**CLAIM**

(57) The ornamental design for a mobile communication device display with graphical user interface comprising security and privacy advisor screens, as shown and described.

**DESCRIPTION**

A portion of the disclosure of this patent document contains material which is subject to copyright and trademark protection. The copyright and trademark owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the U.S. Patent and Trademark Office patent file or records, but otherwise reserves all copyright and trademark rights whatsoever.

FIG. 1 is a front view of the first state in the sequence of a mobile communication device display with graphical user interface comprising security and privacy advisor screens.

FIG. 2 is a front view of the second state thereof.

FIG. 3 is a front view of the third state thereof; and,

FIG. 4 is a front view of the fourth state thereof.

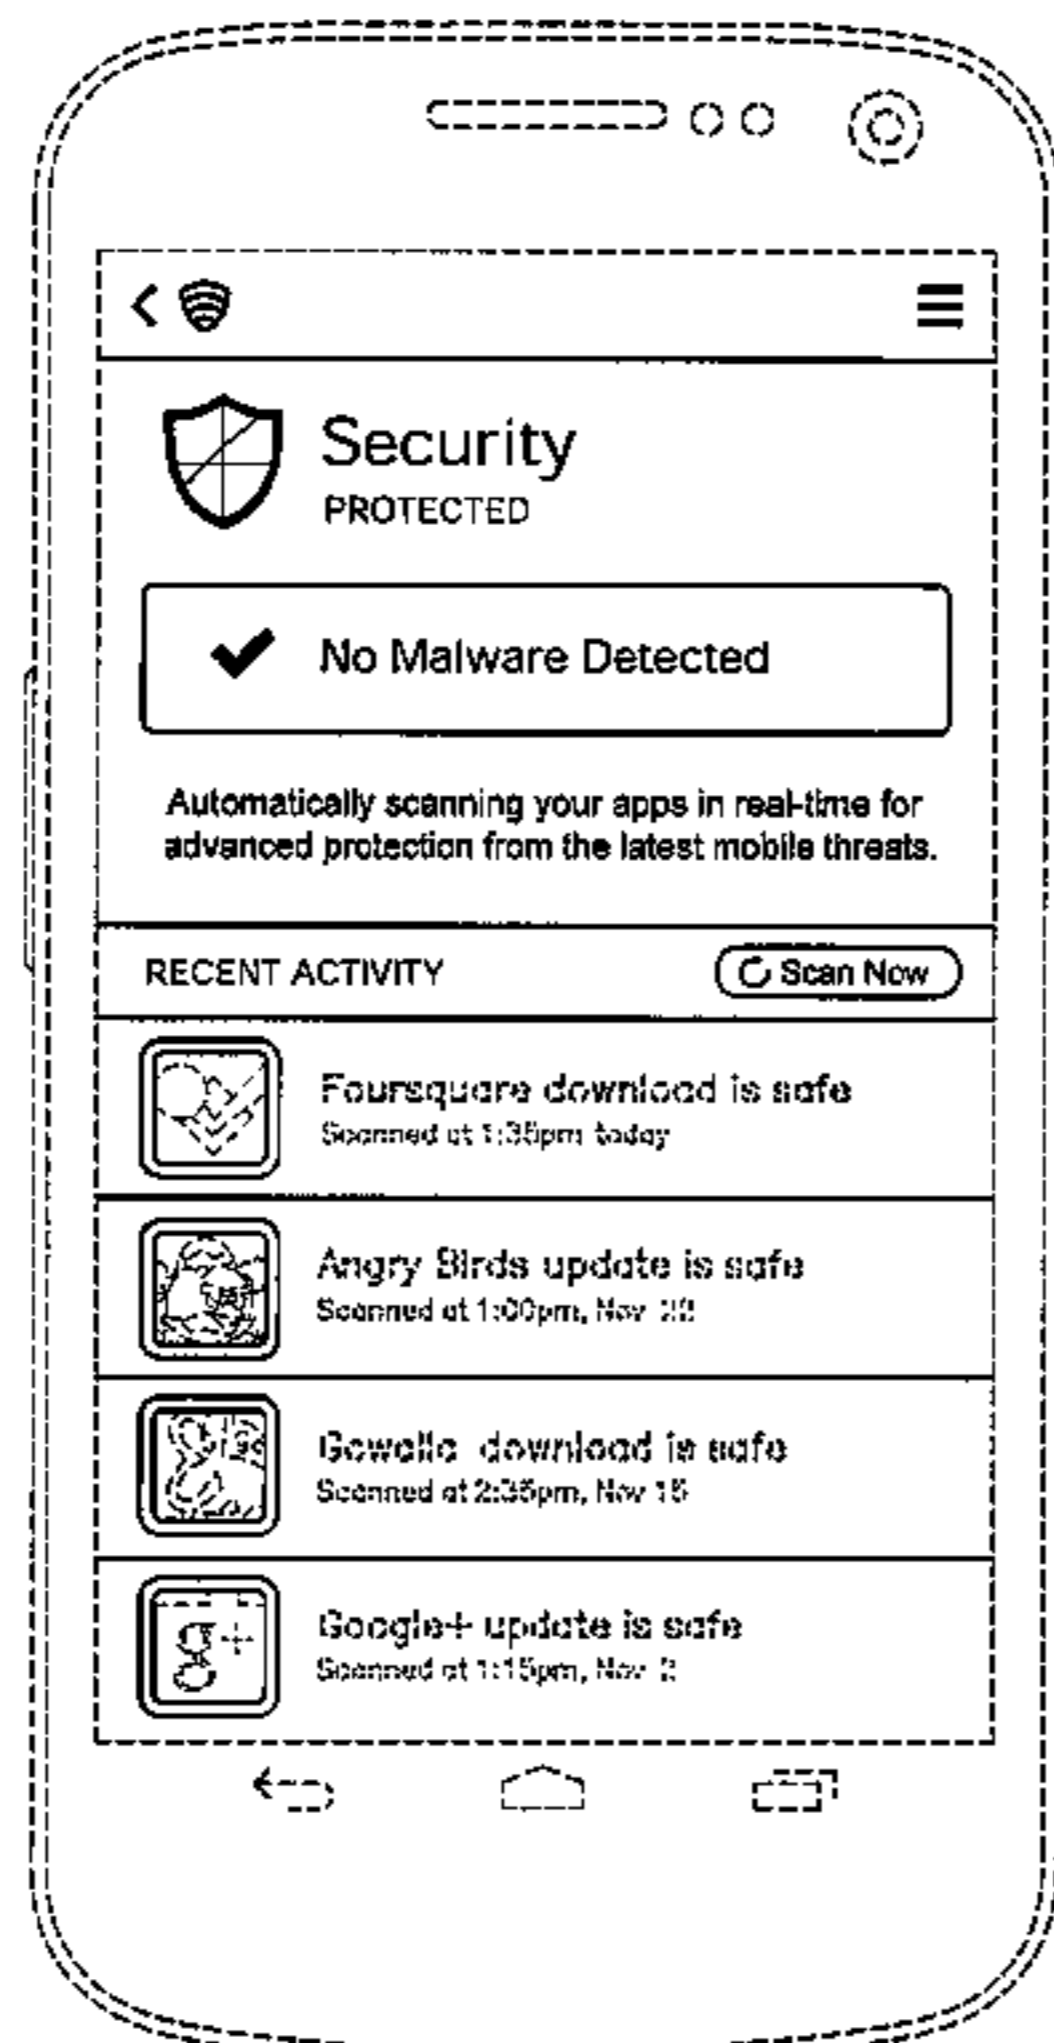

The broken lines of the mobile communication device illustrate environmental structure and form no part of the claimed design. The broken lines showings of the text and icons illustrate portions of the graphic user interface and form no part of the claimed design.
