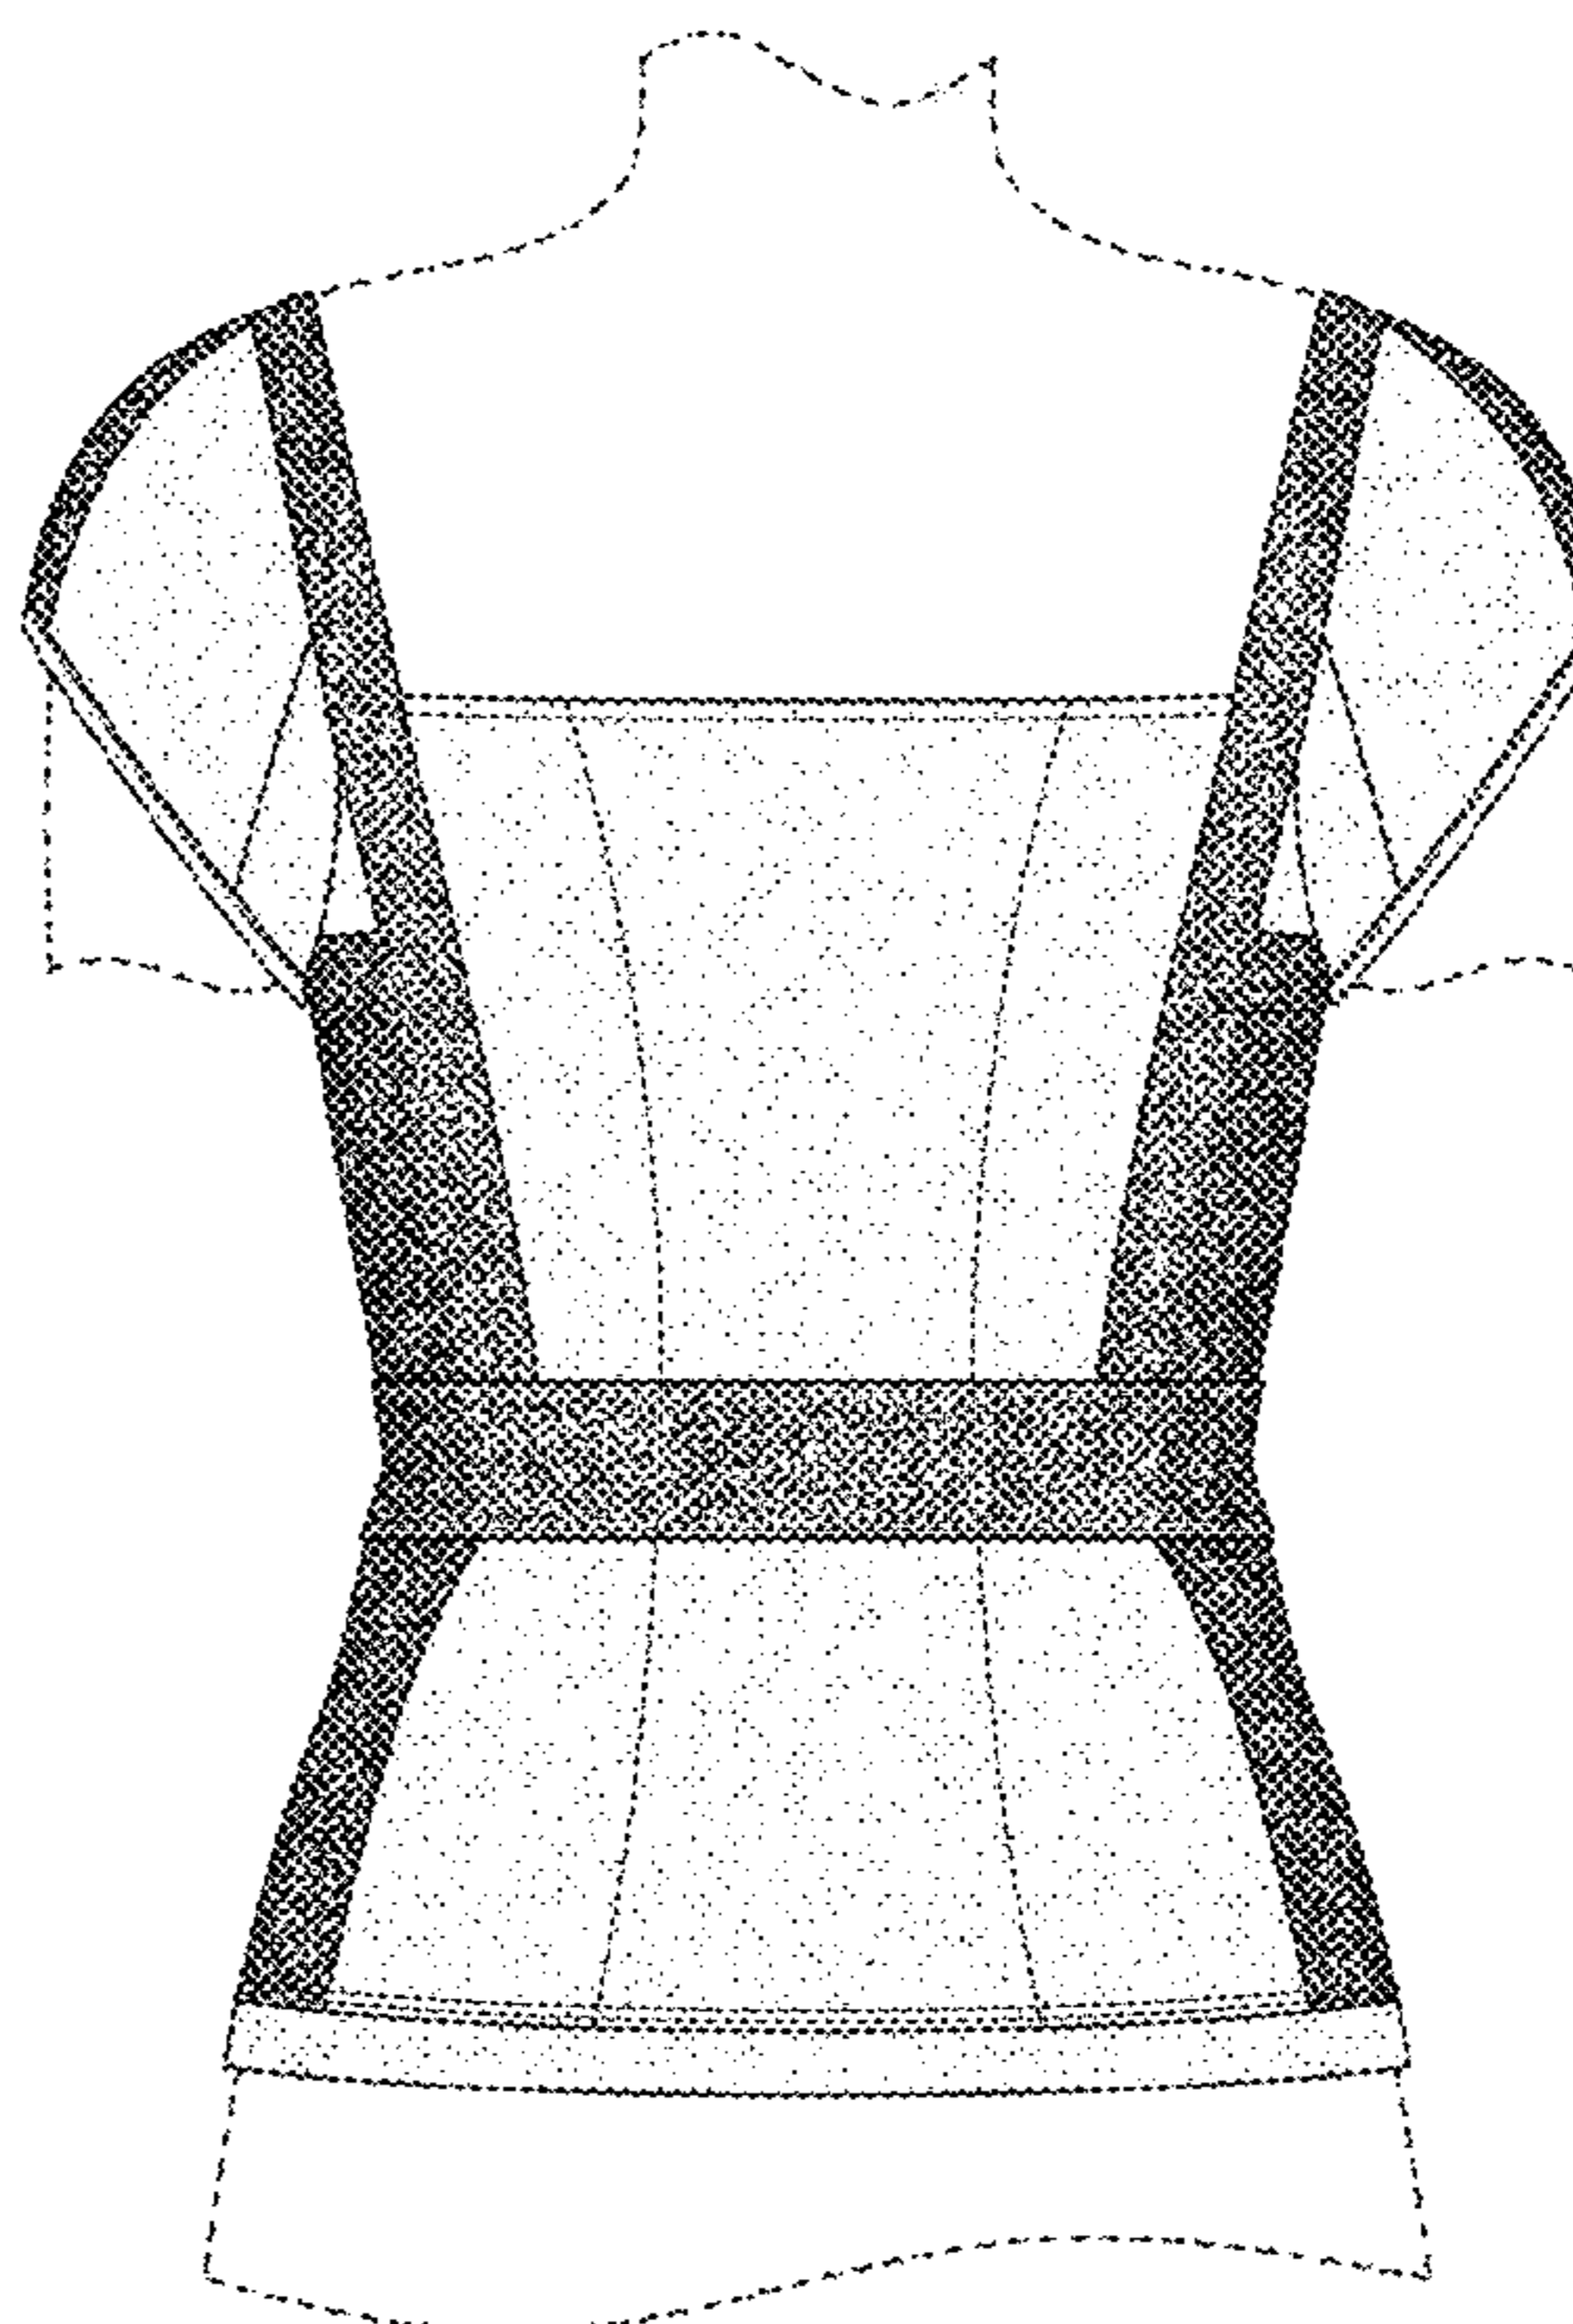

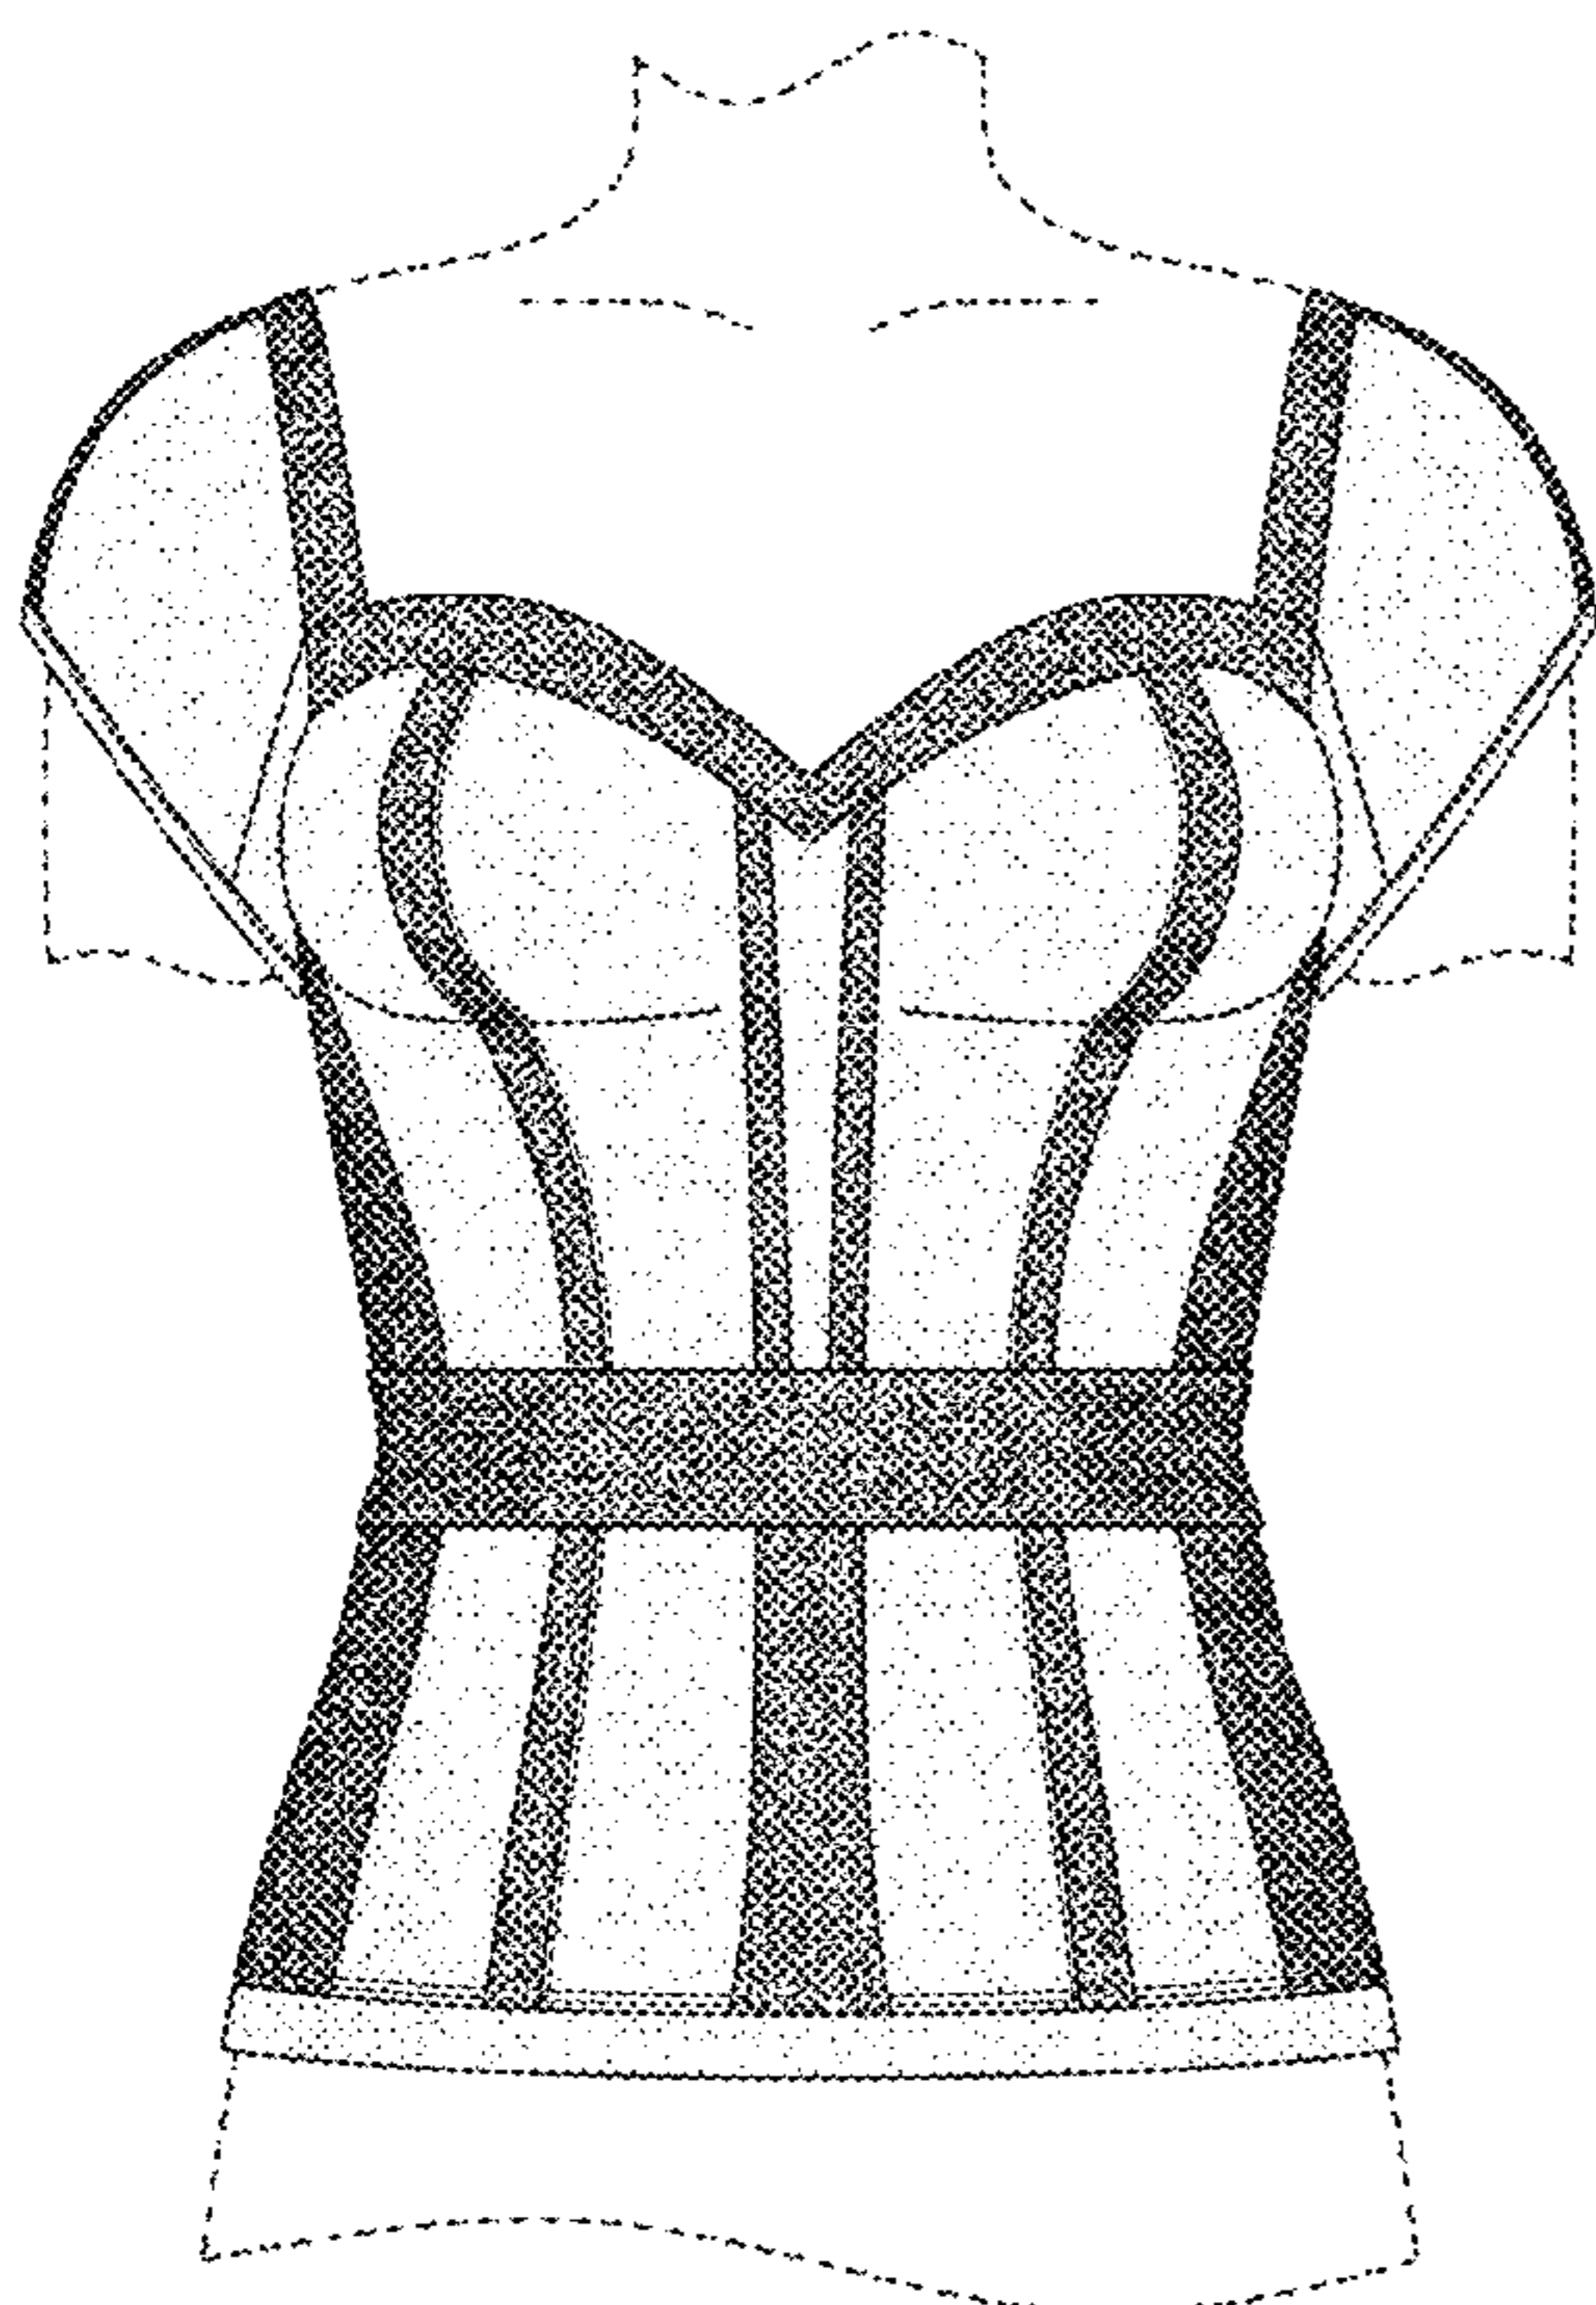

FIG. 2 is a rear elevational view thereof; and,

FIG. 3 is a side elevational view thereof.

The broken lines showing the partial human figure illustrate environmental subject matter included to assist in showing how the claimed design appears when being worn and form no part of the claimed design. The finer incremented broken lines shown on the women's undergarment top are stitch lines and form a part of the claimed design.

My new design for a women's undergarment top is characterized by combining alternating fabric segments in an ornamental shape, pattern and configuration as shown.
