(57) **CLAIM**

The ornamental design for a female power connector housing, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a first embodiment of a female power connector housing, showing my new design; FIG. 2 is a rear perspective view thereof; FIG. 3 is a top plan view thereof; FIG. 4 is a bottom plan view thereof; FIG. 5 is a left side elevation view thereof; FIG. 6 is a right side elevation view thereof; FIG. 7 is a rear elevation view thereof; FIG. 8 is a front elevation view thereof; FIG. 9 is a front elevation view of a second embodiment of a female power connector housing, showing my new design; FIG. 10 is a front elevation view of a third embodiment of a female power connector housing, showing my new design; FIG. 11 is a front elevation view of a fourth embodiment of a female power connector housing, showing my new design; FIG. 12 is a front elevation view of a fifth embodiment of a female power connector housing, showing my new design; FIG. 13 is a front elevation view of a sixth embodiment of a female power connector housing, showing my new design; FIG. 14 is a front elevation view of a seventh embodiment of a female power connector housing, showing my new design; FIG. 15 is a front elevation view of an eighth embodiment of a female power connector housing, showing my new design; FIG. 16 is a front elevation view of a ninth embodiment of a female power connector housing, showing my new design; FIG. 17 is a front elevation view of a tenth embodiment of a female power connector housing, showing my new design; and, FIG. 18 is a front elevation view of an eleventh embodiment of a female power connector housing, showing my new design.

The rear elevation view, the top plan view, the bottom plan view, the left side elevation view, and the right side elevation view of embodiments 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11 are the same as that of in embodiment 1, with only difference of the location of 2 small tabs as shown in each embodiment's front elevation view.

The broken line in the drawing view represents unclaimed environment only and forms no part of the claimed design.
