FIG. 1 is a front, top and right side perspective view of a phone case with money clip and card slot, showing my new design; FIG. 2 is a front view thereof; FIG. 3 is a back view thereof; FIG. 4 is a top end view thereof; FIG. 5 is a bottom end view thereof; FIG. 6 is a left side view thereof; and, FIG. 7 is a right side view thereof.

The broken lines indicate unclaimed features of the article and form no part of the claimed design. The dot-dash lines indicate boundaries between claimed portions and unclaimed portions of the design. Unclaimed portions are not shaded. Stippled shading indicates a textured surface, and straight line shading indicates a smooth surface.

The article in which the claimed design is embodied is a phone case with money clip and card slot intended for use as a protective case for holding a mobile device such as a phone, combined with a clip for holding papers, such as money, and one or more slots for holding cards. Environmentally but not claimed, a cell phone is shown being held in the phone case with money clip and card slot which has openings and cutouts of unclaimed size and position which are intended to allow operation of the mobile device being held.
