(57) **CLAIM**

I claim the ornamental design for a portable electronic device displaying graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a first image of a portable electronic device displaying graphical user interface showing my new design; FIG. 2 is a second image of a portable electronic device displaying graphical user interface showing my new design; FIG. 3 is a third image of a portable electronic device displaying graphical user interface showing my new design; FIG. 4 is a fourth image of a portable electronic device displaying graphical user interface showing my new design; FIG. 5 is a fifth image of a portable electronic device displaying graphical user interface showing my new design; FIG. 6 is a sixth image of a portable electronic device displaying graphical user interface showing my new design; and, FIG. 7 is a seventh image of a portable electronic device displaying graphical user interface showing our new design. The appearance of the transitional user interface sequentially transitions between the images shown in FIG. 1-7. The process of period in which one image transitions to another forms no part of the claimed design. The broken line showing of the mobile terminal, and the on-screen symbols, is included for the purpose of illustrating environmental structure and portions of the article, respectively, and forms no part of the claimed design.
