(57) **CLAIM**

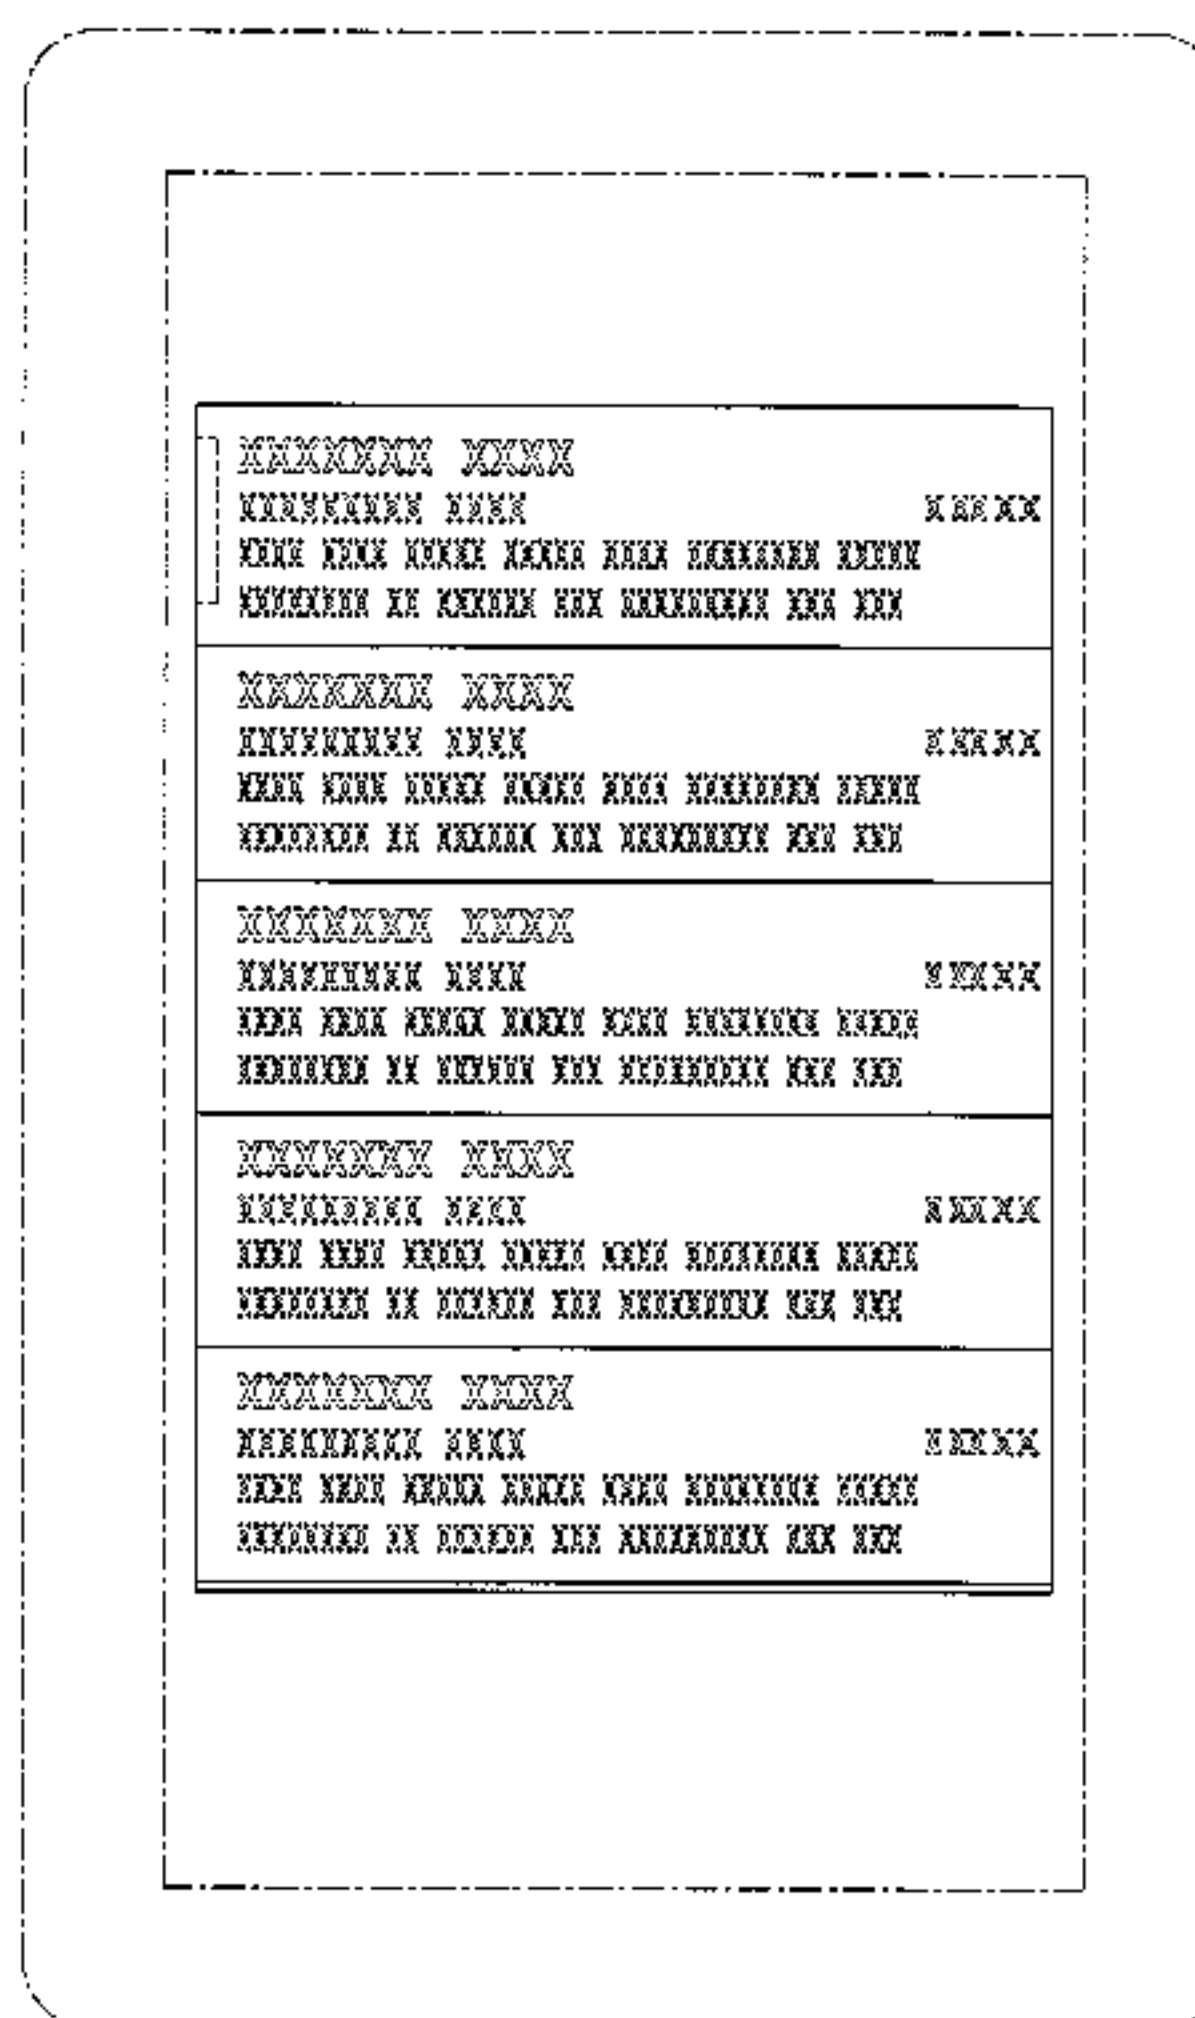

The ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of the first image of a display screen with graphical user interface showing a first embodiment of our new design;  
FIG. 2 is a front view of a second image of the first embodiment;  
FIG. 3 is a front view of a third image of the first embodiment;  
FIG. 4 is a front view of a fourth image of the first embodiment;  
FIG. 5 is a front view of a fifth image of the first embodiment;  
FIG. 6 is a front view of the first image of a display screen with graphical user interface showing a second embodiment of our new design;  
FIG. 7 is a front view of a second image of the second embodiment;  
FIG. 8 is a front view of a third image of the second embodiment;  
FIG. 9 is a front view of a fourth image of the second embodiment;  
FIG. 10 is a front view of a fifth image of the second embodiment;  
FIG. 11 is a front view of a sixth image of the second embodiment;  
FIG. 12 is a front view of a seventh image of the second embodiment; and,  
FIG. 13 is a front view of a eighth image of the second embodiment.

The broken line showing of the display screen is for the purpose of illustrating environmental structure and forms no part of the claimed design. The broken line showing the remainder of the image in all views illustrates portions of the graphical user interface and forms no part thereof.  
The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5 of the first embodiment and FIGS. 6-13 of the second embodiment. The process or period in which one image transitions to another image forms no part of the claimed design.

**1 Claim, 13 Drawing Sheets**
