Claudio Fresneda Neumann, San Francisco, CA (US);
Steven Bishop, Mountain View, CA (US)

DESCRIPTION

FIG. 1 shows a top right perspective view of a first embodiment of a display panel with graphical user interface showing our new design;
FIG. 2 is a top right perspective view thereof showing a second embodiment;
FIG. 3 is a top right perspective view thereof showing a third embodiment;
FIG. 4 is a top right perspective view thereof showing the first embodiment with a different broken line environment;
FIG. 5 is a top right perspective view thereof showing the second embodiment with a different broken line environment;
FIG. 6 is a top right perspective view thereof showing the third embodiment with a different broken line environment;
FIG. 7 is a top right perspective view thereof showing the first embodiment with a different broken line environment;
FIG. 8 is a top right perspective view thereof showing the second embodiment with a different broken line environment;
FIG. 9 is a top right perspective view thereof showing the third embodiment with a different broken line environment;
FIG. 10 is a top right perspective view thereof showing the first embodiment with a different broken line environment;
FIG. 11 is a top right perspective view thereof showing the second embodiment with a different broken line environment;
FIG. 12 is a top right perspective view thereof showing the third embodiment with a different broken line environment;
FIG. 13 is a top right perspective view thereof showing the first embodiment with a different broken line environment;
FIG. 14 is a top right perspective view thereof showing the second embodiment with a different broken line environment, and,
FIG. 15 is a top right perspective view thereof showing the third embodiment with a different broken line environment.
